

MEXICAN REBELS ASK PEACE

CITY HALL HOLDS
ASSEMBLY GRIP
DESPITE VOTERSThompson Gets Help
Downstate.

BY CARL WARREN.

Mayor William Hale Thompson's political machine, although discredited and repudiated at three elections in Chicago, still controls a powerful bloc in the state legislature at Springfield. The progress made by pet city administration bills during the present session is an indication.

Despite the fact that the voters have ousted Small, Crowe, and every other "America First" candidate they could reach and twice have rejected all Thompson bond issues, the city hall lobbyists apparently have met with no difficulties in shoving along measures intended to place more cash in the hands of the Thompson administration. Several such bills are on their way to passage in the house of representatives, where the Thompsons are concentrating their efforts.

\$1,000,000 Harbor Revenue.

First on the city hall legislative program is the Lake Calumet harbor bill, which, if passed, will allow a 1/4 mill tax on all Chicago property and give Mr. Thompson and his associates an annual revenue of \$1,000,000.

Representative Elmer J. Schnackenberg of South Chicago, chairman of the house committee on municipalities and Chicago traction, introduced the bill and it was referred to his committee. Mr. Schnackenberg last year drew \$4,882 from the city as a \$50 a day legal expert for Corporation Counsel Samuel A. Ettelson. In 1927 he drew \$4,655, giving him an average income of \$4,768 a month from the city treasury since Mayor Thompson took office.

Amendment Is Smothered.

The Schnackenberg committee approved the harbor bill by a vote of 3 to 6, smothering a referendum amendment offered by Representative T. J. O'Brien without a roll call. At the same session, the committee recommended a bill to keep at \$1.07 1/2 the city's corporate tax rate, which, unless new legislation is enacted, will drop to 12 cents next Jan. 1. A few minutes later the committee laughed to death a measure introduced by Representative J. D. Harris to require quarterly publication of pay rolls of Chicago public bodies.

Yielding for the harbor bill were both Chicago and downstate members. They were Facelli, Warfield, Noonan, Franz, Mcweeney, Jacobson, Cola, Schnackenberg, Overland, Proper, Weeks, Blackwell, Mancini, and Ruddy of Chicago, and Ryan, McGrath, Lohman, and Beckman, downstate. Opposing it were: Bederman, Griffin, Harris, Lee, and O'Brien, Chicago; and Peffer, downstate.

Water Bill Also Pending.

Still pending before the Schnackenberg committee is another Thompson bill to allow issuance of bonds without a referendum against the water fund, already in a \$12,000,000 deficit. A companion bill, validating \$1,750,000 worth of unsold water certificates, found to be worthless without a referendum, has been recommended by the committee.

A third city financial relief bill, allowing 6 instead of 5 percent interest on school tax anticipation warrants, is on second reading in the house.

At all of the meetings of the municipalities committee delegations of Chicago city officials have been conspicuous. Their visits have supplemented the activities of Corporation Counsel Ettelson's assistants, Leon Rosenblatt and James I. McCarthy, who are kept at Springfield as permanent lobbyists. One of them returns to Chicago each week to make reports and get instructions.

How City Hall Wins.

Two circumstances, as seen by the Springfield observers, have contributed to the progress of the Thompson program.

First is the cloud raised by the military district scandal investigation. Hot on the trail of the drunks, board evils, the legislators have had little time to look into pay rolls and contracts at the city hall. The Thompsons lose no sleep over this. The investigators busy, as they view the city hall doings remain quietly in the background.

More significant, however, is the apparent alliance between the Thompson and downstate forces—the same coalition which jammed over the same campaign tax and the Thompson revenue bill in 1927. Now it is the Thompson revenue bill and a new set of Thompson revenue bills.

Although Gov. Emmerson publicly

WONDER HOW LONG A PRIVATE BUSINESS WOULD LAST IF IT WERE RUN THE WAY SOME OF OUR STATE AND LOCAL GOVERNMENTS ARE RUN?

come to an end. We will have to lament only material losses and the destruction of vast sections of railroads and telegraph lines, the sinking of banks and other credit institutions, and all the losses of the nation will only leave the government in a stronger position to carry through its program of administration, which has only temporarily been interrupted by the ignominious elements bent on satisfying personal ambitions and willing to draw the nation into fratricidal strife in order to satisfy themselves. The Mexican people are solidly behind the government and are not responsible for the revolt."

Calles to Reorganize Forces.
In military circles it is expected that it will take the rest of the week for all of Gen. Calles' troops to arrive in Torreon, reorganize the military forces, and place the city in condition to serve as military concentration quarters for the continued advance against the rebels. Gen. Calles expects to arrive there tomorrow.
It is not probable that any but the main lines from Mexico City to Torreon will be reconstructed at present, owing to the pressing need of rebuilding portions of the road toward Chihuahua, which may be destroyed by Gen. Escobar's troops.
With over 300 miles of railroads leading into Torreon completely disrupted, and with the prospective destruction of 300 miles more between Chihuahua and Torreon, the great problem of bringing the revolution to a speedy termination is the reconstruction of the disrupted railroads," said a railroad engineer today.
"The rails will have to be gathered from the ends of the republic, and some will probably have to be imported from the United States before the tracks can be relaid behind the retreating rebels."

Chooses Oasis as Headquarters.
ESCALON, Chihuahua, Mexico, March 18.—(AP)—Gen. Jose Gonzalo Escobar, Mexican rebel commander in chief, after evacuating Torreon today set up his headquarters at this oasis in the Chihuahua desert, 100 miles north of Torreon.
For days Gen. Escobar had been concentrating troops in Torreon, expecting to meet the federalists there in perhaps the most crucial battle of the revolution. When Gen. Calles had approached to within a few miles of Torreon last night Gen. Escobar suddenly roused his sleeping army and rushed his troops here. Escalon is a railroad center and the only place within a wide section of desert where water is available.

Trying to Lure Federalists.
Rebel leaders declared Gen. Escobar's move in no wise indicated any fear of defeat on his part. Rather, they said, the setting up of field headquarters here was to lure the federalists as far north as possible. It was pointed out that the further north the federalists are forced to go, the further they will be from their supplies and the stronger will be the rebel army.
Predictions were made freely that Gen. Escobar might attempt even to draw the federalists as far north as Chihuahua City, rebel capital of the state of Chihuahua. Chihuahua City is 225 miles from Juarez, Mexico, across the international border from El Paso, Tex.

Reports Six Airmen Killed.
El Paso, Tex., March 18.—(AP)—Paul Basio, federal district attorney at Torreon, announced here today that six men who manned a federal bombing plane which attacked Torreon Saturday were killed when the machine crashed on the railroad track five miles from the city after a fight with a rebel plane.

Dig New Trenches at Nogales.
NOGALES, Sonora, Mexico, March 18.—(AP)—The northwestern theater of war of the Mexican revolution was

REBELS RETREAT

The Mexican rebel army has retreated to Escalon, 100 miles north of Torreon, which has been entered by federalists.

Escalon is on the Mexican National railway, which runs north through Chihuahua City to Juarez on the border and is controlled by the insurgents.

Rebel sources said the federalists had cut the railway at Bermejo, a few miles north of Torreon, but this action evidently came too late to stop the escape of the rebels.

quiet today. Rebel troops here were repairing old trenches on the hills overlooking Nogales, and some new fortifications were thrown up along the railroad line to the south to protect Nogales from attack.

A small train of mixed infantry and cavalry was shunted south of Nogales, but rebel leaders here declined to reveal whether it was bound for Sinaloa or eastward toward Naco, Sonora, which is held by federal troops.

Rebels Close to Mazatlan.

Advices from San Blas, on the Sinaloa-Sonora border, 350 miles north of Mazatlan, indicated that efforts to repair a railway bridge resulted in collapse of the structure. It was announced that this will slow up rebel movements toward Mazatlan.

Other reports to rebel headquarters asserted the forces of Gen. Ramon F. Iturbe, moving on Mazatlan, were within striking distance of the seaport.
Gen. Enrique Estrada, generalissimo of the De La Huerta 1923 revolt, who is commanding a force in the present rebellion, was reported to have encamped a troop or cavalry near Cananea, south of Naco.

Free 84 Rebel Officers.

VERA CRUZ, Mexico, March 18.—(AP)—Orders have been given to place at liberty today 84 officers of the revolt of Gen. Jesus Maria Aguirre in this state. The officers were brought here prisoners last week from Santa Lucracia, where six of their number, including Gen. Simon Aguirre, were court-martialed and put to death.

More U. S. Troops Go to Border.
Washington, D. C., March 18.—(AP)—Movement of more American troops to the Mexican border was in progress today, presumably with a view of reinforcing American immigration officials as a precautionary step to stem a possible wholesale tide of rebel entry into this country.

Acting on his own authority, Maj. Gen. William Lassiter, commander of the 8th army corps area at San Antonio, ordered a platoon of cavalry from Fort Bliss, El Paso, to Columbus, N. M., and directed Brig. Gen. George Van H. Moseley Jr., commander of Fort Bliss, to make an investigation of conditions at the border city of Columbus.

ANNUITIES SLOW UP ACTION ON WORLD BANK PLAN

Committee Hopes to Report Project Tomorrow.

PARIS, March 18.—(AP)—Private talks between German, French, Belgian and English experts will constitute the principal activity of the second Dawes committee this week and perhaps next week.

This means that the vital question of figures has taken precedence over details as to the means of transferring annuities under the new reparations plan.

The international bank plan, which was designed to handle payments, still is in the hands of the subcommittee. Reports presented today by Dr. Schacht, Lord Revelstoke and Thomas N. Perkins were briefly considered but evidently not regarded as conclusive, since the matter was put over until Wednesday for further consideration.

There is a possibility that the bank plan may be completed for action by the committee Wednesday afternoon. But the question of amounts, annuities and total reparations Germany must pay has thrust this scheme into the background.

French, Germans May Compromise.
Indications have been that the French and Germans are approaching a point where a compromise is possible, although the experts have been extremely reticent with regard to figures mentioned in their private conversations.

The French are ready to make important concessions in order to facilitate the commercialization of part of the debt. Ready money that might be obtained from that operation would enable Premier Poincare to retire a considerable part of the bonds issued for reconstruction, reduce interest charges to an appreciable extent and make possible reduction of taxes which the French parliament opposition has been demanding with increasing insistence and with the support of certain elements in the government majority itself.

Germany Heteroties Stand.

BERLIN, March 18.—(AP)—The Diplomatische Politische Korrespondenz, which reflects the German foreign office viewpoint, today says that neither the question of Germany's paying the equivalent costs for the reconstruction of the war areas nor of an adequate sum to cover the war debts of the allies among each other and to America, is in any way conformable with the reiterated German standpoint on reparations.
The paper declares that definitive

JUAREZ SCARED BY BULLETS IN BURNING HOME OF GENERAL

JUAREZ, Mexico, March 18.—(U. P.)—Explosion of 700 cartridges in the ammunition storehouse of Gen. Marcelino Murrieta, rebel customs collector here, caused ten minutes of excitement in Juarez today. Rebel soldiers thought the town was being attacked.

Gen. Murrieta charged that a fire which caused the explosions was an attempt to murder his family. A man bearing a passport with the name Carlos M. Perez was arrested leaving the building after the fire started. A second man escaped. Ten thousand rounds of ammunition were stored in the room.

A few minutes before the fire Gen. Murrieta said he had prevented his two small children from entering the room.

settlement of German liabilities is dependent upon Germany's ability to pay and not upon the requirements by the allied powers resulting from their own foreign debts.

Official announcement was made today by the foreign office that Dr. Gustav Stresemann has no intention of resigning as German foreign minister after conclusion of the reparations conference in Paris.

Italy's Position Unchanged.

PALESTERMO, Sicily, March 18.—(AP)—Finance Minister Mosconi, alluding to the experts' conference at Paris in the course of a meeting today, said that the Italian government's viewpoint had not changed, namely, that Italy was always disposed to adhere to any reasonable solution, but could not consent that Germany's payments would be affected in any way that might cause difficulties with Italy's payments abroad on her own war debt.

Pope Says Mexico Needs Church; Tells of Prayers

(Chicago Tribune Press Service.)
ROME, March 18.—Mexico, more than ever before, now needs the benefits of religion, Pope Pius today told twenty Mexican alumni of the Josephine missionary college, who received audience. The pontiff spoke words of encouragement to the missionaries about their future work in Mexico. He said he was praying for Mexico, which is dear to him, and asking that prayers of all Mexican Catholics should be granted.

Girl Says She Poured Poison Into Cocktail

Miss Harriet Austin, 22 years old, 4512 Malden avenue, poured poison into a cocktail in a fit of abstraction, she insisted last night at the county hospital when police questioned her concerning a possible suicide attempt. Her condition is not serious.

HENRY J. ALLEN ELECTED HEAD OF WATERWAY BODY

Wichita, Kas., March 18.—(AP)—Tidewater transportation through the St. Lawrence river and the great lakes is one of the most important of plans for agricultural relief, Henry J. Allen, former governor of Kansas, newly elected president of the Council of States of the Great Lakes-St. Lawrence Tidewater association, said today.

Mr. Allen was elected to the post at Milwaukee today. He succeeds ex-Gov. W. L. Harding of Iowa.
The champion of the project in several debates, one with former Gov. Nathan Miller of New York, Mr. Allen said that the scheme, when completed, would bring the midwestern farmer in close touch with ocean transportation and would enable him to save from eight to ten cents a bushel of the cost of marketing grain.

Fined \$200 for Molesting 6 Year Old Girl at Movie

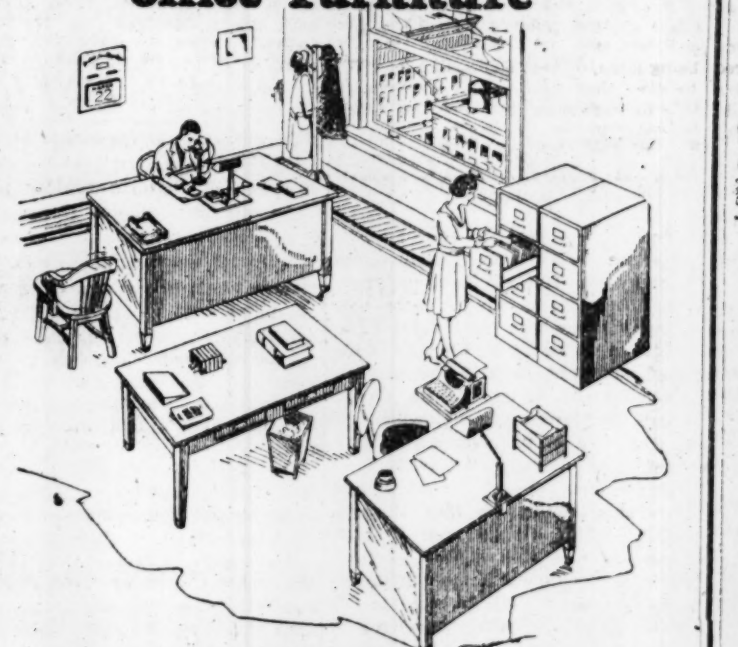

Charles Emma, 52 year old laborer of 24 North Bishop street, was fined \$200 yesterday by Judge John J. Lupe in Des Plaines street court, for molesting a six year old girl last Sunday in the American theater, 8 North Ashland avenue. Police arrived in time to save Emma from a beating at the hands of other men in the audience.

'Order from Horder' Office Furniture

Well Chosen Furniture Is a Business Economy

A well-appointed office is an inspiration to good work. Amid restful surroundings, created by pleasing desks and accessories, people enjoy their work. Hence they can do more with less fatigue.

Contrary to general belief, good furniture (even of period design) is not expensive. While the first cost may be slightly more than that of the more prosaic desks and chairs, the added pride of those who work in such an office produces a morale that results in profitable benefit.

Let Our Specialists Help You Plan Your Office

Horder specialists will gladly assist customers in obtaining the furniture best fitted for their individual needs. There is a wide range of sizes, styles and grades. You will be interested in the unusual display at our furniture exhibit (S. W. Corner Wabash and Lake Street) also in our own new offices. Full information at any Horder Store. Illustrated catalogs upon request. Out-of-town shipments handled promptly.

Horder carries a complete stock of the leading lines of office furniture, and is in a position to supply attractive period designs, as well as standard type desks, chairs and tables at reasonable prices. Such nationally known products as:

Dietz Desks, Johnson Chairs, "Berloy" Steel Files, Shaw-Walker Safes and St. Johns Tables form part of Horder's large and interesting line. Steel desks also on display.

Prompt Telephone Service. A Fleet of Trucks for Rapid City Service. Special Department for Mail Order Service.

Why your hair can grow

It is natural for you to have a good head of hair, and unnatural for you to become bald. The average hair on a healthy scalp lives about three years, then falls out and is replaced by a new hair ... If your scalp is unhealthy—too dry or oily, itchy or laden with dandruff—the falling hair is not being replaced by new hair, as Nature has intended. The mature hair falls, but the under-nourished new hair does not have sufficient strength to push through the dandruff clogged follicle ... Thomas' treatment is therefore based on the theory that Nature needs help in keeping the scalp in a healthy condition, conducive to normal hair growth, just as Nature needs help in keeping other organs of the body functioning normally.

Thomas' Treatment Aids Nature

Thomas' treatment scientifically destroys any local germ infection (such as dandruff), opens the clogged hair chambers (follicles) through which the new hair must grow, and stimulates the sources of nourishment, thus stopping abnormal hair fall and permitting the dormant new hair to come forth on the scalp in the most natural manner.

Examination Without Charge

Call at the Thomas' office today and have your scalp examined without charge or obligation and let the specialist in charge tell you what this treatment can do for your particular trouble.

TAKE FIRST FOR U. S. IN WORLD

Root Formula Now Up to

BY ROBERT GENOVA, March 18.—(U. P.)—The American people, embodying the spirit of the United States, was a committee of international law. Thus, the first taken for the United States. The American people, embodying the spirit of the United States, was a committee of international law. Thus, the first taken for the United States. The American people, embodying the spirit of the United States, was a committee of international law. Thus, the first taken for the United States.

COURT DISMISSED TWO CONTE ALDERMAN

County Judge Edmund yesterday dismissed the suit brought by Alex. Berthold against Ald. Berthold (18th), and one brought by Bolton against Ald. Fr. (18th). Bolton then filed the Superior court to make election commissioners' name for the April runoff.

In the County court, Julius J. Harrington, representative, was sustained on a technical attack against petitions, contending failed to follow prescribed form. Unless Judge Jarecki's decision is upheld by another court, men stand reflected.

TAKE FIRST STEP FOR U. S. ENTRY IN WORLD COURT

Root Formula Accepted;
Now Up to Senate.

BY ROBERT SAGE.
(Chicago Tribune Press Service.)
GENEVA, March 18.—The revised Root-Hurst formula for the world court, embodying the Root-Hurst formula to enable the admission of the United States, was approved by the committee of international jurists today. Thus, the first step has been taken for the United States to enter the world court. The American senate and the two states that are members of the court must now ratify the new protocol before the United States can enter.

The reworded formula is incorporated as article five of the protocol. The principal change is a provision for the direct exchange of views between the league of nations council or assembly with Washington in case an advisory opinion is requested from the court, instead of using The Hague as an intermediary.

U. S. May Withdraw.
Assuring Washington the court shall not without the consent of the United States entertain any request for an advisory opinion touching any dispute or question in which the United States has or claims any interest in, the document contains a provision that the United States may withdraw at any time, "without any imputation of unfriendliness or unwillingness to cooperate generally for peace and good will."

The Root-Hurst formula provides for the immediate notification of Washington of a proposal for an advisory opinion and, if desired, an exchange of views between Washington and Geneva. Any American objection will have the same value as that of a league member's vote against asking an advisory opinion.

Now Up to U. S.
With the approval of the protocol, the jurists wash their hands of the job of interpreting the United States senate's reservations in such a manner as to bring Washington and The Hague together. Final acceptance of the protocol depends on the league council and the 52 signatories of the original protocol and the United States government itself.

The revised protocol, together with the Root-Hurst formula covering the report, will be sent to the league council members and also to Washington. The document will be taken up by the council during its June session at Madrid, and then if the council approves of the protocol, it will be officially transmitted to all the interested governments for ratification.

The league assembly will also consider the protocol in September.

**COURT DISMISSES
TWO CONTESTS IN
ALDERMAN RACE**
County Judge Edmund K. Jarecki yesterday dismissed the election contest brought by Alex Kieferstein against Ald. Berthold A. Croson (10th), and one brought by John M. Bolton against Ald. Frank A. Sloan (10th). Bolton then filed a bill in the superior court to mandamus the election commissioners to certify his name for the April runoff election with Sloan.

In the County court, Attorney Corwin J. Harrington, representing the aldermen, was sustained by the judge in a technical attack against the contest petition, contending that they failed to follow prescribed procedure. When Judge Jarecki's decision should be upset by another court, the aldermen stand reflected.

Father Loses Fight for Child

Miss Ellen Lagstrom with her niece, Marilyn Reining, 4 years old, whose father sought to have child taken from custody of her grandparents and turned over to him. Judge Eller ruled against him.

POLICE UNIFORM IS LOS ANGELES MASSACRE CLEW

The investigation in the Moran gang massacre continued yielding clues yesterday and last night. From Los Angeles came a police telegram concerning one James McKnight, alias Brock, arrested in the California city recently for a traffic violation wearing a Detroit police uniform. McKnight was released, but the police suspect he might be James Burke, whose photograph was identified as one of the killers. Police Commissioner Russell advised Assistant State Attorney David Stansbury of the Los Angeles message and instructed Stansbury, who is in Detroit, to look into it.

A discovery which tended to corroborate the story of Dr. L. W. Tacker, right side dentist who said he was kidnapped and taken to Detroit following the murder, was made yesterday when a red fountain pen was found under the scorched seat of the car bombed Feb. 27 in Maywood. Dr. Tacker identified the pen as his.

DECIDE FRIDAY ON 'OPEN HOURS' FOR BRIDGES

Final adjustment of the hours when traffic can fly up and down the Chicago river, forcing the bridges to open, will be made at a meeting of a subcommittee of the council Friday at 10:30 a. m. Ald. William Rowan (10th), chairman, announced yesterday. Arrival of charts prepared by the Chicago Surface Lines to show the flow of street cars to the loop to take care of the evening rush hour gives the subcommittee all the data needed, he said.

Changes in the existing hours when the bridges open are opposed by ship- pers with the exception of a minor change on bridges across the north branch of the river. The surface lines, however, are demanding a longer closing period in the afternoon so that empty street cars can get into the loop without congestion and for shifts in some of the periods.

Grandparents Win

Richard Reining failed yesterday in a court fight before Judge Emanuel Eller to obtain custody of his daughter, Marilyn, 4 years old. The child was permitted to remain with her maternal grandmother, Mrs. Caroline Lagstrom, 6404 Dorchester avenue. Reining was separated from his wife, Alvine Lagstrom Reining, for more than three years when she died on Feb. 19. Mrs. Lagstrom testified that Reining did not try to see his daughter in all that time. She contended that he lost his right to the child through this alleged neglect.

CRUSHED AGAINST WALL BY TRUCK IN GARAGE; DIES

William W. Davis, 53 years old, 6546 Greenwood avenue, employed in the garage of W. O. Dite, 8238 Stewart avenue, was fatally injured yesterday when a truck crushed him against a wall. He died later at the Jackson Park hospital. William Best, 7432 Blackstone avenue, driver of the truck, was not held. This death raised the 1929 county motor death toll to 142.

Ruth Doyle, 16 years old, 1215 Elmwood street, Evanston, was injured when the taxi cab in which she was sitting was struck by another cab in front of 1220 Chicago avenue, Evanston.

Approve \$3,600 Fee for Wharton as Prosecutor

State's Attorney John A. Swanson, in an opinion to the county board yesterday, approved payment of a \$3,600 bill for services as a special prosecutor performed under former State's Attorney Robert E. Crowe by Attorney Charles Wharton, who was recently convicted in the federal court in connection with the Evergreen Park mail robbery. Wharton represented the state in the trial of Dr. Spencer Brown and an accomplice on charges of receiving stolen bonds.

RUSSELL URGES RADIO STATION OWNED BY CITY

Impressed by Success of
W-G-N Tests.

Erection of a municipally owned radio broadcasting station to furnish direct communication between the detective bureau and roving police cars, equipped with receiving sets, was urged yesterday by Commissioner of Police William F. Russell. A request for approximately \$30,000 with which to construct the station will be made to the council finance committee this week.

This method of concentrating police at the scene of a crime immediately after the alarm is given was planned by officials of W-G-N, the Tribune's broadcasting station, with Commissioner Russell's approval. After several weeks of experimenting, Carl Meyers, chief engineer of W-G-N, has perfected a receiving set which allows excellent reception under all conditions.

Five police cars were equipped with sets on Saturday and the success of relaying messages to them through W-G-N was attested by the commissioner. Police bulletins were sent to three squad cars by a W-G-N announcer and within three minutes all three squads had called the bureau.

"If our cars had been equipped with radio sets at the time of the Moran slayings," Commissioner Russell said, "the killers would never have gotten away. Within two minutes after the alarm was given, police squads have been closing in on the murderers."

"The lack of man power on the force demands some substitute to make up for the deficiency. I am going to ask for 100 Ford's, two for each police station, and funds with which to equip them with receiving sets. In this manner, I will be able to release 200 policemen from the bureau to be used for post duty in the outlying districts."

The municipal radio station would be operated upon a low wave length, so that the police bulletins would not be audible to the ordinary radio listener, he said. Interference with regular programs would also be eliminated by this system.

W-G-N Will Continue.
In the meantime, the work of equipping the 40 detective cars with sets will be carried on by THE TRIBUNE, which has contributed the money for the purchase and installation.

Messages from the bureau will be relayed to the squads by W-G-N until such time as the police department is equipped to do its own broadcasting.

Interruption to the programs broadcast by W-G-N will be slight, it was said. As soon as a bulletin comes into the studio, the program will be halted momentarily, while the message is relayed to the police cars. Then the program will be continued. This is being done, W-G-N officials announced, to give the police the advantage of this forward step in combating a motorized criminal element.

BOY FINDS PISTOL; FATALLY SHOT AS HE SHOWS IT TO MOTHER

A rusty revolver which he found in an alley near his home caused the death yesterday of Clarence Grabski, 18 years old, 2077 Charleston avenue. "Look, mother, what I found," announced Clarence exhibiting the gun on his return home.

"You'll shoot yourself," exclaimed the boy's mother, Mrs. Lucy Grabski, reaching for the weapon. At that moment the old firearm discharged, the bullet striking the boy in the body. He died in St. Mary's hospital last night.

GET 4 JURORS IN MURDER TRIAL OF VIRGIL LITZINGER

Four jurors were chosen yesterday afternoon in the trial of Virgil Litzinger for the murder of Clarence Glynn during a quarrel in February, 1928, in Glynn's saloon at 2801 West 18th street. Attorneys engaged in the trial before Judge John P. McGorty estimated that a jury would be completed today.

Assistant State's Attorneys Clarence S. Pigott and Duane E. Reed indicated in their questioning of jurors that they would ask the death penalty. Jurors who said they had conscientious scruples against the death penalty were excused by Judge McGorty.

Five men sat with Clarence Glynn about a card table in Glynn's saloon on Feb. 14, 1928. Litzinger is alleged to have entered and shot Glynn in the back without warning. The shooting was said to have been the result of a beer feud.

Of the men who sat at the card table, Daniel Scully alone remains to testify. Arthur G. Gausse, who owned the saloon in partnership with Glynn, is reported to be in Hot Springs. James Traversa and Harry McCarron have disappeared and William McCarron is dead.

Death Penalty Asked in Police Slaying Trial

Arson Woodward, 35 years old, colored, was placed on trial yesterday before Judge Robert E. Gentzel for slaying Policeman O'Connell, member of a detective bureau squad. The death penalty is being asked by Assistant State's Attorney Charles Belows. Woodward is alleged to have killed the policeman when he was interrupted by the bureau squad in command of Policeman O'Connell. The robber, using his victim as a shield, shot the policeman and was himself shot, although he recovered. The jury was selected yesterday.

Girl Artist, Out of Work, Ends Her Life with Gas

Leaving a nine page note addressed "To whom it may concern," in which she said she was starving and had eaten but one meal a day for the last two months because she could not find work, Miss Amelia La Monte, 19 year old commercial artist, killed herself with gas in her room at 878 North Dearborn street yesterday. H. Miller, manager of the rooming house, found the girl's body in her room when he investigated an odor of escaping gas.

GIRL, KIDNAPED, TO MEET MOTHER AFTER 20 YEARS

Family Will Celebrate
Reunion Tomorrow.

(Picture on back page.)
Twenty years ago Mrs. Lucrezia Nuzzo, 1508 Jonquil terrace, lost her one month old daughter, Anna, when a neighbor to whom she had entrusted the child's care kidnaped the infant. Tomorrow afternoon, Mrs. Nuzzo will see her daughter again for the first time.

In the intervening 20 years, the mother had made every effort to learn the whereabouts of her child. She was transported with joy a week ago when a neighbor, Mrs. Nancy Onesti, 2237 West Harrison street, who had been godmother to the baby, received a letter from San Francisco in which the missing girl made an appeal for help in finding her mother.

Confesses on Deathbed.
Mrs. Mary De Franco, who kidnaped the baby, had taken her to California and did not for years tell the child that she was the daughter of Mrs. Nuzzo. But a short time ago Mrs. De Franco, on her deathbed, confessed to the girl that she had taken her as an infant. At once Anna made efforts to locate her mother and finally discovered that her godmother had been Mrs. Onesti.

Learning through Mrs. Onesti who her mother was, the girl wrote a letter in which she revealed that she considered herself an only daughter. Instead, she will find two brothers, Samuel and Andrew, and a sister, Mary, awaiting her. Her father is dead.

Select Flancé for Girl

Arrangements for bringing the girl here were made by her brother, Andrew Nuzzo, 717 South California avenue. A large party, including nephews and nieces of the long missing girl, will be present at the La Salle street station tomorrow afternoon when she arrives via the Rock Island. In addition, following an old Italian custom, the family in Chicago have already made arrangements with Joseph Scarbo, 2512 Wilcox street, to become the fiancé of Anna if she is willing. Mr. Scarbo will be among those waiting for the train tomorrow afternoon and he was reported last night to be waiting eagerly.

Remus Testifies in Suit to Recover Furnishings

(Picture on back page.)
George Remus, former millionaire Chicago bootlegger, who was acquitted of killing his wife, Imogene, was on the witness stand before Judge David M. Brothers yesterday in a replevin suit to recover household furnishings taken by his wife from the apartment of his daughter, Romola, while he was in prison in May of 1927. The property, valued at \$50,000, included an original signature of George Washington and paintings by Rossetti. The trial will be continued today.

NEW! Bond Ten Pay Service

It's time somebody applied modern common sense to this age old business of selling a suit of clothes.

Charge accounts simply mean postponing "the agony" of paying, for 30 days.

So called "credit" has been loaded down with exorbitant prices and extra charges.

Bond Ten Pay Service surmounts these objections! This modern thrifty service invites you to "pay as you get paid."

That's sensible!

\$10 when you buy — the rest in ten equal weekly payments—and that's all!

Our prices remain unchanged

ACCEPT PLAN TO RELIEVE CROWDED CRIMINAL DOCKET

New Court to Handle
Felony Waivers.

State's Attorney John A. Swanson and the board of governors of the Chicago Bar association yesterday approved a plan of the judicial advisory council to alleviate congestion of the Criminal court docket with cases where conviction on a felony charge is unlikely.

The plan will become operative on April 1 with the establishment of a special branch of the Municipal court to be located in the new Criminal courts and jail buildings. This branch will hold preliminary examinations in felony cases only. The state's attorney said he will assign an assistant there with authority to recommend whether the case should be disposed of summarily on a misdemeanor charge or whether the defendant should be held for the grand jury.

End of Felony Waivers.
This system would virtually abolish from the trial courts the felony waiver practice that a year ago caused three judges to be tried on charges brought by the Chicago Crime commission of paltering with crime. Where the evidence does not warrant trial on a felony count, the case will not be taken to the grand jury.

The more expeditious procedure will enable the courts to handle those indictments voted by the grand jury as fast as they are returned, it is believed. Prompt trials, it was pointed out, increase the likelihood of conviction and decrease the opportunities for tampering with witnesses.

The new system will also be of benefit to complaining witnesses. Under present procedure they must attend a preliminary hearing in the police courts and then visit the grand jury. Under the new plan the witnesses will be taken directly from the examining magistrate to the grand jury sitting under the same roof.

Will Survey Indictments.
A scheme to dispose of the 1,200 pending indictments was also approved at yesterday's meeting of the bar association's board with State's Attorney Swanson. The prosecutor will make a survey of the indictments and set aside those that should be tried on the more severe counts from those where he can recommend acceptance.

Remove the Ugly Veil of Blemishes Find Radiant Skin Beauty!

QUICKLY DISAPPEAR!

SCIENCE has found the way to quickly rid the skin of such blemishes. Pimples, Acne, Blemishes, and Pasty, Dull, Sallow Complexions need no longer mar the appearance of countless thousands of men and women. Relief is quick and easy!

The chief cause of such troubles has been ascertained. They come from a toxic condition of the blood resulting from intestinal stasis and auto-intoxication. The whole system becomes septic. With lowered bodily resistance, infection spreads easily. The cause is deep-seated, and sound treatment must be internal.

Friends will not tell of the Septic's body odor and foul breath. But your mirror will reveal these warning signs if your system is septic. Nature is signaling a condition that mars the beauty and sours the health.

Try This Week-end Test

A ten-cent package of Calcium Wafers, from any drugstore—and follow directions for three days. What a difference! Eyes bright! Complexion clear—and with radiant natural color! Hair healthy, soft and silken! Let one dime open this easy way to skin beauty for you.

Calcium Wafers

JUDGE MILLER WILL WORK LONGER HOURS TO EASE CONGESTION

Judge Harry B. Miller of the Criminal court announced yesterday that he intends to do his share toward cleaning up the crowded dockets of the criminal division by adding one additional hour to the usual court day. The other eleven judges would do the same, it was pointed out, this would in reality add the work of two additional judges to the courts each day.

Instead of laboring five hours each day as prescribed by the court rules, Judge Miller will work six hours. He will add the extra hour by shortening the usual lunch period by 30 minutes and by working another 30 minutes later in the evening. His hours will be from 10 a. m. to 1 p. m., then an adjournment until 2 o'clock and the afternoon session will end at 5 o'clock instead of 4:30 o'clock.

"Believing that the present congested condition of the Criminal court calendar requires special effort on the part of the judges to spend as much time as possible in the actual trial of cases, I shall, starting at once, add another hour to the court day," he said. "I ask the cooperation of the attorneys so that congestion in the Criminal courts may be relieved."

of pleas of guilty for less serious charges.

Five additional judges will be assigned to the Criminal court from April 1 to Aug. 1 to dispose of these pending cases. Thereafter, the regular number in the criminal branch of the court will be able to prevent another accumulation, it is anticipated, since the new system of handling preliminary examinations will curtail the volume of indictments.

"A remarkable feature of this material reform in criminal prosecutions," said State's Attorney Swanson, "is that it is being brought about without a change in our laws. We are merely making a better application of the weapons we already have for fighting the antisocial element."

Gorham Predicts Success.
Sidney S. Gorham, president of the

bar association, predicted efficient results from the new system. He pointed out that, under present methods, a police court judge is occupied with petty violations of ordinances, and when he comes to a serious case the jurist is inclined to pass the problem on to the grand jury, resulting in indictment being voted in many cases that should have been tried in the lower tribunal on misdemeanor charges.

The judicial advisory council, headed by Chief Justice Frederic R. De Young, will go to Springfield this morning to petition the legislature for further court reforms. The members will confer with Gov. Louis L. Emmerson, asking for his support, and they will then present five measures to the general assembly.

The council met yesterday with the Bar association's committee on amendments of the law. The lawyers, headed by Willard L. King, approved the principle of all the bills, although differing on slight technical points.

Seek "Gateway" Amendment.
The most important measure to be carried to Springfield by the council is a so-called "gateway" amendment to the constitution providing that three amendments to the constitution be put on the ballot at one time.

Changes in the constitution are necessary for the advisory council to carry out its ultimate objectives, which include a divorce of Cook county's courts from those of the rest of the state.

Another bill would make the trial judge, rather than the jury, the judge of the law in all criminal cases except libel and political offenses. Number three would allow the state court jurists the same leeway as is now enjoyed by the federal judges in instructing juries.

Another bill is for reorganization of our jury system, putting the jury commission under the jurisdiction of the courts and permitting a tallman to select the term of court in which he chooses to serve. The fifth measure is intended to curtail frivolous litigation and at the same time boost the court's revenues by increasing the filing fee from \$10 to \$20. It is also intended to reduce the number of jury trials in civil cases by charging a jury fee against the litigants.

Others on Commission.
Besides Chief Justice De Young of the Illinois Supreme court, the other members of the advisory council, all

of whom plan to confer with the governor today, are: Chief Chancellor Denis E. Sullivan of the Superior court, Judge Harry M. Fisher of the Circuit court, former State's Attorney John J. Healy, and Amos C. Miller, former president of the Chicago Bar association.

State's Attorney Swanson and his first assistant, Frank J. Loesch, will be among those appearing before the judicial committee of the house at Springfield tomorrow to urge the passage of the bill repealing the restrictions placed on naming of special prosecutors by the courts, it was announced yesterday. The pending bill introduced by Representative Anna Wilmarth Ickes of the Seventh district is designed to repeal the bill passed under the direction of former State's Attorney Robert E. Crowe which makes it extremely difficult to disqualify the prosecutor if he does not properly perform his duties.

ACQUIT BONDSMAN OF VAGRANCY.
Solly Friedman, a bondsman against whom Judge William E. Heider lodged a vagrancy charge last week, was released yesterday by Judge Freeman L. Fairbank on the recommendation of Assistant State's Attorney Robert Klenha.

MOTHER REGAINS HER BABY; FINDS HAPPINESS AGAIN

Story of Poverty Brings Money, Food, Shelter.

(Picture on back page.)

With her two weeks old baby back in her arms again, life began to smile a bit yesterday for Mrs. Ethel Hoffman, herself only nineteen. She had abandoned the child on Saturday when she no longer had money with which to buy milk.

The two persons she loves most, James, the baby, and his 14 months old brother, Bobby, are reunited and will never be separated from her again, and there is hope that she may begin to live anew in the home of her mother, Mrs. Margaret Bradshaw, in El Reno, Okla. The young mother has found a haven in the St. Vincent orphanage, 137 North La Salle street, where the baby was taken after she left him in a vestibule on Saturday. There she will stay, Miss Bernadine Healy, investigator for the orphanage, said, until she and her small family can be permanently settled.

Story Brings Assistance.
Since the publishing of the circumstances of the family of three, after a Tribune reporter had found Mrs. Hoffman and the older child in a bare room at 29 North Ada street, hundreds of inquiries have been received at that address, the orphanage, and the Tribune. The first thing Monday morning came three quart packages of groceries, and a dozen visitors to the Ada street address. Over \$50 came from H. C. Brolinski and Logan A. Rozelle, who delivered the gift in person.

"Some one who wants to adopt your baby just called up. What about it?" Mrs. Hoffman was asked late yesterday afternoon in the orphanage office. "I'll keep my baby," she said promptly, hugging the child to her.

Goes to Orphanage.
The same mother love that led her to abandon the child, took her to the orphanage yesterday morning, where she asked if she might see her baby. It was then she learned that she would be welcome to stay and that her troubles could be shifted to the officials of the institution, who will make arrangements for her future.

Mrs. Hoffman was married when 16 years old when she was an Omaha, Neb., school girl. Her husband, Harry Hoffman, is a sheet metal worker and a roofer, but has been out of work, she said. Unable to pay the rent at her former home at 11 1/2 North Ada street, she was forced to move. And when she could no longer buy milk for the baby, she gave up the fight to keep her family together.

POSTAL WORKER ADMITS AIDING MAIL ROBBERS

Edward Burke, 26 year old time clerk in the Grand Crossing postal station, arrested last night by Lieut. Andrew Barry and Patrolman Edward Schwimmer, confessed to postoffice inspectors that he was the "inside man" in the \$1,900 holdup of a mail truck at the Auburn Park station, 718 West 79th street, last Friday night.

Burke took no part in the actual robbery, but accepted \$395 of the loot, according to the inspectors. He and the three robbers, two of whom were arrested and confessed, became acquainted at the Wallace Athletic club, 1710 and Wallace streets. Learning he was a postal worker, the trio questioned him concerning movements of registered mail and finally bared their robbery plans, he said.

James Horton, 23 years old, of Waukegan, was the first of the robbers seized. He made a full confession to Lieut. John Tracey, following which the inspectors arrested Edward Burke, 2444 Emerald avenue, who likewise confessed. Their confederate, Vincent O'Brien, whom they credit with having first broached the robbery, is being sought. Scored pieces of mail sacks and postoffice padlocks were found in his home at 4517 Lake Park avenue.

He will, upon leaving Chicago, visit Detroit, Buffalo, and West Point before sailing for home on April 4.

M'ANDREW SUIT AGAINST MAYOR IN COURT TODAY

The trial of a libel suit brought by William McAndrew, ousted superintendent of schools, against Mayor Thompson is set for this morning before Judge Harry A. Lewis. Attorneys for both sides told the court yesterday that they will be ready to proceed.

The suit is based on the mayor's anti-British stand and his statements that the educator was a secret agent of Great Britain, poisoning the minds of the American youth with an English version of the revolutionary war. Specifically, it is based on a letter regarding the McAndrew issue sent by the mayor to posts of the American Legion under the caption "The Patriots vs. McAndrew."

HARDY TRIAL ON; MAY PUT AIMEE IN SPOTLIGHT

Impeachment Case Is Formally Opened.

(Chicago Tribune Press Service.)

Sacramento, Cal., March 18.—(Special.)—The impeachment trial of Judge Carlos Hardy of Los Angeles got under way here today before a crowd that packed the senate gallery. The hope of hearing the "inside" of the mystery surrounding the alleged kidnapping of the Rev. Aimee Semple McPherson in 1926 was the magnet that drew the throng.

Judge Hardy appeared in person in answer to the charges, and with his attorney, his son, Rex Hardy, and two other lawyers launched an attack on the constitutionality of the impeachment proceedings. He asked their dismissal, and also gave notice of demurrer to certain statements included in the charges.

The state, in its turn, invoked a technicality and recessed the senate for several hours until two absent senators could be rounded up by sergeant-at-arms Joseph Nolan. The senate was instructed by Lieutenant Governor Carnahan that all senators should be present, since only those who heard all the Hardy impeachment trial evidence were entitled to vote on the question of his removal from office.

Paid \$2,500 by Aimee.

The principal charge against Judge Hardy is that he accepted \$2,500 from Mrs. McPherson and then in return for the money he rendered legal services, which is not permitted to a sitting judge in California. Another charge is that the judge attempted to obstruct justice by efforts in Mrs. McPherson's behalf while the Los Angeles county grand jury of 1926 was hearing sworn evidence for and against Mrs. McPherson's tale of having been kidnapped from Los Angeles for six weeks.

The intrusion of the never fully explained McPherson disappearance and its echoes and rumors sent thousands of women to the senate building in a vain effort to jam into gallery space limited to hundreds. Speculation as to the possibility of disclosure in the McPherson kidnapping mystery flew from mouth to ear, with many of the state political representatives as subrosa authority for the declaration that "they will get to the bottom of the whole story if they can."

All the original letters and papers that figured two years ago in the

BRIDE OF 67 ASKS MARRIAGE TO MAN OF 76 BE ANNULLED

Mrs. Mary Ann Server, 67 years old, of Elizabethtown, Ill., filed a bill in the Superior court yesterday to annul her marriage on Jan. 16 to Emanuel Pyle, 74 years old, an insurance salesman. She alleges that they were both too infirm from age to be competent to enter matrimony.

The bill recites a story of their courtship in a religious revival campaign in Elizabethtown last December. They first met when Pyle solicited her to purchase a life insurance policy, the petition sets up, but their special relationship started while they attended nightly revival services.

Mrs. Server, who had been a widow for seven years, says she was attracted to Pyle by the religious zeal he evinced at the meetings. In his prayers and in his singing of hymns he seemed to be a man with a sincere character and a pure soul.

Pyle accompanied the widow to her home after the services. He read to her out of the Testament. He intoned from the holy writ that man is a lonely soul without woman. She was also lonely, she relates, all of her children being grown and having families of their own. He proposed marriage and she accepted.

They lived together for a week, the bill sets up. Pyle kept her awake by talking in his sleep, she alleges. She also charges that while asleep he would violently throw his arms around her and bruise her. She left him and now she wants the marriage annulled.

McPherson public hearing have been impounded for the use of the prosecution. At that hearing the since convicted district attorney, Asa Keyes, prosecuted Mrs. McPherson and then dismissed the charges after Judge Samuel R. Blake had bound her over. District Attorney Buron Fitts turned them over to special courier in Los Angeles today.

According to the Hardy attorneys the defense will define the \$2,500 McPherson check as a "love gift" from Mrs. McPherson to an old family friend who assisted in her original church labors.

Try \$150,000 Damage Suit Over Loss of Whisky

Pre-war Kentucky bourbon, 100 barrels and 250 cases, is the subject of a damage suit that started yesterday before Circuit Judge Michael Peinberg. Rudolph Lederer, formerly a wholesale liquor dealer, is asking \$150,000 from the Railway Terminal and Storage Warehouse company for the loss of the bourbon in a fire on Jan. 31, 1925. The trial will be resumed today.

GAIN IN INCOME TAX RETURNS IS OVER \$9,000,000

While final figures on income tax returns cannot be obtained until later in the week, Mrs. Mabel G. Reinecke, collector of internal revenue, announced yesterday that the returns in the Chicago district already tabulated show a gain of more than \$9,000,000 in collections over last year.

Yesterday's total showed that 211,800 returns brought in \$55,344,256.76, as compared with 197,500 returns yielding \$46,014,804.17 for the same period last year. There are about 231,000 persons taxable in the district and it is expected that most of the 20,000 returns not yet tabulated are in the unopened mail which accumulated in the office over the week-end.

3 in This Family Born on St. Patrick's Day

Beloit, Wis., March 18.—(Special.)—Mr. and Mrs. Glenn Partridge, whose birthdays fall on St. Patrick's day, will have another member of the family to celebrate with them on the same day next year. A son was born yesterday.

MIDDLE WEST INDUSTRIES ASK HIGHER TARIFF

Facts Are Presented to House Committee.

BY ARTHUR CRAWFORD.

(Chicago Tribune Press Service.)
Washington, D. C., March 18.—[Special.]—Middle western industries other than agriculture are awaiting the house ways and means committee's interpretation of President Hoover's recommendation for a "limited" revision of the tariff.

Fifty manufacturing groups with plants in the middle west have presented requests for higher duties in testimony and briefs being studied by the committee. If it is held that the middle western manufacturers, by reason of such protection as is given by the freight charges from ocean ports, have less need of higher duties than do those in New England and on the eastern seaboard, their requests may be among those which are rejected in conformity with the Hoover policy.

Miscellaneous Groups.

Such middle western industries as are of the same character as the major groups in the east are in the most favorable position. For the most part, however, the manufacturers in the central west who have asked for consideration at the hands of congress belong to miscellaneous groups which would have difficulty gaining attention except in a "general" revision of the tariff such as President Hoover opposes.

The commodities involved in the requests from the middle west are scattered through the various schedules in the tariff law.

Manufacturers seeking higher duties on articles in schedule 1, relating to chemicals, oils, and paints, include the Victor Chemical works, with a plant at Chicago Heights, which wants protection against German competition in oxalic acid and formic acid, and the Abbott Laboratories of Chicago, which wants the rate on barbitol boosted.

Coolidge Raises Rate.

In connection with schedule 2, relating to earthenware, and glassware, the Hillside Fluorspar mines with offices in Chicago and mining in southern Illinois and Kentucky are seeking an increase in the duty on fluorspar. President Coolidge by executive action under the flexible tariff raised the rate from 45 to 57.50 a short ton last fall, but a further increase to 110 is now asked. Under this schedule also comes the spectrograph, on which the scientific apparatus manufacturers, including the Gaertner Scientific corporation of Chicago, are seeking a higher duty.

A considerable number of middle western manufacturers, whose products come in schedule 3, relating to metals, want more tariff protection. Charles Piez of Chicago appeared on behalf of sprocket chain manufacturers, including the Link Belt com-

pany and the Webster Manufacturing company of Chicago and the Chain Belt company of Milwaukee. Eleven manufacturers of wire netting, including one at Chicago and others at Joliet, De Kalb, and Peoria, Ill., and Muncie, Ind., have requested specific duties on galvanized wire and fencing instead of present ad valorem rates.

Makers of Wire Cloth.

John D. Watson of Appleton, Wis., asked for higher duties on behalf of the Wire Cloth Manufacturers' association.

The Elgin National Watch company of Elgin, Ill., and the Illinois Watch company of Springfield, Ill., have sought higher duties on watches, pointing out that there are only five watch manufacturers left in the United States. As against their demands, the American Watch Importers' association, represented by Emil N. Zolla, former Chicago member of the Illinois legislature, is asking lower rates. Higher duties on clocks have been asked by clock manufacturers, including the Western Clock company of La Salle, Ill., and the Sangamon Electric company of Springfield, Ill.

Rudolph Heim of Chicago, appear-

ing for the United Wall Paper Crafts, has requested higher duties on print rollers and print blocks. The Vitrolite company of Chicago wants more protection on vitreous slabs. Thomas C. Thompson of Wilmette, Ill., on behalf of manufacturers of glass or vitreous enamels and colored special types of glass rods, similarly urged the need of a higher rate.

Continuation of the present duties on enameled ware is desired by the Metalware Institute, which was represented by Wilbur Topping of Terre Haute, Ind. O. L. Weber of Stevens Point, Wis., sought an increase in duties on behalf of the fishing tackle industry.

Ask Duty on Hard Woods.

Schedule 4 relating to wood and its manufactures brought out a number of requests from the middle west. W. S. Bennet of Chicago, appearing for the Edward Hines associated lumber interests, asked for a tariff on hard woods.

John W. Blodgett of Grand Rapids, Mich., sought a duty on soft wood lumber other than wood log products. Robert W. Irwin of Grand Rapids, Mich., asked an increase in duties

on behalf of furniture manufacturers. Four Wisconsin manufacturers of wood-slat porch shades, the Aero Shade company, and the Gilbert Lewis company of Waukegan and the Hough Shade corporation and the Raymond Porch Shade company of Janesville, requested a continuation of present duties of 35 and 45 per cent.

Higher duties on various kinds of paper in schedule 13, were requested for the American Paper and Pulp association by D. C. Everest of Rothschild, Wis. Felix Pagenstecker of Kalamazoo, Mich., represented manufacturers of printing paper.

In connection with schedule 14 relating to sundries, F. C. Vetter of Muscatine, Ia., was spokesman for the fresh water pearl button industry. Representing the National Association of Button Manufacturers, he asked higher duties against imports from Japan, Czechoslovakia, France, Germany, and Italy. He said that Muscatine and other cities located on the Mississippi and Ohio rivers largely were dependent upon the pearl button industry.

Others interested in commodities in schedule 14 relating to sundries, in-

3 Face Jones Law Trials; One for Selling 2 Drinks

New York, March 18.—[Special.]—Three men, each charged with selling a glass of liquor to prohibition agents face the possibility of five years in prison and fines of \$10,000 as a result of the first day's "operation" of the new Jones law in New York. The trio, Ernest Douglas, Arthur Daniel, and Michael Feldorf, were indicted by the federal grand jury. The first named is alleged to have sold two glasses of liquor to as many federal agents on March 6. The two others were trapped in a similar manner.

CONFESSED TWENTY ROBBERIES.
Fifteen minutes after he held up and robbed Robert Bryant, 4835 Vincennes avenue, McKinley Gordon, 32 years old, Negro, 4625 St. Lawrence avenue, was captured by Wabash avenue police and he later confessed twenty other robberies.

To Say SAVOY CORN is such an easy way to secure the best

Flavor so rare and good and wholesome that it spurs on even the most "finicky" appetite of child or adult is a good thing.

But when that rare good flavor is combined with rich, nourishing qualities, as in SAVOY CORN, that is a wonderful thing! For the tempting, fresh-from-the-garden flavor of this tenderest young sweet corn is matched by a high, health-giving content so necessary for vitality and

energy in children and grown-ups.

When you give your family this garden-fresh SAVOY CORN regularly, you give them HEALTH in appetizing form. Packed in family and kitchenette size tins.

Savoy Corn Peppers

Pepper green sweet peppers. Fill each with 2 tablespoons Savoy Corn, 1 tablespoon minced ham, 1 teaspoon melted butter, 1 tablespoon milk, pinch of salt. Top with cracker crumbs. Bake in moderate oven.

HERE AT LAST a Special Tooth Paste for teeth that are HARD-TO-WHITEN

If your teeth are hard to whiten, you don't have to be told that a lot of otherwise good tooth pastes simply don't do the job. Are too foamy or frothy or liquefy too readily in the mouth.

Then there are others that do the work all right, but play havoc with the delicate tooth surfaces.

IODENT No. 2 is specially compounded to whiten hard-to-whiten teeth safely and swiftly. It is one of the most popular tooth pastes in America for that reason—and dentists everywhere will vouch for its safety and effectiveness. In fact it is made by a Dentist.

And of equal importance remember that IODENT contains calcium and potassium iodides in easily soluble form—a tonic without peer for soft, bleeding gums.

Buy a tube of IODENT today and you'll be astonished at results. At any druggist's.

BLOW AT CROWE SEEN IN MEYERS, HOUSTON OUSTING

Mayor Denies Case Has
Any Significance.

(Picture on back page.)

Since the defeat of former State Attorney Robert E. Crowe a year ago the city hall has been awaiting the passing of his patronage power, but yesterday, when Thomas J. Houston, president of the civil service commission, and Louis J. Meyers, member of the zoning board of appeals, were replaced, Mayor Thompson denied that this presaged the long expected event. "Houston's term expired last sum-

mer, and I understood he had something else in view," the mayor said. "Meyers has been in Europe for three months and the board has not been able to muster a quorum to transact business. There is no significance in the fact they were both recommended by Crowe."

Ames Succeeds Houston.

But politicians saw in the appointment of Carlos Ames to succeed Houston a shifting of the political tides. Ames, a former major in the army, had until yesterday been secretary of Lincoln park, under President Eugene R. Pike, a close friend of Mayor Thompson. Gov. Emmerson is expected to dismiss all the Thompsonites from the park boards, and it appeared that a berth for Ames was sought by the Pike-Thompson following.

Houston and his friend, U. J. Hermann, owner of the Cort theater, are talked of for places as Lincoln Park commissioners, with Herrmann having preference for the presidency. Houston said he had been ready to step aside from his city hall position for nearly a year. Since his appointment two years ago, and the appointment at the same time of Fire Commissioner A. W. Goodrich, there has been friction between the two. Goodrich was rated as a close friend of the mayor, while Houston's backing was through Crowe.

Yesterday it was said that Houston's

refusal to allow John Cullerton, former fire commissioner, to dictate in promotional examinations among the firemen caused the rift between Goodrich and Houston, as Cullerton's influence is still felt in the department. Leroy Miller, Republican committeeman of the 41st ward, succeeds Meyers on the zoning board. He has been superintendent of the municipal tuberculosis sanitarium and his political affiliations have been with Deneen, then Brundage, then Crowe, and now with Thompson.

Mayor Thompson, who stepped back into the field of political activity yesterday after nearly a year of retirement after his slate of America First candidates were defeated, said no other cabinet changes are in prospect. Since that primary he has appointed a new controller and a new police commissioner, but the other department heads are to stay, he said.

The selection of Ames, he declared, was prompted by Ames' standing in the American Legion. The mayor exhibited a telegram of congratulation on this appointment from the Civil Service post of the Legion.

FINED ON GAMBLING CHARGE.
Warren Powers, 2914 Belmont avenue, and John Adams, 6818 Wayne street, were fined \$100 and costs each on charges of keeping a gambling house at 1401 Morse avenue by Judge Freeman L. Fairbank in the Jury court yesterday. Twenty-one others, charged with being inmates, were discharged.

WARSTOCK BOOMS IN CHINA AS FENG LEAVES MINISTRY

PEKING, March 18.—Confirmation of the resignation of Marshal Feng Yu-hsiang as minister of war, coupled with certain military dispositions, makes the outlook of the Nanking government extremely doubtful and it is further confused by the increased communist activity which neither faction seemingly desires.

The Nankingites have 100,000 men

assembled in the Anhwei and Kiangsi provinces, while the Kwangsi faction, with its base at Hankow, has 80,000 in addition to the troops they recently moved from Canton against the southern frontier of the Kiangsi province.

Foreign Press Barred.
NANKING, China, March 18.—(AP)—Factional debate within the Kuomintang congress, now in session, has resulted in the barring of foreign press correspondents.

ASSESSOR TOWNSHIP ON TAX INCREASE IN REVALUATION

Krutchkoff Sends Warning to State Commission

Chairman Charles Krutchkoff of the board of assessors took the position yesterday that he will not certify an assessment that will boost Cook county's tax burden, regardless of what the state tax commission orders. He said it was the duty of the state commission to determine what percentage of actual market value shall be fixed as the assessed valuation. It is this percentage which will determine whether the revaluation will raise, lower, or retain the present aggregate tax revenue from the county.

"The commission is bound by law to determine this percentage, so that the state tax will be equalized as between counties throughout the state," Mr. Krutchkoff said. "But if the commission sets a percentage that will increase Cook county's tax burden, I won't obey it until evidence is produced in court to justify it."

Asks Assessors to Act.
George O. Fairweather, chairman of the joint commission on real estate valuations, wrote a letter to the board of assessors yesterday, calling upon them to fix this percentage.

"A percentage of equalization should be used," he wrote, "which will produce the same total assessed value as would have been on the tax books if no reassessment had been taken."

This is the contention of those critics who are opposed to giving additional revenue, for example, to the city administration, whose appeals for bond money have been rejected at the polls, or to the sanitary district, whose officials have admitted that they fear to submit a bond issue to a referendum.

"Doesn't the state tax commission have to make Cook county's equalization figure the same as the average for other counties?" Mr. Fairweather was asked by a reporter.

"That is the law," he replied, "but the commission has been reluctant to act in former years. It lacks information—in fact, no one has adequate information—regarding the relation between assessed values and market prices throughout the state."

Tax Increase Predicted.
William H. Malone, chairman of the state tax commission, has announced that the equalization figure will be between 36 and 40 per cent. Harry C. Cutmore, director of the reassessment, has said that the evidence warrants

the 40 per cent rate. Assessor John E. Conroy has applied the 40 per cent factor to unit values prepared by Mr. Cutmore's crew, and found that it will raise taxes materially.

The taxpayers will be given their first opportunity to discuss the reassessment at a meeting tonight in Senn High school, 5900 Glenwood avenue. It is for the district north of Devon avenue between Kedzie avenue and the lake. It is the first of a series of meetings to be held throughout the county.

A map of the district will show the unit front foot values fixed by the appraisers, and the taxpayers will have the opportunity of registering complaints for the consideration of the assessors before the plans receive official approval.

Township Assessors Balk.
Township assessors of Cook county, at a meeting in the County building yesterday, threatened to refuse to make a 1929 personal property assessment because, they charge, the budget allotted to them by the county board is insufficient. George R. Harbaugh, assessor of New Trier township, went one step further and attacked the realty revaluation work.

"The present revaluation is illegal and void," he asserted, "and I, as a taxpayer, will file a bill for an injunction restraining collection of my taxes if they are unjust."

BAKER, ONCE NAVY OFFICER, GETS PORTO RICO FORT

[Chicago Tribune Press Service.]
SAN JUAN, Porto Rico, March 18.—San Geronimo, the ancient Spanish fortress built in 1706, has been returned to Virgil Baker, retired lieutenant commander of the United States navy, by the military authorities here on instructions from the war department after the Supreme court had refused to reopen the case on appeal from the Boston Court of Appeals.

The trial court here found for the government, which charged that Mr. Baker's 999 year lease from the navy department was obtained by fraud and misrepresentation. The court ordered that the unprecedented lease be canceled. The Boston Court of Appeals reversed the decision of the lower court and the Supreme court sustained the Boston court.

Mr. Baker recently, following the closing of the case by the Supreme court, requested the military custodians to deliver his property to him. This they did after asking the war department for instructions. Mr. Baker is now preparing to reoccupy as his home the old fort site.

GIVE YOUR CHILDREN THIS PURE TASTY MODERN YEAST

IF THEY ARE RUN DOWN, UNDERNOURISHED AND...

ONLY HALF THERE

CHILDREN need yeast. It builds them up, gives them appetite and good digestion and helps them get full value from their food. But ordinary baking yeast is not suitable for the reason that it ferments and causes gas. Give children Yeast Foam Tablets. Pure whole yeast with nothing added. So prepared that it can not ferment or cause gas. A fetching taste that makes most people chew the tablets like candy.

As to purity and potency, please remember that this yeast is used and recognized as the standard for vitamin studies by the leading universities of the nation and by the U. S. Government. This is your guarantee.

Six tablets in the glassine envelope for 5 cents, or the 10-day bottle from your druggist for 50 cents. Northwestern Yeast Co., 1750 No. Ashland Avenue, Chicago, Ill.

Son's Marvelous Recovery Due to New Treatment

Explained by Mrs. Terry

TO THE EDITOR:—I thought your readers might be interested in an experience I had when my son was injured in a very serious automobile accident. The ligaments, muscles and arteries of one of his legs, just below the knee, were completely severed. It took fifty-two stitches to sew these parts together, and there was grave danger of tetanus infection. His knee had to be kept in hot moist compresses for two weeks. For the first few days, I spent my entire time wringing out the hot compresses.

I had previously read an advertisement recommending the use of the Sunbeam Wet-Proof Electric Pad in just such cases, and I decided to purchase one and try it. What a relief it was to me and to the patient! How easy it was to keep the dressings moist and hot without an effort! The boric solution was poured on the prepared knee pack, and then kept hot by the Sunbeam Wet-Proof Pad. When the knee would become partly dry from the heat, a little more of the solution was poured on it, and the electric pad again placed over it. In this way, day and night for two weeks, the dressings were kept moist and hot. It was not necessary to moisten the knee pack during the night, as it would keep moist for about eight hours.

My son's condition was so serious that the doctors thought there would be a permanent stiffness in the knee. I feel that if I had not had the Sunbeam Pad to help carry out the doctors' orders, it would have been extremely difficult, without the services of a trained nurse, to keep the compresses hot and moist for twenty-four hours each day for a period of two weeks.

I cannot recommend too highly the use of this Sunbeam Wet-Proof Electric Pad to any one who would have a similar need for it.

My son completely recovered and was able to use his knee, and returned to the Military Academy he had been attending.

Very truly yours,
(Mrs.) Grace M. Terry,
1436 Chase Ave.,
Chicago.

A HEALTHY COMPLEXION

Get at the source of your troubles. You need never again be ashamed of your complexion. Enjoy the beauty, buoyancy and ambition of youth... by keeping your system free from the poisons caused by clogged bowels and keeping your liver toned up to concert pitch.

Cleanse your whole system with Dr. Edwards' Olive Tablets, the successful substitute for calomel. Neither sickness nor pain, nor after effects. They act easily and without your knowing it. Dr. Edwards' Olive Tablets, a compound of vegetable ingredients mixed with olive oil, protect you against bad taste, pimply face, listlessness, constipation and stomach trouble. Take nightly. Known by their olive color. Prescribed to men and women for 20 years. 15c, 30c and 60c. All druggists.

Dr. Edwards' OLIVE TABLETS

CITY HALL HOLDS ASSEMBLY GRIP DESPITE VOTERS

(Continued from first page.)

has extended no olive branches to the "America First" group, the list of Chicago "ayes" on the gasoline tax bill is looked upon as illuminating.

On the house side the Chicagoans voting against amendments to the gas tax bill and their politics were:

THOMPSON—Blackwell, Harris, Kersey, King, McVicker, and Turner.

CROWE—THOMPSON—Galvin and Marinier.

WELLS—GALVIN—Mason.

CROWE—GALVIN—Ruddy.

THOMPSON—DEMOCRAT—Dunne.

LUNDEN—E. A. W. Johnson and Overland.

The Chicago lineup in the senate for the gas tax shows:

THOMPSON—Joyce.

ELLER—THOMPSON—Leonardo.

THOMPSON—HARDING—Roberts.

WELLS—GALVIN—Mason.

LUNDEN—DUNNE—Mason.

BRUNDAGE—DUNNE—Barbour.

DUNNE—Hansich.

Whether Gov. Emmerson solicited the Thompson votes or not, the political analysts point to the gas tax roll calls as proof that he is getting them. It is reasonable to expect, they say, that the Thompsons will expect something in return. And what they want ostensibly are downstate

votes for the city hall revenue bills when they come to final roll calls.

The Lake Calumet harbor and corporate tax rate measures now are on second reading in the house and are scheduled to come up for disposal some time this week. Representative O'Brien has announced that he will insist upon inserting his referendum amendment in the harbor bill, and this, it is expected, will bring the strength of the Thompson downstate alliance to a showdown.

It is generally agreed at the capital that if the city hall forces can muster downstate votes to knock out the harbor referendum, they should have little difficulty passing the bill as it stands, as well as the rest of the Thompson financial program.

Arrayed against the program, almost in its entirety, are several Chicago public organizations, in particular the Civic Federation and the Bureau of Public Efficiency. Representatives of both of these groups have protested repeatedly against the harbor, tax rate, and water fund bills on the ground that they would saddle more burdens upon the taxpayers for the benefit of a political organization which has squandered funds recklessly. In the house committees their objections have gone unheeded. How effective they will be in the house as a whole probably will be determined within the next few days.

Royal Air Force Plane Crashes in Africa; 2 Die

(Chicago Tribune Press Service.)

CAPE TOWN, March 18.—Flying Officer Burnett and Sgt. Turner were killed this morning at Gwelo, Southern Rhodesia, when their royal air force plane, one of a squadron returning from a flight from Cape Town to Cairo, crashed on taking off.

PHILIPPINES TO SEEK FREEDOM WITH TWO PLANS

MANILA, P. I., March 18.—(AP)—New Filipino demands for a greater share of self-government are promised when the special session of congress opens in Washington.

Such forecasts in political circles here have been supported by recent creation of a special legislative mission to the United States, designed to assist the Philippine resident commissioners in opposing tariff restrictions on Philippine products, but also empowered to consider other matters of interest on the islands and, specifically, the question of autonomy.

Filipino leaders are expected to present Washington a principal demand, and an alternative demand. Their chief objective is a measure similar to the Fairfield bill which failed of passage in 1924. Their alternative objective is a Philippine vice governor general. The Fairfield bill would have given the Philippines full autonomy, including a Philippine governor general and vice governor general, and would have granted the islands independence at the end of 25 years if it were then desired.

Apparently, a serious effort is to be made to obtain a Philippine vice governor general. Filipino leaders feel that such a development is the next logical step in the policy of extending an increasing share of self-government to the islands.

ing a Philippine governor general and vice governor general, and would have granted the islands independence at the end of 25 years if it were then desired.

ing a Philippine governor general and vice governor general, and would have granted the islands independence at the end of 25 years if it were then desired.

RESILIO The Ultimate of Style & Wear in Cravats

A MAN may indulge his personal taste to the full, when he chooses a Resilio Cravat. Whatever the color, the pattern, the weave that most appeals, his assurance of Style is absolute. Resilio, no matter what eminence it has attained because of its patented resilient construction, maintains, among the masculine cognoscenti, an unqualified supremacy for smartness. The inspiration of every Resilio Cravat is direct from the sophisticated sources that mould men's styles. The range of fabrics touches the finest loom-craft of Orient and Occident. The designs of the silk fabrics are from masters. And, because of the resilient patented construction, a man may be assured that every type of fabric, even the sheerest, will tie with absolute correctness, and without the slightest trace of a wrinkle.

In addition to their style features Resilio Cravats are now made of a patented construction which co-ordinates the resilient properties of fabric and lining, by threading loosely, through both, a single strand of silken thread.

DRAW LINES FOR NEW ATTACK ON GAS TAX BILL

Up in House Tomorrow;
Waste Is Issue.

Only 3.68% of Illinois motor
license fees are spent in the
Chicago area.

BY PUTNEY HAIGHT.

Another effort to convince the general assembly that the Emmerson 3 cent gasoline tax bill provides a cent too much revenue for reasonable road building activities in 1930-31 and that an equal division of 2 cents between county and state will be more equitable to all gas tax payers is to be made before the measure is voted on in the house tomorrow.

This effort is based upon the contention that too much money for the highway department is not desirable and that 2 cents would be enough. In support of this theory a charge is set up that the plethora of funds from the \$100,000,000 bond issue sales has wasted, unnecessary, and as yet unexplained expenditures downstate. An instance of such wastefulness is to be cited in one transaction of public record, a contract let for section 102 of state highway 81 in Henry county.

Cites Henry County Case.

During the time the highway department was unable to find money with which to build bond issue roads in Cook county in the last few months it let a contract in Henry county for \$161,000 in face of the fact that there had also been submitted a responsible bid in the sum of \$48,000 for the identical construction

In reprisal no work has been ordered on the section.

Will Come Up in House.

The facts concerning the Henry county contract have been placed in the hands of Representative Michael Igou by the Chicago Motor club, and Mr. Igou plans to present them to the lower house when the bill comes up tomorrow. According to the tabulations in the state highway department, the bids received on Aug. 28 for section 102, highway 81, were as follows:

Central Eng. Co., Davenport, Ia., for concrete..... \$ 86,388.79
Johnson, Drake & Piper, Moline, Ill., for concrete..... 97,977.09
Central Eng. Co., for brick..... 161,051.79

The record shows that the contract later was awarded on the brick work to the Central Engineering company, an Iowa organization. In this connection it is interesting to recall that a day or two after the disclosure in THE TRIBUNE regarding the "gift" in connection with the Edgar county paving, a telegram was received by this newspaper signed by a person purporting to be an official of the Central Engineering company, in which a protest was worded against the inferences contained in THE TRIBUNE article. The sender stated that no sinister or secret manipulations of the road contracts had in truth been attempted and that no collusion existed between contractors. The telegram did not explain, however, any reason for doubling paving costs downstate by the use of brick surfacing.

Not Careful With Money.

"It is our view that the state highway administration, when engaged in spending Cook county's motor license fees in the proportion of 96.32 per cent outside Cook county and 3.68 per cent within Cook county, of the entire license money, does not use as much care and economy as might be desirable or that it would be as careless if the entire license fees came from downstate and were spent there," Sidney S. Gorham, general counsel of the motor club, said.

"The state department is spending on the highway system 21 times as much out in the state as it allocates to Cook county on the bond issue roads and apparently is a little more liberal than is necessary with our funds. Cook county pays over 40 per cent of all state license fees, and it will pay 50 per cent or even more of the proposed gas tax." Although the downstate bloc has

voted down every amendment for modification of the gasoline tax measure, Mr. Igou proposes to make the record show tomorrow that some of Cook county's representation did not permit the bill to pass without a vigorous protest.

Little Hope Is Seen.

In the view of Mr. Igou the lineup in the assembly is impervious to any argument by Cook county in defense of its rights or just treatment under proposed legislation. This, he believes, is the result of the well organized re-

sistance of an alliance of downstate interests formed for the purpose of defeating efforts at reapportionment of representation which would permit the voice of Cook county to be heard in its own behalf on matters concerning its finances and government. "As a matter of equity and justice," Mr. Igou said, "Cook county should have some voice in the legislation which administers \$16,000,000 annually of road funds to be contributed by Cook county license and gas tax payers under the new law."

furnishing expositions

An entirely "livable" house,
furnished and decorated in a manner
designed to assist seekers after comfort
and charm in home interiors

The LIVING ROOM

The following notes on one of the rooms suggest the interesting nature of the entire display.

DRAPERIES: The group of windows which form the alcove at the end of the room have full length overdraperies of floral brocade with harmonizing border of satin bands and piping. These curtains are tied back with silk cord loops. Glass curtains are of ecru French marquisette.

FLOOR: A two-tone green frise Wilton carpet covers the floor from wall to wall in today's approved fashion, giving a pleasant air of spaciousness to the room. The texture of this carpet is very pleasing, the pile deep and the pattern suggestive of fine chenille.

WALLS: A very unusual effect is secured in painting which simulates pin-knotted pine. You will be surprised to see how well the pleasing quality of English deal panelling is secured here at comparatively small cost. A wood mantel of American Colonial design is painted into the wall color scheme.

FURNITURE AND ACCESSORIES: Kidney-shaped Queen Anne sofa in henna wool damask, Sheraton desk of unusual design, finely inlaid Hepplewhite commode, large chairs in patterned tapestries and damasks. Odd tables and smaller chairs as indicated. While the room furnishings are English in character, accessories of varied foreign origins are appropriately introduced.

You are cordially invited to visit this display and
the series of fine period rooms on our third floor

HARRY THAW HIT AND BIT HER, GIRL SAYS ON STAND

Asks \$100,000 for the
Alleged Assault.

BULLETIN.
New York, March 18.—(AP)—The jury tonight reported that it would file a sealed verdict in the \$100,000 suit brought against Harry K. Thaw by Miss Marcia Estardus. The decision of the jury, which received the case late this afternoon, will be read tomorrow morning.

New York, March 18.—(Special)—Marcia Estardus, known sometimes among night club patrons as May O'Neill, which was her name before she married and divorced a naval officer, went on the witness stand today in the Supreme court as a witness in her suit against Harry K. Thaw for \$100,000 damages. She told of an alleged assault on her with a long-handled hair brush in Thaw's apartment at 57 West 75th street on the morning of Jan. 1, 1927, following an all night party at another place.

Miss Estardus told of dining on the night of Dec. 31, 1927, at the Washington Square apartment of a Mr. and Mrs. William Alexander where she met Morgan Pendleton, who was then Thaw's secretary. The witness cried as she told how she had accompanied Pendleton to the night club of Texas Gulman. There, instead of leaving the taxi cab, it was decided to go to Pendleton's apartment for the further celebration of the incoming year.

Admits a Few Cocktails.
William B. Rouletson, her attorney, asked if she had been drinking and she replied that she had two or three cocktails "because it was New Year's eve, you see."

They went to the apartment, she continued, where she was introduced to Thaw, who was accompanied by "a foreign girl." She testified that another woman was present, who was known as "the Countess Olga" and as Mrs. Galtzler. They all had breakfast, which consisted of fried eggs, coffee, and champagne, during the course of which Thaw asked her to stand up while he "looked me over."

Hit and Knocked Out.
The witness said Thaw invited her to another room to "see a picture." "On the way down the hall," said Miss Estardus, "I was struck on the back of the neck and when I came to Thaw was standing over me with a hairbrush in his hands. I tried to run away and he knocked me down, kicked me, and hit me."

She told now Thaw had bitten her and how she made her way to a window.

"I thought the best thing I could do

PRESIDENT WRITES A BIRTHDAY LETTER TO WISCONSIN WOMAN, 101

Eau Claire, Wis., March 18.—(Special)—Mrs. Lydia B. Bortle, this city, who celebrated her 101st birthday here March 8, today treasures a letter of congratulation received from President Herbert Hoover. The letter is on the White House personal stationery.

The letter follows:
"My Dear Mrs. Bortle: I have just learned that on March 8th you celebrated your one hundred and first birthday. Permit me to join your many friends in extending congratulations and best wishes."
"Yours faithfully,
"Herbert Hoover."

Mrs. Bortle also received a telegram of congratulation from Gov. Walter Kohler and from other persons of note.

was to jump out," Miss Estardus continued.

Then, the witness said, Thaw realized what she intended doing and offered to open the door for her. The next thing she knew, she said, was that she was lying in the hall and Mr. Pendleton was "very kindly trying to bring me to." He poured water on her, revived her, and took her to her home in a taxi cab, getting out two blocks from her home and paying the driver.

Denies Story of "Frame."

Asked if she knew of a plot to "frame" Thaw by planting cameras in a night club in such a position that pictures might be taken and made to indicate indiscretions on his part, Miss Estardus denied knowing anything about it. She denied boasting at the Bonafide night club bar that she expected to get \$25,000 or \$50,000 as a result of her suit against Thaw.

A letter which she wrote to Thaw after the party Jan. 7 was then offered. The letter told Thaw to forget about the whole incident and ended by asking him to buy two tickets for an affair which she was staging at the Moeve inn. She admitted he organized many "parties."

FREE AUTO TAGS FOR DRYS WIN AND THEN LOSE

Council Reconsiders Its
Hasty Action.

Prohibition agents had received a gift from the city yesterday in the form of free city vehicle licenses when a member of the city council halted the proceedings and banished the Christmas sentiment. Amidst the confusion of exchanging vacation experiences, the council passed an ordinance advocated by Prohibition Administrator E. C. Yellowley which would free the dry agents from the automobile license charge.

Several aldermen with anti-Prohibition tendencies had announced their intention to oppose the passage of the ordinance. When the measure was read by the council clerk, they either were absent from the council chambers or engaged in other affairs and the ordinance was included with other matters for adoption by a single roll call. Ald. John Toman (23d) discovered the council's action within a few minutes.

Finds the Joker.
"This ordinance was passed in all this noise and confusion without any one paying any attention to it," he said as he halted routine matters. "This is something into which we should make a most thorough examination."

"I am opposed absolutely to this ordinance. I don't receive a free license and neither do the police or firemen. Then why should prohibition agents be exempt from paying the city. It is not fair to issue them promiscuously. The prohibition depart-

ment could ask for five thousand tags and build up a political machine or bring about an abuse such as the recent issuance of official stars caused.

Moves to Reconsider.
Departments of the federal government, operating cars on Chicago's streets, mark their automobiles 'U. S.

A. and there is no reason why the prohibition department shouldn't do likewise. Their cars would not be stopped then by the police when operating without tags."

Ald. Toman's motion to reconsider was adopted and the bill was referred to the committee on judiciary.

KILLS SELF IN ICEBOX.
Dependent over the recent death of one of his sons and over his own failing health, Adolph T. Hartman, 58 years old, 122 East 68th street, a butcher, shot himself to death yesterday. His body was found in the icebox of his butcher shop at 105 East 69th street.

American Industry Asked For Something More in Heavy Duty Transportation

Reo Heavy Duty Speed Wagon (3-ton) used by The Mather Salt Co., Detroit, Mich.

**Now... HIGH SPEED, HEAVY DUTY TRANSPORTATION Like Men Have Never Known Before:
The Creation of REO—World-Leader in High Speed, Low Upkeep Commercial Haulage**

A NEW profit element—the TIME ELEMENT—has entered the field of heavy and semi-heavy haulage. The call of thinking men today is for SPEED as well as economy and dependability. For upon the factor of FAST TRANSPORTATION, profits, service and efficiency largely rest.

To meet that situation, Reo offers a new conception of heavy duty transportation—a Heavy Duty Speed Wagon, a truck like American industry has never known before.

All the speed of the world-famous Reo Speed Wagons, all their long life, low operating cost and almost unbelievable flexibility have been built into this remarkable piece of heavy duty transportation.

All that Reo—world-leader in low upkeep, high speed commercial transportation—has learned in its long experience in the field has been built into it.

Reo Gold Crown Engine

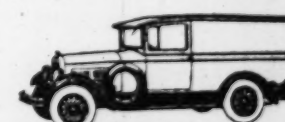

These new Reo Speed Wagons for heavy duty are powered by the Reo Gold Crown Engine to

meet the requirements of today's rapidly changing traffic conditions—an engine that accelerates and holds the pace in traffic set by the newest passenger cars. Chrome nickel cylinder block—the longest wearing cylinder material known today. Tests show that this newly developed alloy limits the settling of valve seats due to pounding to only one-seventh the amount of the conventional close grained iron. 7-bearing crankshaft. Full pressure lubrication. High power at low engine speed. Many other features that result in amazing power, flexibility and economy.

Nine wheelbase sizes—from 134 to 179 inches—in tonnage capacities of 1½, 2 and 3 tons. 4-wheel, 2-shoe, internal hydraulic brakes. Magazine chassis lubrication. Air-cushioned seats. And full equipment. Priced from \$1,295 to \$2,240—F. O. B. Lansing, Michigan.

Call any of the Reo dealers whose names appear in this advertisement. They will be glad to send a Reo transportation specialist who will prove these facts. Reo Motor Car Company, Lansing, Michigan.

Reo Junior and Tonner Speed Wagons for ½ and 1-ton Service

The same remarkable flexibility, speed, economy of operation, and value that distinguish the new Speed Wagons for the heavy duty field are also built into the Junior and Tonner Speed Wagons for half-ton and ton service. Models ranging from 115-inch to 138-inch wheelbases. All the equipment features of Speed Wagons for heavy duty. Chassis priced from \$895 to \$1,075—F. O. B. Lansing, Mich.

FRESH DELUGE, TEN MILES WIDE, HITS ALABAMA

Covers Four Counties
with Water.

(Picture on back page.)
Montgomery, Ala., March 18.—(AP)—
The Alabama river, rising and spread-
ing out until it is 10 miles wide in
places, has inundated an area esti-
mated to be several times as large
as that flooded last week by the Pea
river and its tributaries.

First news of the new flood in four
Alabama counties was brought here

today by aviators while plans for re-
habilitation of the flood stricken
towns and communities in the Pea
river section were being put into ex-
ecution.

Maj. W. R. Weaver, commandant
of Maxwell field, Fourth army avia-
tion base, reported to Gov. Bibb
Graves that "people were clinging
to trees" in the newly flooded area,
and the governor himself flew over
the section, remaining in the air for
three hours.

Meanwhile Adjt. Gen. F. E. Butler,
director of relief work at headquar-
ters here, said the situation at Brew-
ton, Flomaton, Garland, Keego, Pol-
lard, and nearby communities in the
Alabama-Tombigbee basin was well
in hand. Army flyers dropped a 24
hours' food supply to Brewton and
near by towns today.

At Elba, the adjutant general said,
conditions were so improved that
about 1,000 residents will be permitted
to return. All children under 16 will
be detained at refugee camps, how-
ever. Geneva residents probably will
be permitted to return gradually, be-
ginning tomorrow, the adjutant gen-
eral said, provided sanitary conditions
permit.

The Alabama death list stood at 16

today, with indications that it would
mount higher when a check of outly-
ing districts has been completed.

Still Rising in Illinois.

St. Louis, Mo., March 18.—(AP)—The
flooded Mississippi river continued to
rise today from Hannibal to New Ma-
drid, Mo.

The weather bureau forecast said
the river would rise slowly from Lou-
isiana, Mo., to Grafton, Ill., for two
days, reaching 22 feet, or 5 feet above
flood level, at Grafton, where the stage
today was 22.2.

At the mouth of the Missouri river a
slow fall will begin tomorrow.

**Ex-King of Bulgaria Chases
Butterflies in Africa**

(Chicago Tribune Press Service.)

CAPE TOWN, March 18.—Former
King Ferdinand of Bulgaria, visiting
Kenya today, was received by Na-
robi's only Bulgarian, a restaurant
keeper. The former king is now a
tottering old man. He always tries
to hide his face. He bewailed his
exile from Bulgaria, and said that the
object of his visit was to collect but-
terflies.

McNARY-HAUGEN IDEA INDORSED AT FARM MEET

Des Moines, Ia., March 18.—(AP)—
Resolutions endorsing a protective
tariff on farm products and the princi-
ples included in the McNary-Haugen
bill as a basis for impending farm
legislation were passed tonight by the
corn belt federation of farm organiza-
tions in session here.

A committee, headed by Milo Reno,
president of the Iowa farmers union,
was appointed to study the tariff prob-
lem as affecting agriculture.

Another committee, comprising
Frank Murphy, Wheaton, Minn., chair-
man of the executive committee of
the corn belt federation; C. E. Huff,
national president of the farmers'
union, and William Settle will meet
with committees of the cotton growers
of the south, the Rice Growers' as-
sociation, the Burley Tobacco as-
sociation and the Dairyman's association
of New York to consider their problems.

FIND BODY OF MISSING MAN IN RIVER.
Moline, Ill., March 18.—(Special.)—The
body of Henry Martin, 60, who had been
missing since Dec. 27, was found in the
Mississippi river near Rock Island last night.
It is believed he ended his life.

business is moving north

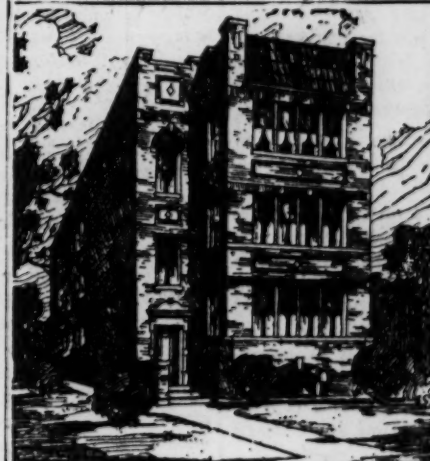

**OCCUPANCY
APRIL FIRST**

AS in New York, so in Chicago, business is mov-
ing North ■ Out of the Loop, too long the
imaginary compass of commerce, Northward to
quieter streets, clearer skies, more pleasant sur-
roundings ■ Away from traffic congestion, closer
to the entire Lincoln Park district, so that a man
can live near his office and walk down to work ■
Mightiest office structure North of the Loop—right
at the dividing line between commercial and
strictly residential Chicago—the 37 story Palm-
olive Building is therefore rapidly filling with
firms known nationally for their progressive
policies and business foresight ■ Time-saving,
forward thinking executives should telephone or
write the Agents now for floor plans and prices

Make Big Money

**This Spring
On Your
Vacant
Lot!**

We will build a
house, a bungal-
ow, or a flat
building on any
lot you own in
Greater Chicago.

No Cash Down

[Our prices and terms include fire
insurance, tornado insurance, title
charges, surveys and all financing.]

All you pay are the small monthly payments—in most cases
less than present rent. We start work immediately and
your building will be entirely completed this Spring. Why
pay rent when you can turn your lot into an asset and have
not only a home but a valuable investment in the location
of your choice?

**All Stoltzner-Built Homes Contain
MULTI-CELL INSULATION
Metal Lath—3 Coats of Plaster**

This guarantees you a warm building in Winter
and a cool building in Summer, makes it fire re-
sisting and minimizes cracked walls. Foundations
waterproofed on outside. Standard high-class, eco-
nomical heating plants are included. Face brick
fronts, brick all around, steel beams and posts in
basement, bathrooms with mosaic floors, wood-
work beautifully finished in silver gray, mahog-
any or ivory enamel. Built-in ironing boards,
window shades of your own color selection.
McDougall domestic science kitchen units. High-
est grades of plumbing and hardware; electrical
fixtures of your own selection. All rooms deco-
rated to suit your own taste.

Mail in the coupon which appears below and we will send you
complete details as to how you can have a building constructed
on your vacant lot all ready for occupancy this Spring.

—Milton.

DEFIANCE AT SPRINGFIELD.

The legislature appears disposed to enact the Calumet harbor tax bill which will take \$4,000,000 from the taxpayers of Chicago in the next four years. The money will be spent under the benign auspices of America First.

America First has been commuting to Springfield, under the guidance of Mr. Samuel Etison, on behalf of the Calumet harbor bill and the bill to fix the corporate tax rate for Chicago at 11.07%, a figure which may well bring into the city treasury, under the new assessment, many millions of dollars more than the corporate fund has ever before contained. The legislature has listened attentively and even respectfully to the pleadings of America First.

A bill to require local governments to publish their pay rolls has been laughed into oblivion. America First, ever the good fellow, has joined in the mirth.

The gasoline tax, which exacts 50 per cent more from Chicago motorists than the infamous Small bill would have taken, has passed the senate and is being given favorable consideration in the house. America First, it may be presumed, will make no demonstration against the gasoline tax if it gets what it wants in other directions.

The voters of Chicago observe the movement of events at Springfield with growing alarm. As the result of a municipal house cleaning that is almost unprecedented in the history of American cities, the voters deposed every America First candidate of prominence who ran for office at the primary a year ago. Every bond proposal intended to give America First additional resources to spend has been overwhelmingly defeated.

Today much of the gain which Chicago had expected and had rightly expected from the victory at the polls is being nullified at Springfield. The legislature is voting more money and therefore more power for self-perpetuation to the surviving officials of a repudiated regime than they had before. The members of the legislature are apparently unaware of the popular temper or indifferent to it. The defeat of Small to their minds was little more than a hazard of politics and represents no determination on the part of the voters to rid the state and city of a type of administration that has made Illinois and Chicago notorious.

The members of the legislature who are willingly serving as cogs in a discredited political machine cannot hope to escape the consequences of their acts when next the voters have their choice to speak.

THE WEST SIDE TRAFFIC PROBLEM.

Residents of the west side impressively demonstrated their enthusiasm for the west side superhighway project at a public mass meeting the other night. The west park board is asking authorization of the legislature to conduct a referendum among the voters of the west park district on a bond issue program to finance an elevated highway from the Chicago river to the west city limits. For this urgent improvement the west side proposes to tax itself, and the sentiment at the superhighway rally indicates that the west side is eager for the opportunity to get the job started.

Opposition to the highway is found among the small group which clings to the notion that congestion makes business. That is an ignominious view and it is certain that this backward conception does not dominate the west side. The answer is obvious and it was made by spokesmen for the highway at the mass meeting. Along the route of the new boulevards to the north and to the south new values have been made and new business has been produced. Building is attracted by sites along spacious avenues and customers enjoy the pleasantly situated facilities. Small-minded tradesmen improperly credit their moderate business to the congested traffic outside their doors.

The traffic problem throughout the west side has become the most serious one in the city. Motorists to the north and the south move comfortably and their future convenience is adequately provided for in the programs of the Lincoln park and south park boards. But west side traffic threads its way tortuously along narrow lanes which are boulevards in name only. More width is needed and each of the present principal streets presents serious obstacles to that method. But because of the intersections at every corner from the loop terminal to the city limits through the west side, the principles of traffic separation must also be adopted. That has not been so urgent in the case of the north and south arteries, although if they were being planned anew present highway engineering would consider the single level improvement.

The plans for the west side superhighway which have been made under the direction of Dr.

John Dill Robertson have been prepared adequately to provide for the traffic requirements of the district and of the motorists throughout the city. Anything less ambitious than that would not warrant the west park citizens in submitting to the expense. The legislature must not interfere with this project.

A MONKEY STATE CANDIDATE.

Proceedings of the Minnesota assembly are being watched eagerly these days for action on the bill to repeal the so-called newspaper gag law. Representative R. R. Davis is sponsor of the measure which would cleanse the state statute books of the improper law of 1925, by which Minnesota publications may be suppressed by injunction and without jury trial. Mr. Davis recognizes that the law contravenes the constitutional guarantee of freedom of the press and he fears that it is an initiation of Minnesota into the association of monkey states.

Strangely, the newspapers of Minnesota have not been sufficiently alarmed at the law which strikes at their rights. The established papers have been persuaded that in the application of the law they will not suffer; that it is only an instrument for the elimination of socially undesirable publications. Apparently because of their own feeling of security they have not examined too carefully into the constitutional features of the law. But the confidence of the Minnesota newspapers is unwarranted.

The law provides that a publication regularly engaged in printing "malicious, scandalous, or defamatory" matter may be suppressed by injunction. Under an interpretation of this law the Saturday Press of Minneapolis was put out of business. It was conducting a crusade against vice conditions and the officials of Hennepin county, whom it charged with responsibility for the license attorney, who was a subject of attack by the Saturday Press, secured the injunction. He had recourse to libel action for protection, if he were entitled to it, but he selected to silence his enemy through the gag law.

It happened that the Saturday Press was a lurid paper and its campaign was a lurid one. But by the same campaign might have been organized by a more responsible publication and carried on in a less sensational fashion. If it were fighting a politically dominant and corrupt faction its reputation would not save it from oblivion. That a bad law once has been applied, possibly for a good purpose, is no assurance that it will not be applied in future for bad purposes.

The gag law was conceived by selfish interests in Minnesota, some of whose activities had subjected them to suspicion and attack by radicals. Because the measure was radical in its operation it gained the sympathy of the radical group in the assembly. The legislature was duped and it now has the opportunity to correct its error.

THE TRIBUNE will challenge the law in behalf of the Saturday Press before the United States Supreme court. The Minnesota Supreme court has declared that the law is constitutional, but THE TRIBUNE is convinced that it is in violation of a fundamental liberty. It is unfortunate that a fundamental doctrine of a free people should have to be supported by the highest court in the land. It would be better if the Minnesota legislature should protect the rights of its citizens, even at the expense of admitting a serious mistake.

The laws of libel provide an adequate safeguard against a damaged name and they have a sufficiently restraining influence upon editors. For such newspapers as are not edited with regard for fairness and truth the actual working of the libel laws is an ample corrective. A weapon which automatically silences criticism destroys a large part of the usefulness of a newspaper.

OLD AGE PENSIONS.

The old age pension bill is again in the legislature at Springfield, and has again made some progress. The bill has won the sympathy of many persons who have an altogether commendable respect for old age and a desire to relieve the distress which frequently accompanies it. The friends of the bill see in it the opportunity to make the closing years of life as pleasant as the infirmities of the aged will permit.

Unfortunately, the bill does not offer much hope of achieving the desired goal. The results obtained with similar measures in the few other states in which there has been enough experience to serve as a guide indicate that the doles do not make it possible for the aged to care for themselves at home. The dependency of the aged continues as before. The state can provide at most only a few hundred dollars of pension, far less than enough to provide comfortable living quarters, good food and personal attention.

The dole to the aged will be worth little more than the provision which the counties now make, but the cost of the doles will certainly be heavy. The Civic federation of Chicago estimates that the old age pensions will increase state taxes under the start by a sixth, and that the cost will grow rapidly. The administrative expenses will be high, and the possibility of using the dole for political purposes will certainly not be neglected in Illinois.

Editorial of the Day

FLORAL FRENZY.

(Boston Herald.)

The flower show of today grows more and more complex and esthetic. Gone are the days when it was sufficient to exhibit twelve long-stemmed roses in a green vase and proudly receive a red or blue ribbon. The prizes at a modern flower show—and they are not mere bits of ribbon but Lowestoft bowls and Carolinian porringers—are awarded far more for what is assembled in the way of background for flowers than for the flowers themselves. It is no uncommon sight to see some talented exhibitor over-seeing the activities of a patient chauffeur and a sulky husband while they peruse over carved chests, trellis tables, refractory pieces of tapestry, and enough old silver to have kept Paul Revere from taking his horseback exercise for a month. When everything is satisfactorily placed the moving spirit arranges six assorted tulips, two daffodils, a bunch of pansies and three Spanish irises in a very possibly Stiegel flip glass, and calls it a day. Another goes in for rugged simplicity. She brings a gate-legged table, all the family pewter—for which she has ransacked every antique shop from St. Johnsbury, Vt., to Hackensack, N. J.—an early Calvin Coolidge perforated glass flower holder, and quite a large bunch of calendula and bachelor's buttons. All around the hall are candlesticks, priests' robes, red and white checked napkins, bowls of goldfish, wrought iron gates, Georgian mantelpieces with suitable ironstone and mirrors—plenty of everything, in brief, except flowers. They seem a little like the bridegroom at the wedding—essential, but inconspicuous in the mass of decorations.

There seems to be no rules as to what constitutes a floral arrangement. We have not seen to what a buffalo robe, an egg beater or a side tumbone combined with flowers, but in time perhaps even their decorative possibilities will come to light.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

THOSE WHO GO FORTH.

When high adventure beckons,
And siren earth-ways lead
Where cavaliers may consummate
Their quest with ringing deed,
Tis then that stout hearts quicken,
And timid ones will quail,
For aught but faith and courage share
Him who seeks the Grail.

And all the skulking wenchies
Of doubt and compromise,
But vainly hurl their epithets
Against such enterprise.

For cavaliers laugh lightly,
Nor care too much to know
What perils lie in waiting,
Where cavaliers must go.

Nor Death itself is ultimate,
—And what's his puny dare,
To those who find adventure
Lurking even there.

WILL IRVIN.

And Maybe Next Time

We'll Sow Some Wild Oats.

It was so soft and warm and blue skied and summery yesterday we stopped at the drug store and bought a package of early onion seed and one of Golden Bantam sweet corn, and when we got home we sowed them carefully out the back window. Of course, there's nothing outside our back window but a tin roof, but we just had to do a little light garden work in honor of spring.

Wait! Here's Another—Look

Before You Leap Out of 'Em.

However, and to be on the safe side—and because you never can tell—and appearances are deceptive—and an ounce of prevention is worth a pound of cure—and there's many a slip 'twixt the cup and the lip—safety first—and a few more things that one might think up offhand—perhaps it would be just as well to keep 'em on a while longer.

No Hope, Lads!

Now Look What We Are!

[From the Beloit (Wis.) Daily News.]
L. W. Swan was hostess to the Men's 500 club Monday evening.

We Join in the Farm Movement.

Old Fred Pasley hopped over to our desk yesterday to borrow an air mail and a special delivery stamp for a letter he was wildly waving around. "What's the hurry?" asked we. "Don't argue," gasped Pax, "stamp!" Again we asked why the big rush and he grabbed a copy of yesterday's Tribune and pointed to a Washington story which said:

One of the most popular of the many pamphlets issued by the department of agriculture is its "Farmers' Bulletin No. 1075," describing in minute detail for the householder methods of making high powered grape wines.

Did Pax get the stamps? He did not. We had only one air mail stamp and one special delivery stamp, and we slapped the two of 'em right on the letter that we started off within two minutes addressed to the bureau of agriculture at Washington, D. C., asking for "Farmers' Bulletin No. 1075." Hokey for the farmers and their bulletin. Hope they write another one.

A JOYOUS PARADE. Procession down the Boul Mich yesterday of the Cocktail Mixers and Home Brewers' Whoopie Association waving flags and cheering for the Jones Five and Ten Law.

Listen, Bill—Only in Emporia Do They Put Cherries in Bacardi Cocktails.

[From William Allen White's own Emporia (Kas.) Gazette.]

"So Washington society is to be dry? No longer will the maraschino cherry peer coyly out of the bacardi cocktail. Never again will the wicked dew, dropping in silver globules from the frosted glass rim, gleam on the white senatorial vests. Never again will the stuffed olive, lolling in the amber depths of a martini, wink a lascivious pimento eye at the anchovy coiled voluptuously on top of the toast and caviar appetizer."

Having a Wonderful Time!

Wish You Were Here!

"Calles Army at Gates of Tipton."—Trib. Yeah, Calles army has been hanging around the gates of Tipton for a week. Guess the Mex soldiers are just like other tourists—all they want to do is buy a picture postcard to send home.

BARBARA ANNALS.

My brother, who is half past three, Plays lots of lovely games with me.

Today we filled the bath tub high— At least 'twas higher far than I.

I'd had my bath, and I was clean, But we were playing submarine.

My mother came and screamed and yanked us Out of the tub. And dried us. And spanked us.

THE SOLICITOR.

Lagniappe.

AND LOTS of fellows we know are going to object to that cut on earned incomes because they're afraid they'll have to prove they earn their incomes.

WE WOULD like to have taken a trip on the "L." yesterday just to see the back porch. But that we would have seen at least five hundred men standing out there swinging golf clubs and getting all ready.

'TIS SPRING! 'Tis spring. Tell with the last line, R. H. I.

How to Keep Well.

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when returns stamped envelope is enclosed. Dr. Evans will not make diagnosis or prescribe for individual disease.

(Copyright: 1929: By The Chicago Tribune.)

TONSILS OR NO TONSILS.

EDICAL opinion, as found in the literature, is becoming quite conservative in the matter of removal of tonsils. In a recent study of heart disease in children and the relation of rheumatism thereto, Wilson, Ling and Crofted say: "The routine removal of tonsils for the prevention of rheumatic heart disease in children is not based on conclusive data."

Routine removal means taking out the tonsils rather regardless of the condition in which they are. The authors do not say that such treatment is not effective. Their statement is that in their study the efficacy of that method of prevention was not proved.

An editorial in the Medical Journal and Record runs to other reasons for removing the tonsils. This editorial is based on two extensive studies of the effects from removing tonsils. One of these was made by Dr. Kaiser of Rochester. His investigation was as to the effects in the tonsils had done good. In the general run of cases it had not accomplished much except in preventing the other, cure.

The other study quoted by the editorial was one made by Collins and Sydenstricker and published as Bulletin 175, U. S. Public Health Service. They found the tonsillitis rate in children varied according to age. Each 1,000 children two years of age had 50 attacks of tonsillitis a year. The rate from 50 at two years of age to 175 at eleven years of age. It then fell until it reached 50 at twenty-four years of age. The rate of children in the grades was 100. There is one attack per year of tonsillitis each ten children, or five in a 50 pupil schoolroom.

Among children whose tonsils had been removed the attack rate was not lowered. The rate of tonsillitis was of service in diminishing the tonsillitis attack rate. They found the results of operation disappointing also as a preventive of heart disease in children and as a means of preventing and curing enlarged glands in the neck.

When removal of tonsils was done to overcome underweight and retardation, the more immediate effect was very satisfactory.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

A NEIGHBORHOOD EYEWITNESS.

Chicago, March 12.—(Friend of the People.)—There is an empty lot in the 2600 block of Farragut avenue on which ashes, cans and garbage are dumped. Is this allowable? The wind blows ashes all over the surrounding property and besides it is a disgrace to the city. It is a dump ground in a nice neighborhood. Will you kindly do something to stop this nuisance?

E. W. Report is made that offenders were notified to stop dumping ashes or other refuse on vacant lot opposite 2521 Farragut avenue. Location will be kept under observation to see that notices are obeyed.

JOSEPH J. BUTLER.

Deputy Commissioner of Streets.

MISUSE OF NOTARY'S SEAL.

Chicago, March 15.—(Legal Friend of the People.)—A-A has a real estate business and has taken out a notarial commission for one of his employees. When this employee is absent and any notary work comes in from the outside, A-A insists on his other employees using the seal and affixing the notary's signature to the document, saying that he will take all the responsibility in case anything goes wrong. The employee refuses to obey. In the event anything would

come up on this (1) would the employee be held responsible or the employee who affixed the signature? (2) What would the charge be against either? A. M.

1. Both might be held. 2. Forgery. We strongly disagree with the inference of the TRIBUNE LAW DEPARTMENT.

CITIZENSHIP DENIED.

Chicago, March 15.—(Friend of the People.)—I came here six years ago. At that time the authorities were not strict and I did not pay my head tax of \$8. I am very sorry now that I did not, because I want to become a United States citizen. My people are Canadian citizens. I was born in Russia. We came from Russia 16 years ago. I also want to make a two weeks' visit to Canada this summer. Will you please advise me?

A. K. It appears that the alien is illegally residing in the United States, and therefore cannot apply for United States citizenship papers until such time as he has departed from the United States, obtained an appropriate immigration visa from the American consul, and effected lawful entry to this country, in accordance with immigration laws and regulations.

S. D. SMITH, District Director of Immigration.

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY

MARCH 19, 1864. CHATTANOOGA.—The Chattanooga Gazette has reliable advice that Quantrell, the guerrilla leader, is in northern Texas. It has a dispatch from Morland, Miss., stating that Gen. Sherman has gone down the Mississippi with his troops, evidently for Red river. A Houston dispatch says the Yankee fleet is being moved to the Gulf peninsula and Brownsville, 9,000 strong.

HEADQUARTERS, ARMY OF THE POTOMAC.—There are rumors of a rebel raid by Stuart in the direction of Fredericksburg, but nothing of a reliable nature is known of it.

CAIRO.—Gen. Lee's rebel cavalry, which followed Gen. Sherman's expedition on its return from its raid into Mississippi, has gone back to the interior.

NEW YORK.—The World's Washington correspondent says: "There is a rumor of a conspiracy embracing several counties and cities in Kentucky for the purpose of the annexation of Kentucky to the southern confederacy. The leaders have their headquarters at Monticello and were corresponding with Longstreet in Tennessee."

CHICAGO.—Henry S. Slaymaker and Miss Fidelia Montgomery were married on March 17 at the residence of A. S. Reigart, near Belmont, by the Rev. Mr. Reigart. The Rev. Alfred Eddy, recently of Bloomington, has accepted a call from the Olivet Presbyterian church, and was installed last night.

CHICAGO.—Gen. A. E. Burnside will visit Chicago today in response to an invitation extended some time since by the Board of Trade. The hero of Roanoke and Antietam will meet with a cordial reception.

30 YEARS AGO TODAY

MARCH 19, 1859. NEW YORK.—The number of persons now known to have lost their lives in the Windsor hotel fire is sixteen. This, however, takes into account only those whose bodies have been actually seen. The list of missing is in the neighborhood of fifty, and is constantly increasing. Fire Chief Bunker believes that when the wreckage is cleared away many more bodies will be found.

NEW YORK.—William Thomas Jagers, London messenger boy, reached here to deliver messages from Richard Harding Davis, who made a wager

VOICE OF THE PEOPLE

Writers should confine themselves to 200 to 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

SUSPECTS CHURCH CHARITY DEDUCTIONS.

Chicago, March 15.—On March 15 I was paying my income tax. An income tax agent, stationed at the Washington Park National bank, is certainly the most indiscreet and most ungentlemanly person I have ever met. In his opinion he can't see why so much is deducted every year for the churches. He said, "If the churches receive the amounts of money according to the deductions of the taxpayers they are certainly a bunch of bootlickers."

It is bad enough to tolerate having any one like him making a remark about that, but to be embarrassed by his shouting it out, so every one around could hear, is unbearable.

A gentleman of the bank who was standing near by said that the agent has made similar remarks to other persons, but as the bank does not employ him nothing can be done except to speak to him regarding this, to which he pays no attention.

INCOME TAX PAYER.

THE ORIGINS OF RACKETEERING.

Philadelphia, Pa., March 14.—I read with the greatest interest the editorial, "The Origins of Racketeering," and I left therein relative to where the responsibility rests regarding the crimes which have been committed in Kenosha. Your editorial leaves the inference that these crimes in Wisconsin had their origin with the slugging by strikers that occurred in the Allen-A strike. This is absolutely untrue. If your informant would but have investigated the importation of private detectives and strike-breakers into this situation by the Allen-A company it would have been impossible for you to write such a misleading article against our organization.

In the very beginning of the strike one notorious individual, who is nothing more than a less than a professional racketeer, in all that the word implies) imported thugs from Reading, Pa., who are known all over the United States where full fashioned hostility mobs are located as irresponsible persons and whose chief desire is to intimidate strikers in any manner whatsoever, in order that they might appear in the courts with certain accusations which will make it appear in the eyes of the court that the strikers are threatening them, with the result that the court grants injunctions. These thugs are interested in money only and have since told us that they received \$125 per week for creating these disturbances.

WILLIAM SMITH.

MOTHER CAUGHT BY JONES LAW.

Evansville, Ill., March 14.—A woman is arrested for violating the Jones law. What is the matter with the Chicago police, that they cannot get better and bigger stuff than going after a poor woman who is trying to support her three children?

Every day there appear in your paper articles for and against the eighteenth amendment, but the government doesn't seem to put much effort into enforcing the fourth and fifth amendments, which are just as important in our constitution as this unpopular eighteenth amendment.

We, people of the north, seem to be governed by the dry south, but when it comes to enforcing the fourteenth and fifteenth amendments they turn their heads to what interests them. The Jones law is good, but why don't the enforcing powers get some evidence on the ones who drink wet and vote dry? My suggestion is to go after the drys. A READER.

GLENN AND THE LEAGUE.

Chicago, March 17.—Hokey for Senator Glenn! It looks as if at last Illinois has a real representative of the people in the senate. He is no puppet of the obnoxious Anti-Saloon league. I had intended to vote for Cermak for senator, as I knew he was no dupe of the league, but when Glenn slammed that filthy outfit shortly before election I switched my vote to him, and I don't regret it.

TOM SHELTON.

ELLISWORTH AND NOBIL.

Cleveland, O., March 14.—In today's TRIBUNE is published a picture of Gen. Umberto Nobile, with the notation that he quit Italian air service to defend himself. This calls to mind the successful trip over the north pole in the dirigible Norge, financed by Lincoln Ellsworth.

To Lincoln Ellsworth little credit or publicity has even been given. He cannot understand. Owing to the derogatory criticism of Nobile at this time I would like to see published in your paper an interview with Ellsworth relative to his opinion of Nobile's plan during his association with him on his successful north pole flight.

SUDBURY TABLE DESK

It is difficult to find a small table desk of the right proportions for home use. The Sudbury Table Desk is an enlarged form of the old time knee-hole desk. It is made of beautifully figured San Domingo Mahogany, with curved front inlaid with delicate bands of marquetry. The feet are a type of bracket commonly found in Eighteenth Century Connecticut pieces.

Across the full length of the back of the desk is a book shelf so that this piece can stand out in the room and make an unusual contribution to the entire decorative effect. Naturally the joinery is in keeping with the dignity of the piece—hand dovetailed joints in the drawers and laminated stock in the tops and ends. Visit our showrooms and see this unusual desk—with a lovely collection of individual pieces and related groups for every room in the home.

QUESTION JURORS FOR 2D TRIAL OF ELLER HENCHMEN

13 Face Prison Penalty if
Convicted.

CRIMINAL COURT.
Edward L. Scott, formerly sentenced to 1 to 20 years in Pontiac reformatory by Judge D. J. Normandy.

Thirteen former henchmen of Morris Eller, city collector and boss of the 20th ward, were started to trial for the second time yesterday in Judge Frank Comerford's court. The indictment names fifteen former Ellerses, but only thirteen of them appeared yesterday.

Indications were that the former tedious task of jury selection would be materially shortened at this trial because the judge insists veniemen shall not try to evade court except for legal reasons. When court had adjourned last night two jurors were tentatively accepted by both sides and a third man also seemed to have passed all qualifications.

Gerald Burton, 7444 East End avenue, and Albin L. Nelson, 3529 Armitage avenue, were the tentative jurors, and Fred Nez Melau, 3331 Pierce avenue, was the third man who appeared to qualify.

Prison Penalty Provided.
Benedict Short, Thomas D. Nash, and Roland Libonati are attorneys for the defense. In a former trial the Ellerses were convicted of conspiracy and escaped with fines, but now they are being tried for assaulting and kidnapping C. Ray Hanson, Chicago bar association watcher at the polls. If convicted, the penalty is automatically fixed by law at from 1 to 14 years in the penitentiary. Special Assistant State's Attorney Edwin J. Raber and Grover C. Neimeyer are prosecuting.

The defendants on trial are State Senator James Leonard, who is to be

BASES CLAIM TO PART OF BALDWIN ESTATE ON CHARGE OF INCEST

Los Angeles, Cal., March 18.—[Special.]—A mysterious man, who called himself George Winfield Baldwin and who so signed his legal papers, today filed a document laying claim to part of the \$15,000,000 estate left by the late Clara Baldwin Stocker.

In the papers filed by the claimant, Mrs. Stocker's will is contested and allegations are set up that "George Winfield Baldwin" was the child of the late Mrs. Clara Baldwin and her father, E. J. ("Lucky") Baldwin.

The document says that George Winfield Baldwin was reared in Fond du Lac, Wis., by Mrs. Sylvester Pease and her daughter, Angie Rose, who also is referred to as Angrossa Cutler Pease.

According to his papers, the new claimant is 50 years old and unmarried, and came to California eleven years ago, residing for the last four years in Los Angeles.

The document, "In objection to proposed," was discounted by Francis J. Henry, attorney for Mrs. Stocker's heirs. "There is nothing to it," he said. "Apparently the only basis for the man's strange claim was a story he heard some seven years ago."

Mrs. Stocker's will left the bulk of her fortune, which she inherited from "Lucky" Baldwin, to two surviving children, Albert E. Snyder and Mrs. Joseph F. Mullender. The will also provided for a gift of between \$2,000,000 and \$3,000,000 for a home for incapacitated elderly Protestant women.

allowed to absent himself for legislative sessions; Harry Hochstein, Audrey Reed, Benjamin Jacobson, Morris Brownstein, Eddie Brownstein, Sam Hardin, Policeman Peter Paccell, John Breclav, Abe Klass, Elmer Kinman; John Armondo, Sam Kaplan and Rocco Fanelli, Nick Kelly, and Ralph Pierce are the missing defendants.

EAKER ABANDONS DOWN TO DUSK AIR TRIP AT TAMPICO

Will Resume Flight to
Texas Today.

Brownsville, Tex., March 18.—(UP)—A "man-of-iron" pilot who gained fame by keeping the army endurance plane "Question Mark" in the air within a few hours of a week has failed twice in three days in attempts to span the 1,950 miles between Brownsville and Panama in a tiny pursuit ship on a dawn-to-dusk schedule. Both man and ship tonight were in fine fettle, short of a goal that apparently was too exacting for the means employed.

Left Panama at 4 A. M.
The Boeing plane "Pan America," one of the first of its type to be used by the United States army, and its pilot, Capt. Ira C. Eaker, landed at Tampico, Mexico, at 6:30 p. m. tonight. Instead of continuing on to Brownsville, which Eaker had planned to reach before sundown, he zoomed away from Panama City at 4 a. m. (3 a. m. central standard time).

Why Capt. Eaker abandoned the attempt at Tampico was not announced in a brief message which said merely that he had landed the Pan-America at the Huasteca Oil Company field at Tampico and would spend the night in that city, which virtually is untouched by the Mexican revolution.

Bad Weather Responsible.
It was believed the flyer perhaps had run into bad weather since leaving Guatemala City at 10:30 a. m. (central

time), and had quit the race when he saw he could not expect to reach Brownsville by sundown, the deadline set.

The southward attempt was begun here early Saturday after intense preparation. Bad weather forced Eaker to descend at Managua, Nicaragua. Eaker expects to begin the 200 mile hop to Brownsville tomorrow.

New 3-Minute Corn Remover Used By Thousands

2 Bushels of Anonizing
Corns Removed Last Week

There's a new, marvelously easy way to end a corn or callous—you can do it in only 3 minutes. Just get a 50 cent bottle of Shur-Off of any good druggist; wet your corn with it. Immediately all pain and soreness stop. Then after two minutes you can remove the corn or callous—root and all. Doesn't hurt a bit; positively won't make your foot sore. Instead Shur-Off takes out the soreness and pain and you can walk, work and play in comfort. From the feet of the American people alone, Shur-Off takes out two bushels of corns a week—it must be good.

MARSHALL FIELD & COMPANY

AN EXHIBITION OF CONTEMPORARY DECORATIVE ARTS

Assembled by our representative in France, Austria and Germany, this comprehensive collection comprises examples of the finest work that is being done today by decorative artists in these countries. Modern, not faddishly "modernistic," exciting, because they express us and our speeding times, many of these objects are museum pieces. From the monumental office desk of the great German architect, Prof. Behrens, and the mechanical silver of Puiforcat to the gay novelties of the Wiener Werkstätte and the rigolo toys of Frau Zweibrück—all are usable, colorful, sympathetic, alive. They usher into American interiors a fresh, spring breeze—the decorative style of our own Twentieth Century.

... and the ZERO HOUR Passes —

A THOUSAND times a year it comes to every home ... that dreaded "Zero Hour". To men, it comes in the early morning, when the fire is as low as sleep-sluggish vitality, and the task of shaking and shoveling is a task indeed. To women it comes when men are away, when the fire dies and they struggle with the tools of a coal-heaver in the basement. Even to children it comes—this "Zero Hour"—when they dress for school in shivering discomfort, or imperil their health in unevenly heated homes.

But it is passing ... like other inconveniences and labors of days gone by. With

THE PRICE of Silent Automatic is \$7.95 complete with automatic safety and operating controls. Minimal installation charges depend on house wiring conditions, oil storage capacity and local requirements.

FACTORY BRANCHES in Detroit, Boston, White Plains, N. Y., Providence, Baltimore, Philadelphia, St. Louis, and Chicago

Silent Automatic Oil Heat comes the home's greatest convenience—finger tip heating plant control. The shovel and shaker ... the ash pile and coal bin ... all go. A tiny thermostat on the wall gives complete control of temperatures at a touch of the finger. Every bit of work connected with the heating plant disappears.

But that's not all. With it disappears much of the housework, too. Furniture stays clean and practically dustless. Floors require little attention. Curtains, drapes and clothing remain unsoiled. And the way the freshness of wall paper and decorations are pre-

served eventually pays for the burner. In Silent Automatic the amazing convenience of Oil Heat is available in its most dependable form at very moderate cost. It was Silent Automatic that brought the boon of automatic heat within financial reach of all, and it was the utter dependability of the Silent Automatic burner itself that raised the "Silent" to its position of leadership. We have a story of OWNER SATISFACTION to tell you that is unique in the oil burner industry. It is an amazingly convincing story, based on actual experiences of thousands of "Silent" users. This story of satisfaction is the biggest thing in the industry today. Call ... or phone us ... and judge for yourself.

VICTORY IN FIGHT ON GANGS IS SEEN BY U.S. ATTORNEY

Satisfied with Police Aid, He Declares.

(Picture on back page.)

"Our drive to break up gangs in Chicago is going to be successful," said United States District Attorney George E. Q. Johnson yesterday after a conference with officials of law enforcement agencies in the Union League club, at which enforcement of the Jones law, providing higher penalties for prohibition law violators, was discussed.

With him were Prohibition Administrator E. C. Yellowley and his assistant, George H. Hurlburt. Alexander G. Jamie, special government enforcement officer, Police Commissioner William F. Russell, Assistant State's Attorney Harold M. Keele, representing Mr. Swanson, Chief Justice Harry Olson, and Judge Daniel P. Trude of the Municipal court.

"The Jones law is not a new prohibition law," Mr. Johnson said. "It merely provides a heavy punishment and we intend to direct it against gangsters whose main source of profit is through violating prohibition laws. There are no new plans, no new instructions, no new methods to be employed. We have made considerable progress in Chicago and we want to make more."

Police Helping, He Says.
 "Now that it is possible to sentence booze gang members to prison for five years we want to gain all the benefits of that law. When they run in gangs they are more dangerous to the

HUNDREDS OF 'MOON' STILLS WASHED AWAY BY FLOOD IN GEORGIA

Macon, Ga., March 18.—(P)—Boilers and barrels, riding the receding waters of south Georgia floods, today told the story of a huge prohibition cleanup in which neither federal nor state officers participated.

Literally hundreds of riverside stills, which because of their inaccessibility had been comparatively safe from internal revenue men, were swept away by the high waters.

community. Our talk today was intended to be helpful in applying the rigors of the law where the most good will result."

A questioner asked if there hadn't been a letdown in police assistance and if the government wasn't serving notice on the city and state officials.

"Police cooperation has been 100 per cent plus," Mr. Johnson stated. "They are not bound to help us and whenever they do we are that much better off. Commissioner Russell can speak for himself regarding his plans, but we have assurances of his continued assistance."

No Letdown, Russell Says.
 Commissioner Russell answered that "there has been no letdown and there will be none." His orders have been issued and are being followed by the department, he declared, and there is no necessity for any further warning.

Minor violations will be tried in the Racket court, as in the past, the United States attorney and the police commissioner said, and there will be no double jeopardy cases, no duplication of trials, Mr. Johnson told his interviewers. But they were emphatic regarding the future dryness of the city.

Deputy Police Commissioner John P. Stege, after nine robberies within three hours yesterday morning, said the suppression of the liquor traffic had driven the minor gangsters and booze runners back to their old habits.

DELAY HEARING ON NEWSPAPER GAG LAW REPEAL

St. Paul, Minn., March 18.—(Special.)—For the fourth time a hearing on the Davis bill, proposing repeal of Minnesota's 1925 newspaper gag law, was postponed today by the general legislative committee of the Minnesota house.

After a brief verbal battle in which the author of the repeal bill, Representative R. R. Davis of Breckinridge threatened to have it referred to another committee, it was agreed to give the measure a hearing next Monday.

The bill proposes to repeal the 1925 law under which Minnesota courts act-

ing without a jury were given authority to suppress newspapers found guilty of regularly publishing "malicious, scandalous, and defamatory matter." Several papers have been suppressed, including the Saturday Press, at Minneapolis weekly.

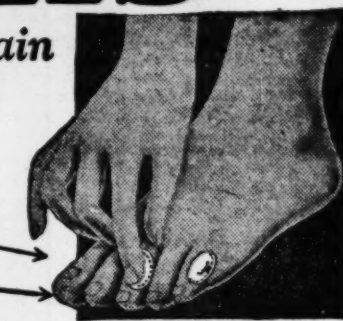

The Press' case was taken to the Minnesota Supreme court where the law was upheld and an appeal now is being prepared to the United States Supreme court by parties not interested in the Saturday Press, who believe the law is dangerous to the right of freedom of the press granted in the constitution.

KILLED AS AUTO LEAVES ROAD.
 Benton, Ill., March 18.—(Special.)—Mrs. Louis Gherardi of Christopher died in a hospital here today of injuries suffered last night when an auto driven by her husband left the road three miles west of Benton. Gherardi is not expected to live and their 5 year old son was severely injured.

RADIO BEACON TO
GUIDE FLYERS ON
N. Y. MAIL ROUTEInstall Equipment Here
to Thwart Storms.

BY ROBERT WOOD.

(Picture on back page.)

Airplane pilots flying the mail between Chicago and New York will be guided over the perilous segment of the route from Cleveland over the Alleghenies to New York hereafter by radio beacons, and by radio telephonic communication between planes and ground, it was announced yesterday by the National Air Transport.

Officials of the company state that the new equipment, which has been installed in ground stations at Cleveland, Bellefonte, Pa., and Hadley Field, N. J., will make it possible to fly in weather which formerly has made it unsafe and unwise to fly the mail and will result in more reliable air mail service between the two cities.

Will Extend System.

The company expects to extend this service over the route from Cleveland to Chicago, and later southward on its line to Dallas, Tex. Nine N. A. T. planes are now being fitted with the directional and ground receiving sets at the hangar on the Municipal airport. It is the first practical application of radio as a means of solving the problem of flying in bad weather.

The beacons now in use on the eastern division broadcast radio signals by the use of transmitters. The pilot, flying aloft, hears these signals and knows he is following the right course. He hears a dot and dash and knows that he is to the left of his course. Swinging over, he hears a dash and a dot, signifying that he is to the right of it. When the two signals

AVIATION NOTES

Members of the city council yesterday unanimously adopted a resolution introduced by Ald. Dorsey Crowe, chairman of the council aviation committee, urging the Lincoln park board to establish an aviation beach for amphibian and seaplanes in the harbor off Ohio street. In the resolution Ald. Crowe pointed out that the rapid development here demanded more landing places for planes.

The Chicago Association of Commerce yesterday announced plans to survey the effects air travel and commerce are having on the industrial, social, and economic life of Chicago. Questionnaires have been sent to all organizations which are engaged in aeronautics here.

Maj. William P. MacCracken Jr., assistant secretary of commerce for aeronautics, will speak before the members of the Collegiate club today at the Morrison hotel on the subject, "Are You Air Minded?"

Five passengers who traveled from Washington to Los Angeles aboard a Fokker tri-motored cabin plane last week passed through Chicago yesterday on their return trip. The plane was chartered by Mrs. A. H. Woods, wife of the New York theatrical producer. The other passengers were Art Goebel, trans-Atlantic flyer; Wil-

blend he knows he is on the correct path.

Gets Weather Reports.

Approaching an airport the path narrows, thus sending him directly to the landing place. Through head phones he receives word of weather conditions ahead. Ordinarily weather reports are transmitted to him hourly, but in severe weather the intervals are shortened. At present the voice is transmitted only one way—from ground to plane—but officials of the company state that a device is being perfected which will make two way communication possible.

Further aid in locating landing fields in thick weather is given by the marker beacon which sends a strong signal aloft informing the pilot that he is above the landing field.

Ham Lewis, Mrs. Leo Frahauf, and Philip H. Phillips.

The Universal Aviation corporation yesterday announced that orders have been placed for ten new Fokker planes, each capable of carrying thirty-two passengers.

Pilot William McPhail of the Universal Air lines on his return to Chicago yesterday told of carrying a hysterical mother over 750 miles of unfamiliar territory to the bedside of her son who lay seriously ill at Hagerstown, Md. McPhail said he was called out of bed Friday morning at Indianapolis to meet a train and take aboard Mrs. A. B. Pearce of Illinois, Tex., and her sister. He took off in wind and rain, and stopped at Uniontown, Pa., where he secured maps. With the aid of these he proceeded to Hagerstown, making the trip in four hours and 50 minutes. Hall Pearce, the sick youth, is recovering, McPhail reported.

LOOT EPHRATA
CLOISTERS OF
RARE ANTIQUES

Ephrata, Pa., March 18.—(AP)—Some of the most valuable antiques in the collection at the Ephrata cloisters here were stolen some time last night. It was revealed today by local police, who sought the aid of state police and antique dealers throughout the east in their efforts to apprehend the thieves.

The loot comprised several priceless corner cupboards, a square pottery umbrella stand, a dough tray, and several smaller antiques. Access was gained by breaking a 200-year-old lock and cutting the heavy screen which had been placed around the antique collection. The person or persons responsible apparently were well versed in antiques and took only the most valuable relics.

ROB DRUG STORE OF \$270.
Henry Alexander, 1317 North Washington avenue, manager of the Girk drug store at 2101 North Western avenue, was held up yesterday by two armed men who rifled the cash register of \$270 and escaped.

Here in
CHICAGO
they sweep out
\$100,000 ideas

How is it that some of the best ideas get lost in the shuffle? When a competitor comes out with a real money-making idea, you frequently remember that you thought of the same thing months before.

Perhaps you jotted it down. Perhaps you can even remember what the piece of paper looked like.

To your janitor it was only a scrap of paper.

That's just one of a dozen things that never happen to the man who puts his ideas on the

PRETTY GIRL RID
OF 'YELLOW MASK'

Beautiful Jane Gray Tells How She Banished Yellowish Discoloration from Teeth

Only one thing marred the famous beauty ensemble of Jane Gray of New Orleans—slightly yellowish teeth. She says: "This troubled me and I changed from dentifrice to dentifrice. From paste to powder. One day my dentist gave me a tube of ORPHOS TOOTH PASTE. He told me it was a new formula especially effective where teeth have a yellowish tinge. I tried it. It whitened beautifully and leaves my mouth so clean and refreshed."

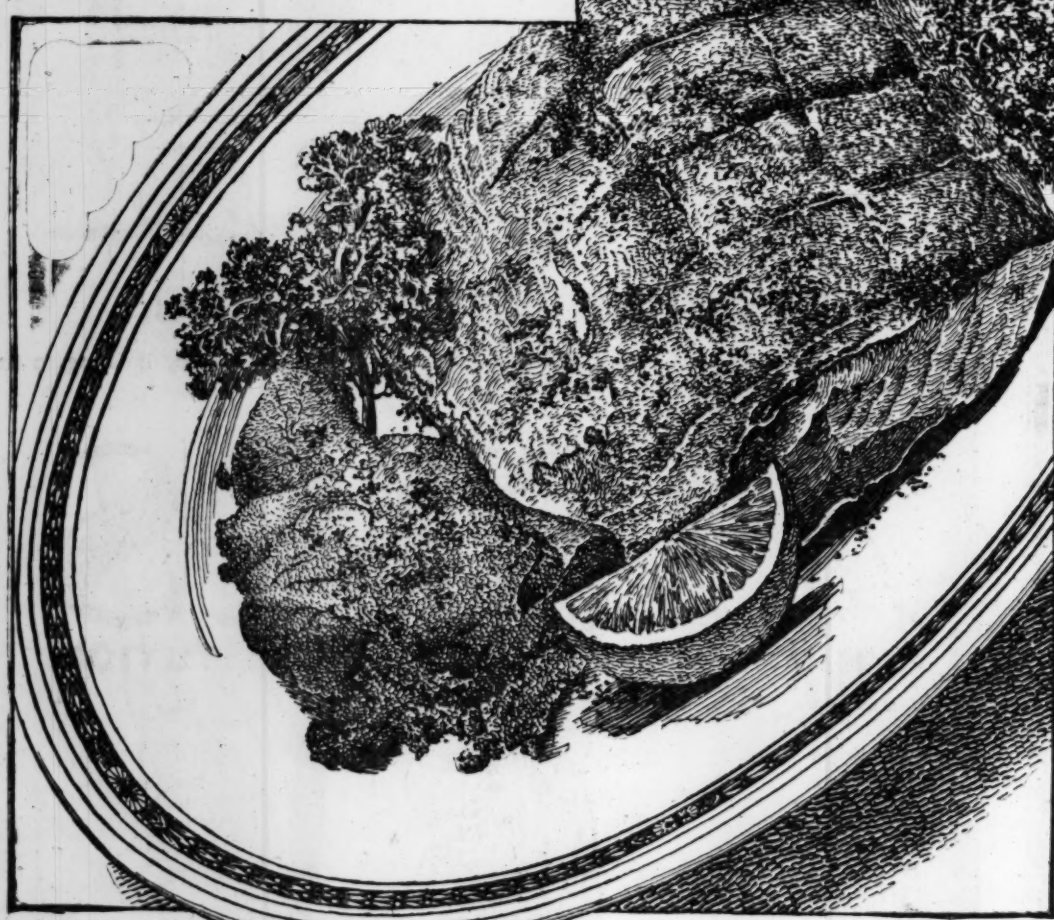

ORPHOS whitens amazingly . . . because it is composed of "Tri-Calcium Phosphate," the very substance leading dentists use in cleaning teeth. New in tooth paste formula. Also contains seven soothing, healing antiseptic oils to tone, strengthen and firm gums. Get a tube. Try it. Your nearest drug or department store will gladly supply you.

Orphos TOOTH PASTE
"Removes Yellow Mask"

The Dainty Healing Touch
of Cuticura Ointment

Exquisitely dainty, pure and effective, Cuticura Ointment does more than heal. It cleanses the pores of the skin and restores them to their normal activity so necessary in preventing blackheads and many forms of unsightly blemishes. Used either before or after a thorough cleansing with Cuticura Soap and warm water, Cuticura Ointment quickly demonstrates its sensitive, cleansing and healing powers.

Soap & Ointment 15¢ each, 3¢ each. Sold everywhere. Sample free. Address: "Cuticura," Dept. 240, Malden, Mass.

DELICATE
SHAD ROE... with Broiled Shad
and Butter HotelièreThis week on the
BROADWAY
LIMITED

MANY THINGS melt in your mouth—but none so pleasantly as Shad! This flavorful fish is served piping-hot—after having been boned, sprinkled with a little olive oil, broiled.

Served with the Shad are the myriad delicate orbs of the Roe, with their subtle flavor—light and stimulating!

Over all is poured soft Butter Hotelière—golden butter, smooth-mixed with chopped fragrant parsley, salt and pepper, tart lemon juice, a teaspoonful of Worcestershire Sauce.

It is a dish to linger over in the comfortable diner as the awakening landscape flashes, panoramic, past your window and Spring seems nearer with each click of the rails.

Try it this week—on Pennsylvania dining cars. You'll find it your pleasantest memory of the awakening year.

R. C. Caldwell, Div. Pass. Agt., Room 550 Union Station, Chicago, Ill.

PENNSYLVANIA
RAILROAD

Carries more passengers, hauls more freight than any other railroad in America

Its unusually mellow,
blended richness

PLEASES EVERYONE

RICH—"winy"—mild—pungent—Every coffee-growing soil produces a bean with a slightly different flavor. Yet no one of them alone is completely satisfying.

Years ago, in the Old South, a gentleman who had tried them all—an expert in coffees—determined to find the ideal coffee flavor. After years of patient experimenting—testing, rejecting, combining and re-combining flavors and shades of flavors of the choicest coffees grown in many tropic lands—he created at last a blend which delighted even his sensitive palate.

It met the world first at the famous Old Maxwell House in Nashville, Tennessee—a critical world composed of beaux and belles of the Old South, bred in a tradition of good living, visiting Presidents, distinguished statesmen, officers of the Army and of the Navy,

travelers of note from far and wide.

"Good to the last drop," these guests pronounced the coffee, and the fame of Maxwell House Coffee spread abroad. Visitors who sipped it in Nashville wanted it on their own tables in Washington, Philadelphia, in Boston and New York.

North, South, East and West today it is the fine coffee with which millions of Americans start their day, over which they linger in enjoyment after the evening meal. Prominent hostesses serve it at their most brilliant social functions, sure, with this coffee, of pleasing all their guests.

Your own grocer has Maxwell House Coffee nicely sealed in tin to preserve all its fragrance and flavor. After your first cup you will understand why, in actual pounds used every year, Maxwell House has become America's most widely popular coffee.

If You're Going to Sell Your
USED CAR
don't forget this . . .

WHEN you insert a used car Want Ad in the Tribune you employ the most powerful automobile selling force in existence to sell your car. Your Want Ad will reach four-fifths of the car-buying people in Chicago!

People in metropolitan Chicago who are interested in automobiles read the Tribune because the Tribune has always fought relentlessly for better motoring conditions—because its tremendous editorial force has been used unsparingly to wipe out traffic evils, speed traps, special privileges, and other obstacles to motoring convenience—because its unceasing efforts have played a big part in bringing about the wider and safer highways legislation of recent years.

The result has been that year after year motorists' confidence in the Tribune has pyramided until today 83% of those who buy cars in metropolitan Chicago read the Tribune.*

That means that a single Want Ad puts your used car offer before almost the entire motor-buying market. It means that you can safely rely on the Tribune to sell your car without the help of any other medium. Call

OPEN INQUIRY ON AIR CRASH THAT TOOK 14 LIVES

Plane and Pilot Efficient, Owners Claim.

New York, March 18.—[Special.]—In an informal hearing today in New York, presided over by Mayor Jerome T. Connelley, representatives of the Colonial Airways system, owners of the tri-motored Ford plane which crashed yesterday, causing the death of 14 persons, testified that every precaution had been taken for safety. They denied that the plane was overloaded, and that the pilot was not competent, and that the plane itself was deficient in any way. Only once did any criticism of the pilot creep into the testimony and that was a hint in the statement of Edwin Weatherdon, chief pilot for the Colonial sys-

tem, who was directly responsible for the plane.

Says Two Motors Failed.

Mayor Connelley, who presented the questions at the hearing, asked Weatherdon if, in his opinion, "Pilot Foote followed the normal procedure" in his handling of the plane.

"I think he might have had more altitude before turning," Weatherdon answered, and then added, "but he might have had it and lost it."

Foote himself added to the sentence he spoke soon after he was picked up on the railroad tracks at the scene of the crash from his bed in the hospital this morning. According to Mrs. Foote the pilot said that two of his motors failed.

"The two wing motors went dead," she quoted him as saying, "the third wouldn't hold her up, and I don't know what else happened."

Licensed to Carry 14.

Many of the questions had to do with whether the plane had been overloaded. Dudley Rowland, operations manager for the air transport company, showed in pounds that the plane apparently was flying with a safe load margin. A representative of the aeronautics branch of the department of commerce in Washington, however, stated that the Ford tri-motor, powered with Wright whirlwind engines, which develop at cruising speed 200 horsepower each, is licensed to carry 14 persons only, two pilots and 12 passengers. The Colonial plane in its fatal flight

Sunday night was carrying 15 persons, 13 passengers in the cabin and a fourth, Belmont Parsons, a friend of Foote, in the pilot's cockpit.

Parsons, who climbed in at the last moment on invitation of Foote, was the only person beside the pilot who was not killed instantly. He died today of a fractured skull and internal injuries.

DENIES SNOOK QUIT BECAUSE OF "SNOOPERS"

Washington, D. C., March 18.—(AP)—The department of justice today announced that the request for the resignation of John Snook, warden of the Atlanta penitentiary, was made after a review of conditions there extending over two years, and not because of his objection to the use of "underground agents."

The action taken by Mrs. Mabel Willebrandt, assistant attorney general in charge of federal prisons, in asking Snook to resign was approved by Attorney General William D. Mitchell, the statement said.

"So far as concerns the methods of obtaining information about inside prison conditions, it need only be said that at the present time there are no so-called undercover men in any federal prison," the announcement said.

PEACE REIGNS IN VENEZUELA, SAYS ITS PRESIDENT

CARACAS, Venezuela, March 18.—(AP)—President Juan Vicente Gomez, asked to issue a statement on persistent reports of widespread interest and threatened disorders in Venezuela, authorized the following today:

"The political, financial, and economic conditions of Venezuela are splendid. There is complete calm in the country and peace is firm, solid and immovable. The general welfare of the people is normal; the universities of Caracas and Merida are functioning with a considerable number of students."

"Only a group of youths who were students of the Caracas university are still under arrest in Puerto Cabello due to justifiable reasons."

"Congress will meet April 19. Gen. Gomez will then deliver his message and will hand over power to a justice of the Supreme court previously designated by this tribunal."

"Alarming rumors are manufactured by a limited number of unemployed Venezuelans in Colombia who are hand in hand with certain elements of that republic and should be considered prima facie as falsehoods invented with the deliberate intention of harming Venezuela."

A Fundamental Economic Fact No Motor-Car Buyer Can Ignore

IN THE purchase of a motor-car—or any other commodity—the most vital and compelling factor, regardless of any other consideration, is *intrinsic value*.

No business institution can ignore this truth and survive. No motor-car buyer can afford to ignore it.

It is the only sure basis of sound, judicious buying.

The principle underlying this fundamental economic fact has long been a tradition and a faith with the Cadillac Motor Car Company.

The buying public understands and appreciates this. It realizes that the highest quality product—the product of greatest intrinsic value—is inevitably the most economical product.

That public has actually *itself* evaluated Cadillac and La Salle—and not the Cadillac Motor Car Company.

It knows full well the traditional excellence of Cadillac-La Salle craftsmanship.

It sees at work in Cadillac and La Salle the vast buying power of General Motors deliberately planned to permit value-giving in excess of any other standard.

And it quite logically concludes that no other manufacturer can produce *as fine a car* as can the Cadillac Motor Car Company without exacting a price premium that would make the product prohibitive.

That the public has confirmed its judgment is attested by its loyal allegiance to Cadillac and La Salle and by the new hosts who are constantly flocking to Cadillac-La Salle ownership.

This is proved by the fact that in 1928 Cadillac-La Salle dollar volume exceeded the dollar volume of any manufacturer in the fine car field; and Cadillac-La Salle's business in Fleetwood custom-built models—the very ultimate in luxurious motoring—exceeded the custom-built

business of all other American motor-car manufacturers combined.

In fact, the *whole and incontestable truth* of the matter is that today Cadillac and La Salle actually command preferred position and dollar volume dominance in the fine car field.

And the Cadillac Motor Car Company is the only motor-car company in history that has achieved this preferred position in the quality field and this dollar volume dominance *solely because of intrinsic value*.

It is the enthusiastic satisfaction and loyalty of the Cadillac-La Salle public that has inspired and, in a very real and literal sense, created the characteristics that make Cadillac and La Salle the finest and smartest cars on the streets of the world.

It is this enthusiasm and this loyalty that have made it possible for the Cadillac Motor Car Company to be constantly raising quality, constantly increasing value, constantly giving more and more for the purchaser's dollar—

More in fine manufacturing; more in beauty, exemplified by Cadillac and La Salle's exquisite Fisher and Fleetwood bodies; more in brilliant performance, through the high refinement and efficiency of the superbly smooth Cadillac-La Salle 90-degree, V-type, 8-cylinder power plant—

More, too, in progressive engineering as most recently evidenced by Cadillac-La Salle's three ultra-modern and exclusive safety features—the Syncro-Mesh Silent-Shift Transmission, Duplex-Mechanical System of Four-Wheel Brakes and Security-Plate Glass in all windows, doors and windshields.

It is perfectly obvious to all the world that this process has been continuously widening the value gulf between Cadillac-La Salle and cars aspiring to compete with them, until today it is revealed—*more emphatically than ever before*—that Cadillac and La Salle have no real rivalry.

CANAL TRUSTEES FACE INDICTMENT IN BOND SHORTAGE

(Continued from first page.)

to render an opinion before the next meeting of the committee on Thursday morning.

The final fight of the day occurred when Prosecutor Slusser refused to reveal to the committee the evidence in his possession relative to the automobile bills of the sanitary district unless the committee went into executive session, which would exclude newspaper men. The prosecutor expressed his regrets, but said it was imperative that he assume that attitude. Chairman Starr refused to hold a star chamber session and allowed the record to show Slusser's refusal to comply with the request for testimony.

Senator Adolph Marks, speaking for himself and Senators Edward J. Hughes and William McCauley, announced that if their chairman did not agree to an executive session to hear the prosecutor they would hold a secret session of their own, thus openly splitting with Chairman Starr and foreshadowing a rump session of the committee.

About the only definite action taken by the committee yesterday concerned T. B. Scouten, senate sergeant at arms and server of subpoenas, who was found to have been a district pay roller. The senators decided that Scouten was a good fellow and decided to permit him to hold his job, but arranged that he is not to have direct access to the records in his custody.

Back Branson in Asking Sanitary District Quiz

Centralia, Ill., March 18.—(P)—Resolutions endorsing the stand of Representative Robert J. Branson in asking an investigation of legislators on the Chicago sanitary district pay roll were unanimously passed by the Republican convention here.

STATE SANITARY QUIZ BOARD TO BE NAMED TODAY

Shanahan Says One May Not Accept.

BY PARKE BROWN.

[Chicago Tribune Press Service.] Springfield, Ill., March 18.—(Special.)—Speaker David E. Shanahan tonight said he will appoint the special committee of the Illinois house that is to investigate the dual activities of members of the legislature in connection with the payrolls of the Chicago sanitary district and other local governments in the state, tomorrow.

He declined to make public the names of any of the seven selected for appointment, and under questioning admitted one of the seven might not accept. He indicated he has searched the list of eligibles so thoroughly that he now is ready to go ahead with confidence that he has an accurate rating on all those within range of qualification.

In answer to further questions about the conduct of the committee's affairs, he said those would impose no restraints beyond those included in the Branson resolution, except in the matter of expenditures.

The big event on the program of the house tomorrow is the old age pension bill, which last week was made a special order of business for 10 a. m. One of the essential provisions of the bill is that creating a new tax of one-half mill, the proceeds of which would go to pay pensions to persons over 70 years old who do not have adequate means of support. The maximum pension is to be \$260. Opponents of the measure say the proposed tax would not even come near paying the cost of the pension system; that the increased tax would be much larger, and that the danger following the creation of the tax lies in increasing the number of pensioners year after year.

Among other important bills before the lower branch for passage this week are the Elrod bills placing women on the same legal basis as men in regard to service as jurors. And of course there is the gas tax.

BYRD SEEKS 3 LOST IN FLIGHT AT SOUTH POLE

(Picture on back page.)

New York, March 18.—(P)—No word has been received for three days from Larry Gould, geologist, and his two companions, Bert Balchen and Harold June, aviation pilots and members of the Byrd antarctic expedition, who have been engaged in an aerial geo-

logical trip to the Rockefeller mountains, according to a radio message from the south pole expedition copy-righted by the New York Times and St. Louis Post-Dispatch. Commander Richard E. Byrd is preparing to fly in search of his comrades as soon as favorable weather obtains, the message stated.

ENDS LIFE WITH RAZOR.

Andrew Parowski, 36 years old, who had been in ill health, was found dead yesterday, his throat slashed with a razor, in the bathroom of his home at 1335 Wade street.

Biggest Year for Chicago Street Cars

THE last fiscal year, ended January 31, was the biggest in the history of the Chicago Surface Lines.

There were 1,621,000,000 rides during the year—nearly half a billion more rides on street cars than there were calls through all the telephone exchanges in Chicago in the same period. Riding increased over the previous year to the extent of 35,774,000 and service was increased 728,000 car miles.

This was on top of increases in both riding and service every year since 1922, and was accomplished in spite of the fact that the electric railway industry and the steam railroads of the country both reported decreases last year, due to industrial conditions.

The Electric Railway Journal describes these achievements, in the face of difficulties resulting from lack of franchises, as "an outstanding record of operating efficiency."

Street cars last year carried 76.75 per cent of the entire local transportation load of Chicago. They are doing a bigger and better job every year.

One hundred new cars of improved design have been ordered to meet new service requirements.

CHICAGO SURFACE LINES

Amey A. Shuman
President

Dangerous? Not for men with Steady Nerves

TICKLISH BUSINESS THIS!—Linesman Alex Johnson has to put his whole mind on his job when he gets a call like this. "A lot of my work," he says, "is on emergency calls... repairing broken lines, etc. Naturally, I watch the condition of my nerves. I can't take a chance when I'm up in the air. So Tareytons for me... they're real Steady Nerve insurance."

Smokers say Tareytons help keep nerves fit for risky jobs

LOOK AT THEM! Swinging a pole to fix a broken power line... hanging out over space to put finishing touch on a roof-top billboard... taking a final smoke before dropping out of sight under the sea...

Risky? Not when "steady nerves" are on the job.

These men keep in trim. Watch the condition of their nerves as well as their bodily condition. They take no chances on jumpiness... avoid ragged nerves and that irritable "smoked-out" condition...

Do they smoke? Of course! Like all active men they are heavy smokers...

But they've made a discovery... "It's in the brand we smoke," they told interviewers. "We stick to one kind... swear by it. We smoke all we please... more

than lots of smokers... but you'll never catch us lighting anything but a Tareyton!"

Thousands of others say the same thing, too. The whole country unites in one chorus... "Tareytions... for steady nerves!" East and West, North and South... the story is always the same!

Maybe there's a hint here for you. Perhaps you get on the ragged edge once in a while. Possibly you find yourself jumpy and irritable at the close of the day.

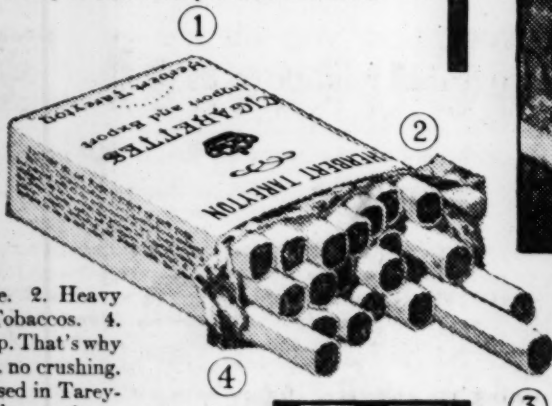

Then try this recipe. Lay in a stock of Tareytions... enough to last a week. Smoke them for seven days, just to make the test conclusive. Then check up on how you feel.

See if you, too, don't feel a lot better. After all, it's worth the test, isn't it?

RISKS LIFE UNDER SEA—H. Siemer, crack diver, has a perilous job, if there ever was one. Asked about cigarettes, he answered, "Say... have you ever found a man on a high-tension job like this that didn't smoke Tareytions? I smoke two packs a day... and my nerves are always in A1 condition."

UP IN THE AIR! The camera man found Charles Kulowski in a place that was enough to make anybody nervous. But the sign painter only laughed. "They put signs in places where a nervous sign painter might not only spoil his job," he said. "He might lose his life! So I stick to Tareytions... smoke 'em all day... and nerves never bother me!" And he's only one of the many thousands who give the same reason for choosing Tareytions.

1. Humidor Package. 2. Heavy Foil. 3. Quality Tobacco. 4. Sealed Perforated Top. That's why there's no dryness... no crushing. Extra heavy foil is used in Tareyton's famous humidor package.

Herbert TAREYTON

\$150,000 ASKED BY ETTELSON FOR PHONE LITIGATION

New Franchise and Court Appeal Are Causes.

Franchise negotiations and the litigation now pending in the federal court between the city and the Illinois Bell Telephone company cannot be prosecuted successfully without an appropriation of approximately \$150,000, the city council was told yesterday by Corporation Counsel Samuel E. Ettelson. The request for funds with which to employ lawyers, experts, engineers, and accountants in these two cases was referred to the council finance committee.

The appropriation for the corporation counsel's office in the 1929 budget is \$815,800. Despite this appropriation, the city's law office is making

the usual plea for more funds which is invariably made when public utility litigation becomes an issue. The corporation counsel is expected to ask for more money in connection with the lengthy elevated rate fare hearings which are now in progress.

Two letters, written by special assistants of the city's law office engaged in these cases, were submitted to the council with the request for more money. These cite the need for the city not only to offer affirmative evidence, but to check the facts presented by the telephone company.

The whole history of telephone operation since 1907, when the existing franchise was granted, will have to be examined, the city's attorneys stated. Methods of service, depreciation charges, expenses, sources of increased revenues, the letters say, are among the technical problems which must be investigated.

"It is obvious that these matters involve engineering and accounting service as well as the determination of legal questions," wrote Attorney Benjamin F. Goldstein, who is representing the city in the franchise hearings. Data not required for the case in the federal court will have to be obtained for the franchise negotiations, he said.

In the federal case, the city is appealing a temporary injunction granted to the telephone company enjoining the order of the Illinois commerce commission affecting the guarantee required of certain residence coin box subscribers. The special assistants represent-

ing the city in this case are Mr. Goldstein, and Attorneys George I. Height and Edmund D. Adcock, who declare that competent help is needed at once, as the case will be called on April 15.

"It will be an imposition on the court itself, as well as an idle gesture, to file proposed proofs without the assurance that the city will make available funds to prove these facts and to carry on the case to final adjudication, if necessary, to the highest court of the land," they wrote.

Ill-Health Forces King's Youngest Son to Quit Navy

LONDON, March 18.—Confirmation of Saturday's cable that Prince George, King George's youngest son, was leaving the navy to take an appointment in the foreign office was made tonight in an official statement from Buckingham palace tonight. The action, the statement said, was taken "upon the advice of medical authorities and with the King's approval. Prince George shall now retire from active participation and work with the royal navy."

Naval life was said to be unsuitable to Prince George's health.

Oldest Postmaster in Nation Dies, Aged 89

Breckenridge, Minn., March 18.—(AP)—Col. Edwin Matteson, 89, said to have been the oldest postmaster in the United States, is dead at his home here from a bronchial infection.

Disturbs Neighbors Trying to Find His Door; Fined \$2

Arrested early Sunday morning on complaint of his neighbors that his efforts to find his own front door resulted only in disturbing their sleep, John O'Keefe, 908 Addison street, was fined \$2 and costs by Judge Herbert G. Immenhausen in the Town Hall court yesterday.

Grandmother Knew

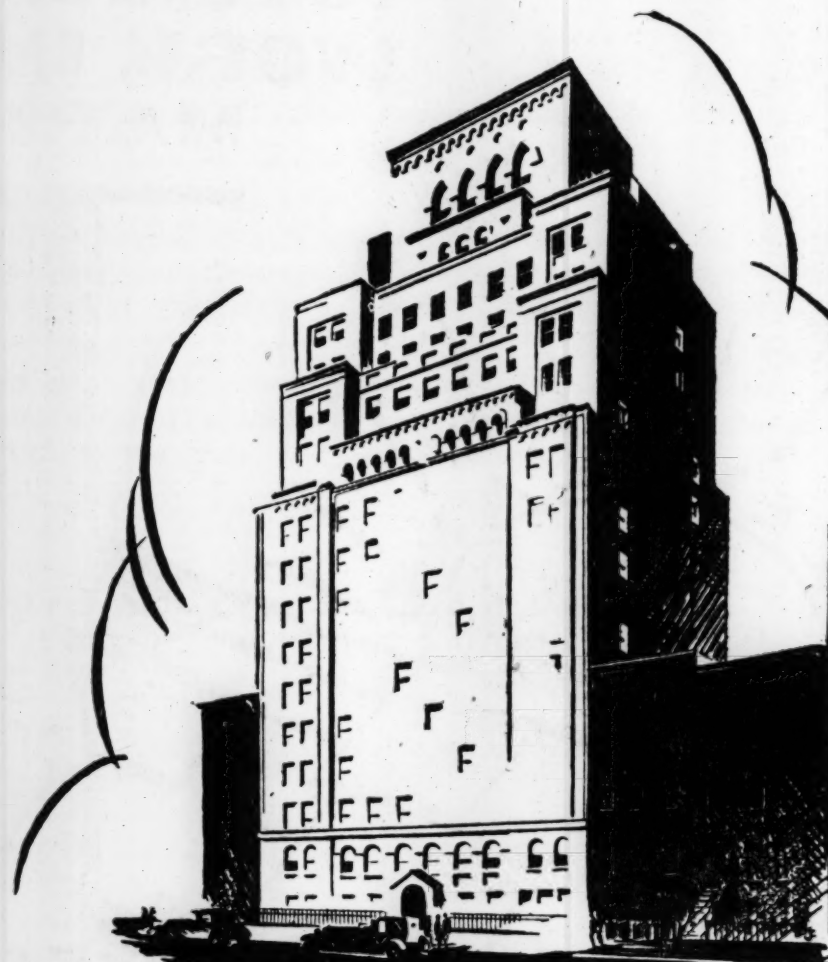

There was nothing so good for congestion and colds as mustard. But the old-fashioned mustard plaster burned and blistered.

Musterole gives the relief and help that mustard plasters gave, without the plaster and without the blister. Gently rub it in. See how quickly the pain disappears.

Try Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia).

 WILL NOT BLISTER
 Better than a mustard plaster

FREEZE WITH HEAT The ELECTROLUX Refrigerator

Nothing but the most modern equipment would do for the Tuxedo, a fine new apartment hotel at 180 E. 59th St., N. Y. C. Naturally Electrolux was chosen as the most modern refrigerator.

Total Cost of Operation 5 to 8½ cents a day in Chicago

Gas and water are not only relatively cheap, but the Electrolux uses only a tiny gas flame and a mere trickle of water. That is why the operating cost is ridiculously low.

THE MODERN WAY ICE from a GAS flame

If you haven't seen Electrolux you've not seen perfect refrigeration—noiseless, free from trouble, inexpensive.

The greatest development since the first crude ice machine, experts have said. And you'll say so too.

All over the country in the newer, finer types of apartment buildings, architects are specifying this thrillingly different refrigerator.

It has no machinery at all, not a single moving part. It's as different from the traditional idea of an automatic refrigerator as a tea kettle is from a Diesel engine.

No motor, no pump, no compressor. Heat power replaces motor power. A tiny gas flame instead of complicated mechanism. So much simpler, surer. So absolutely and permanently silent. So inexpensive to operate.

The tiny gas flame, a trickle of water, a simple refrigerating

liquid—and there you have Electrolux. Just light the flame—once—and the chilling action starts, to continue endlessly. The heat expands the liquid to vapor. The water condenses it back again. During this cycle of physical change, intense, even cold is produced.

Only a little heat and a little water are required. The flame is not much larger than a pilot light. The water flow is a mere trickle. That is the secret of the low operating cost of the Electrolux.

The flame burns without attention, without thought on your part. Should it ever go out for some unforeseen reason, no harm is done. The chilling

action stops, but the gas automatically shuts off and cannot flow again until you light it.

There is not a thing to renew or replace about this refrigerator anywhere, unless it be the inexpensive gas burner after years of use. With no moving parts, scientists can find no good reason why the Electrolux should ever wear out, any more than your kitchen table.

Prices run from \$225 to \$510, f.o.b. Evansville, Ind. You can purchase your Electrolux on convenient easy payments.

At the nearest display room you will find an interesting range of sizes and models, in white and lovely colors. Or you can obtain full details by mailing the coupon.

ELECTROLUX
 THE GAS REFRIGERATOR
 MADE BY SERVEL

"It's just the right size for a table, and so handy—it saves a lot of walking." Housewives are enthusiastic over the Double Duty Model shown here. Five cubic feet of food space; makes 10 ice cubes.

ONTARIO FORBIDS VISITORS TO TAKE RUM BACK TO U. S.

Penalties for Violation of Liquor Act Reduced.

BY ROBERT FARQUHARSON.
 (Chicago Tribune Press Service.)
 Toronto, Ont., March 15.—Drastic reductions in penalties for violations of the Ontario liquor control act were announced late this evening, when the government introduced surprise amendments to its liquor legislation. Fines and terms of imprisonment mandatory upon conviction are cut in half.

To United States visitors the most important change is prohibition of taking liquor purchased in Ontario outside the province. American visitors who legally purchase booze here must consume it before they leave Ontario if they wish to remain within the law of the province.

If a man on a train bound for Chicago is found in future to have a quart of Scotch in his possession, he will be liable to a fine of \$200, two months in jail for having the liquor in an illegal place. Attorney General Prince explained that this did not aim a blow at rum running, but simply at hip running. It will be felt chiefly at the Detroit border, where Americans come across in droves and line up at the liquor stores.

Fines Cut in Half.
 On the first conviction in Ontario for being drunk the fine is now from \$10 to \$50, instead of from \$10 to \$100. For the second offense the penalty is now from \$50 to \$100, instead of from \$100 to \$500. In default of payment the jail sentence will be from one to two months, instead of from two to four months.

On a third conviction the penalty

remains the same—three to six months in jail without the option of a fine.

Another change provides that after a permit has been canceled all liquor purchased by the holder of that permit and not consumed is automatically forfeited to the crown.

Must Give Real Names.
 It is now an offense for any one, when applying for a liquor permit, to give a wrong or fictitious address. The penalty is a fine of from \$100 to \$1,000, or, in default, three months' imprisonment.

If an occupant of a rooming or boarding house is convicted of having liquor illegally, all the roomers in the same boarding house are debarred from keeping liquor.

**Two Negroes Forced to Run
 Pistol Gantlet; Both Dying**
 Marion, Ark., March 15.—(AP)—Two Negroes, taken from officers near here yesterday and forced to run while about 15 men fired pistols at them, were reported near death today. The Negroes, Willie James and T. D. Robinson, were alleged to have attacked A. L. Cockeral at his home near Turrell.

DUCE WAVES BIG STICK TO BRING OUT ITALY'S VOTE

Fascist Newspaper Warns Against Absenteeism.

BY DAVID DARRAH.
 (Chicago Tribune Press Service.)
 ROME, March 15.—Fascist leaders and election officials centered their efforts today on rolling up a vote for next Sunday's elections, when Italy's nine million electorate is to be asked to approve Premier Mussolini's hand-picked chamber of deputies, which has a membership of 400. The Fascist

candidates are unopposed. Systematic canvassing is being made to see that every one turns out at the polls and in some of the districts north a house to house canvas is being made.

Through this system a good sized vote seems assured now. At the same time some of the provincial newspapers are warning the electors that it will be a bad thing to absent themselves from the polls next Sunday. The Farinacci paper Regima Fascista, suggestively commented today: "It will be easy to find out those who abstain from voting."

Exiles Arouse Fascist Wrath.
 Intense indignations were registered today when it was discovered that pamphlets printed by exiled Italians in Paris and Brussels, who oppose the Fascist régime, were clandestinely smuggled into Italy urging Italians not to vote for Mussolini's list. Voters are warned to beware of this literature. "Every one today advised that abstention from voting means a vote against the Fascist régime. There is no excuse for abstention," warned Farinacci papers.

The size of the vote is expected to be swelled by at least a million in favor of the list as a result of the

Lateran treaty. The organization, "Action Cattolica," issued an order of the day today exhorting all its members to turn up at the polls to "vote for the next corporate chamber which is destined to ratify the famous Lateran treaty."

Results Beyond Doubt.
 The results of the plebiscite are of course beyond doubt, but actual announcement of the vote will not be known for several days because of the fact that all votes will be brought to Rome for counting. Thus no indication will be given of how the vote went in any particular city or region, only the gross total being announced.

A propaganda campaign for the approval of the deputies is being vigorously waged by government officials and prefects. To interest voters and draw out big crowds, open air picture shows are being given and leading orators are stumping the whole country. Mussolini, who nominally votes in Milan, today applied for registration in the Rome district and his name heads the Roman electoral list.

TRY FARMER FOR KILLING BOY.
 St. Charles, Mo., March 15.—(Special)—Frank Schroeder, a farmer, went on trial here today for the murder of Alphonse Boeschert, 17, whom he caught stealing his watermelons last fall.

Uncle Sam says THIS is the territory to cover from CLEVELAND

THE United States Department of Commerce clearly defines its conception of the Cleveland market in its "Atlas of Wholesale Grocery Territories".

This atlas is based on checking the actual operations of experienced grocery distributors in all major markets of America.

And—it shows a wonderfully rich, extensive territory as being logically tributary to Cleveland selling.

A concentrated market—thickly populated—prosperous—with an industrial and agricultural balance, that side-steps periods of severe depression.

A market that is easily and economically worked from Cleveland.

And, what is fully as important, easily and economically

reached by advertising in one great Cleveland newspaper, the Plain Dealer.

Scores of the Nation's great merchandisers have proved that in Northern Ohio the Plain Dealer fits perfectly into their selling schemes.

Experience has proved to them that here is one market where advertising and selling can be co-ordinated without the waste of a dollar in money or an hour in time or effort.

No matter what you are selling, this thriving territory offers tremendous opportunities for increased sales at low cost.

Sell it from Cleveland. Advertise to it from Cleveland, through the Plain Dealer—alone.

U. S. DEPARTMENT OF COMMERCE SAYS THE CLEVELAND MARKET CONSISTS OF

FIGURES SHOW IRISH ARE STILL FLOCKING TO U.S.

MacWhite Speech Gives Wrong Impression.

(Chicago Tribune Press Service.)

Washington, D. C., March 18.—(Special.)—Immigration officials today expressed interest in the Chicago speech yesterday of Michael MacWhite, new Irish Free State minister, but said that in his reference to immigration from that country he had created a wrong impression. Mr. MacWhite stated that "our immigration quota last year was about 25,000, but only 21,000 sought to take advantage of it." According to immigration officials, the quota from the Irish Free State has invariably been filled up from one to three years ahead. Average immigration from that country for the fiscal years 1925, 1926, 1927 and 1928 was 27,948, as against a quota of 25,000.

The 1928 fiscal year total was 27,093. The 2.2 per cent of the quota which was unused over the four year period was accounted for by persons who made all arrangements to come to this country but failed to do so for one reason or another.

In the calendar year 1928 the total was 23,352. Mr. MacWhite in using a total of 21,000 is believed to have referred to those who came direct from the Irish Free State during the calendar year, failing to include those coming from Canada and elsewhere.

Under the national origin system the quota of the Irish Free State would be reduced to 17,853, which would mean a decrease of more than 10,000 from the actual immigration of the last four fiscal years. Irish-Americans have been among the most active opponents of the new national origin system and there is no sign of any letup in their opposition.

KAISER SALUTES TIRPITZ ON 80TH BIRTHDAY TODAY
(Chicago Tribune Press Service.)
BERLIN, March 18.—Grand Admiral von Tirpitz will celebrate his eightieth birthday tomorrow with a spectacular reconciliation with his former war lord, the former kaiser—seventy year old dethroned exile.

They will communicate for the first time since 1918 when they quarreled over Tirpitz' unrestricted submarine war policy. The reconciliation was engineered through the former kaiser's brother, Prince Henry, Prince William, the crown prince's eldest son, will represent the Hohenzollern in the birthday celebration at Feldafing, Bavaria, Von Tirpitz' home, tomorrow.

The program for the reconciliation is all cut and dry. The former kaiser will wire warm congratulations expressing "admiration and thankfulness for the creator of the German navy," to which the admiral will reply with an expression of "deep appreciation of his majesty's kindness and assurance of his undying devotion to the German emperor."

Elaborate festivities began at Feldafing tonight. Hundreds of ex-officers, soldiers, sailors, former members of the imperial army and navy, and many national societies gathered to pay him homage.

SCIENTISTS DIG UP EVIDENCE OF NOAH'S DELUGE

Sumarian City Twice Razed by Floods.

The contention of fundamentalists that the deluge described in the Book of Genesis was an actuality and not a myth was upheld by new evidence obtained by the Field Museum-Oxford university expedition to Mesopotamia, according to a cablegram received yesterday by Stephen C. Simms, director of the museum.

Discoveries uncovered on the site of the ancient Sumarian city of Kish established the fact that the city was destroyed, not once but twice, by inundations similar to that recorded in the Old Testament. In the opinion of Prof. Stephen Langdon, director of the expedition, who sent the cable. The earlier of the two floods, archaeologists of the expedition estimate, occurred about 4000 B. C. The latter, in which the biblical account states Noah saved the human race from extinction, occurred some 600 years later, around 3400 B. C. After each catastrophe the city was rebuilt.

Original City Unearthed.

The three strata of the great mound under which Kish was buried contained the remains of the world's oldest civilization. Professor Langdon stated in his cable. At a depth of fifty-five feet workers have uncovered the original city. Professor Langdon is at present engaged in deciphering inscriptions on stone tablets found in this stratum, which, he believes, will throw further light on the culture of the Sumerians.

New Civilization Built.

The second city, built after the first flood, was discovered at a depth of forty-five feet, and contains evidences of a civilization which had reached an advanced stage of development when the city was swept again by the flood waters which, the Bible says, destroyed every living thing except the passengers on Noah's ark.

TAXI DRIVER ROBBED OF \$18.
Frank Higgins, a taxi driver living at the Y. M. C. A. hotel, 856 South Wabash avenue, was robbed of \$18 yesterday by a robber accompanied by a woman, who hired his cab at Wabash avenue and Adams street. At 226 South Fourth street the man held him up and fled with the woman.

for that COLD!

To stop a cold quickly and completely you must do four things all at once. You must (1) break up the cold (2) check the fever (3) open the bowels (4) tone the system. That is what HILL'S CASCARA-QUININE tablets do. That's why they stop a cold in twenty-four hours.

FERGUS ASKS U. S. HIGHEST COURT TO VOID ASSEMBLY

(Chicago Tribune Press Service.)

Washington, D. C., March 18.—(Special.)—John B. Fergus, veteran champion of Cook county's right to increased representation in the Illinois state legislature, carried his fight to the United States Supreme court today in a petition for review of the adverse decision of the Illinois Supreme court last December. The latter court, holding that neither the executive nor judicial branches of the state government could "coerce the legislature to perform its constitutional duty," affirmed a decree of the Sangamon County Circuit court refusing to enjoin the payment of the legislators' salaries until they ordered a reapportionment of the state.

Constitutional Question.

Fergus' petition, filed by Attorneys Ray Lane and Arthur D. Cloud, was grounded on the contention that the failure of legislatures to redistribute representation in the state assembly since 1901 has deprived citizens of Illinois, and of Cook county in particular, of the "republican representation" guaranteed them by the federal constitution as well as by the ordinance of 1787 and the state constitution of 1870.

Argument in Petition.

The petition reiterated the argument laid before the lower court that the "failure and refusal" to reapportion is "an usurpation of power" which renders the legislature itself illegal and its acts void until it has complied with the constitutional mandate.

The petition adds: "The finding of a court that the legislature, through its evasion of the constitution and by means of its frustration of the clearly expressed intent of the constitution, has inhibited its general capacity and can lawfully assemble only for the sole purpose of removing its self-imposed disability—that the assembly for any other purpose is void—would quickly restore the representative equilibrium of the state."

Jail Hotel Man for Contempt; Violates Writ

George Ford, clerk of the Newport hotel, 2347 West Madison street, was sentenced to sixty days in jail for contempt of court yesterday by Circuit Judge Harry M. Fisher. The police produced evidence that the hotel was being operated as a disorderly house under the protection of an injunction issued by the court. The injunction was issued a few weeks ago on a showing that the police mere molesting the management in the orderly conduct of a legal business.

Council Acts to Oust Auto "Guards" in Loop

Commissioner of Police Russell yesterday was directed to prohibit the activities of self-appointed "guards" of automobiles parked in the loop in a resolution introduced by Ald. Thomas J. Bowler (1st) and passed by the city council. The council also passed an ordinance making it unlawful for persons to act as guards without authority, and providing a fine of not less than \$25 for each offense.

HALT SAUNDERS MURDER TRIAL FOR MIND TEST

The trial of David Saunders for the murder of his sweetheart, Ruth Lewis, and his rival, Paul Shilling, on June 4, was continued yesterday before Judge Marcus Kavanagh pending a mental examination for the defendant. The assistant state's attorneys, when the case was called, told the court of Saunders having been severely wounded as a soldier in the world war and suggested that he may have been mentally unbalanced by his experiences.

Saunders was not apprehended until last September when he was found by Probate Judge Henry Horner lying in Grant park with seventeen bullet wounds in his body. He had been "taken for a ride." This "ride" has not been solved by the police.

Council Acts to Oust Auto "Guards" in Loop

Commissioner of Police Russell yesterday was directed to prohibit the activities of self-appointed "guards" of automobiles parked in the loop in a resolution introduced by Ald. Thomas J. Bowler (1st) and passed by the city council. The council also passed an ordinance making it unlawful for persons to act as guards without authority, and providing a fine of not less than \$25 for each offense.

Look Out Stomach Here She Comes!

And your stomach is looking out for decent treatment. If it doesn't get it, a rebellion starts that makes the most horrible kind of war.

ACIDINE is the great peace maker. It will soothe and soften the stiffest kind of a stomach rebellion day after day, year after year.

ACIDINE, the new discovery, banishes indigestion and its results—too much acid, sour stomach, gas, headache and colds. ACIDINE contains a powerful stomach food digestant combined with soothing anti-acids. This new discovery is absolutely perfect in action and results. Suffer no longer. Buy ACIDINE from your druggist now and get the kind of relief you have dreamed about, but never had, or write, Health Laboratories, Inc., Pittsburgh, Pa.

RADIO CIRCUIT

amazingly DIFFERENT
... a TRUE SPARTON
EQUASONNE

ONLY \$189.50
COMPLETE WITH TUBES

NEW SPARTON
EQUASONNE
MODEL 930

A CIRCUIT that "does things" never done before... acclaimed by experts the greatest radio development since AC operation! Reception with that mellow, full smoothness that earned for Sparton its universal recognition as "Radio's Richest Voice"! Craftsmanship of the finest; eight tubes; dynamic speaker; two power tubes in push-pull; all-electric operation...! Here, at a price that is astoundingly low, is a Sparton EQUASONNE that is making radio history.

Its circuit is the revolutionary EQUASONNE circuit that gives you complete mastery of the entire dial... the lower end as well as the upper. It has the famous wave band filter that filters out static and interference before amplification, giving a velvety smoothness hitherto found only in higher priced Spartons. It has the amazing quality of receiving the overtones as well as the fundamentals of music... with the thrilling fullness of the musical instruments themselves.

The new Sparton Model 930 is the instrument you have hoped and planned to own some day. It brings "Radio's Richest Voice" within the means of all. Hear it... try it... and the first thrilling notes will be a revelation. Call on your nearest Sparton dealer SOON.

"Radio's Richest Voice"

Among women in business— an old hygienic problem solved a new way

Assurance, comfort, poise, fine grooming are made possible for the business woman, at all times... because of this new kind of sanitary protection.

SOME women actually feel that a business career would not have been possible without the remarkable discovery named Kotex. This scientific sanitary protection makes possible for women a freedom, an active life never before possible.

In these ways, Kotex answers a vital need: the marvelous filler, Cellucotton absorbent wadding, takes up 16 times its own weight in moisture. Ease of disposability means much, not only in emergency situations but at all times. Kotex is disposed of like tissue... as directions in each box explain. And there are certain new perfections which distinguish this as the superior sanitary napkin.

Kotex deodorizes safely, instantly a process has been discovered

whereby each pad deodorizes completely and safely. This formula is considered so important that it has been patented by the Kotex Company. It is, of course, to be found in no other sanitary pad.

No evidence of sanitary protection.

Because corners of the pad are rounded and tapered all conspicuous bulkiness has been eliminated. Snug, secure fit is assured.

Cellucotton absorbent wadding comes in layers, which can be adjusted to one's individual need. That is a unique advantage which women always find comforting. Then, too, there is an easy softness about both gauze and filler. Manufacturing refinements keep adding to your comfort.

Use Super-size Kotex Formerly 90c—now 65c

Super-size Kotex differs from Regular Kotex only in giving the extra protection of additional layers of Cellucotton absorbent wadding. The advantages in using it in connection with the Regular are thus obvious. Disposable the same way. Doctors and nurses consider it indispensable where extra protection is needed. At the new low price, you can easily afford to buy one box of Super-size to every three of Kotex Regular. 10 extra layers of filler mean much in added comfort and security.

Buy a box of Kotex today. It is 45c for a box of 12 at any drug, dry goods or department store; also obtainable through vending cabinets in restaurants by West Disinfecting Co.

CAPONE TO FACE U. S. JURY, BUT HE FEARS CITY COPS

Also He Wants Immunity
on Federal Charge.

Alphonse Capone is scheduled to ap-
pear before the federal grand jury to-
morrow morning to answer questions
about booze and gangs in Chicago.
There was a rumor in the underworld
last night that Capone had arrived in
Chicago, having made the trip from
his Miami estate by automobile. Other
reports were that he was on his way.
Just what will happen when Capone
appears before the jury is problemat-
ical.
At the Federal building it was said
the gangster might be kept holding
his hat in an ante-room for several
days, perhaps a week, before he will
be called into the grand jury room.
The time limit on Capone's subpoena
expires tomorrow, but officials say he
may be forced to wait until testimony
in other cases can be heard. Several
Jones law violations and mail rob-
beries have preference over the mat-
ters on which Mr. Capone is supposed
to have knowledge.
When Mr. Capone is summoned for
questioning there promises to be a

hub-bub unless the gang leader is
granted immunity from prosecution
for what he tells. His attorneys were
firm on that point yesterday. Further
they demanded that, since their client
is a federal witness, the government
must protect him from any efforts of
the police to cart him off to the detec-
tive bureau for a quizzing on the
Moran massacre.
"The government called Capone
from his legal residence in Florida to
appear before the grand jury," said
Attorneys William F. Waugh and Ben-
jamin Epstein, "and it will have to
give him its protection until he is
safely at home again. Also, Capone
will not sign an immunity waiver and
won't answer questions at all unless
they assure him he won't be indicted
for what he says."
Assistant United States District At-
torney Daniel Anderson, who will ques-
tion Capone, was noncommittal about
the immunity waiver, but firm on the
point of government protection.

It's Up to Mr. Capone.
"If that fellow wants protection
against the police from us he'll have
to go into court and prove he is en-
titled to it," Anderson said. "Our con-
nection with him ends as soon as we
are through with him. I don't know
about that immunity waiver. It will
be time enough to decide when he
demands it."
Epstein and Waugh said they would
be outside the grand jury room while
Al is inside, prepared to go before
some federal judge with a writ of
habeas corpus in case the police seize
him when he comes out. "We have
plenty of legal substantiation for our
claims," they said.
Attorney Waugh said Capone had
assured him that he would appear at
the federal building at the time set
in his subpoena, but he had not in-
formed his lawyers just how he would
make the trip or when he would ar-
rive in Chicago.

Shoe Repairers See Latest Models at Exposition Here

(Picture on back page.)

Electric shoe shiners, celluloid heels
for millady's shoes of any color and
pattern she may desire and the latest
models of shoe repair equipment were
among the exhibits yesterday at the
opening of the second annual shoe
repairers' and dealers exposition in
the Hotel Sherman. Colored leathers
were much in evidence and one nov-
elty was an adjustable shoe tree in

pastel shades fashioned to fit the
width of any shoe. Several hundred
shoe repairers and jobbers from all
parts of the middle west are attend-
ing the conference.

Greece Gives Jugo-Slavia Port Rights at Saloniki

GENEVA, March 18.—(AP)—The
league of nations is interested in the
signature here yesterday of a series of
protocols which give Jugo-Slavia the
right to use the Greek port of Sa-
loniki for Jugo-Slavian merchandise.

The Most Important Thing in the World

WHY is it that certain
American concerns have outrun all the
rest? What is their secret? Col. Leonard
P. Ayres* has found it. Analyzing the
lessons of the years during and just after
the war, he says:

"During these years a few American
firms learned that the most important thing
in the world is time. They learned the
secret of mass production, which is that
all parts entering into the manufactured
article should be kept moving without loss
of time . . . until the finished product
comes off the assembly line.

"They learned that goods in stock rep-
resent labor's time that has been paid for,
but is now idle. . . They learned hard to
mouth buying. They learned that the
firm that intelligently strives to use all
of its equipment, all its labor and all its
capital, all the time, can make profits un-
dreamed of in earlier years."

Industry, following these leaders, has
perfected its production methods. They
have eliminated from manufacture waste
of time, waste of material, waste of
motion. But still only the leaders have
learned to distribute their goods with-
out waste. At this moment, millions of
dollars, millions of hours, are tied up in

reserve stocks at factories, and in goods
lolling aboard long-haul freights.

Some of America's industrialists have
recognized the urgent need for branch
offices, warehouses and factories—spotted
strategically in major markets to elimi-
nate this tremendous loss. More than a
thousand of them, wanting the great
new volume of the now rich South, have
chosen Atlanta as the ideal location for
these branches.

Transportation facilities and vital pro-
duction economies governed this choice.
Atlanta is Distribution City to the South.
By rail, by road, by air, men and mer-
chandise may be routed most
effectively over the territory
from Atlanta.

The Atlanta Industrial
Area offers production
savings that range from 5%
to more than 15%. Efficient,
willing, interested, Anglo-
Saxon labor avoids time and
money-wasting interrup-
tions to production, increases

output-per-man. Raw materials come
from close by, quickly and at low prices.
Taxes are low. Power rates compare
with the lowest in America. Buildings
cost 20% to 35% less. Even the climate
contributes to economy of operation.

Thus Atlanta very definitely offers an
opportunity for economy in time and
money to concerns in practically every
type of industry. A branch here should
enable you to get full volume from a
territory whose purchasing power has
trebled during the past decade, and to
produce your goods at savings that mean
better profit on every unit.

Send for
this Booklet!
It contains the funda-
mental facts about
Atlanta as a location
for your Southern
branch.

Without charge or obli-
gation, and in the strictest
confidence, the Atlanta In-
dustrial Bureau will make a
first-hand survey of condi-
tions here as they affect
your business, reporting to
you in full detail and with-
out bias. Write

REACHING MORE PROSPECTS IN
CHICAGO AND SUBURBS THAN
ANY OTHER PAPER

**THE TRIBUNE
CAN RENT
YOUR APARTMENT**

without aid from any other medium!

EVERY day, in Chicago and
suburbs, the Tribune
reaches 655,000 families—
123,000 more than any other
paper. On Sunday it reaches
773,000 families—237,000
more than the other Sunday
newspaper. Included in these
vast armies of Tribune readers
is practically every one with
money enough to be a worth
while prospect for your apart-
ments.

With the Tribune reaching
almost every prospect in Chi-
cago and suburbs, there's no
need to experiment with

smaller circulations in renting
your apartment. The Tribune
can do the job alone! And
because their results had
proved this, the owners and
agents of Chicago last year
placed 81% more "Apart-
ments to Rent" advertising in
the Tribune than in all other
Chicago papers combined!

When circulation and facts
alike pronounce the Tribune
best, there's no reason for
you to hesitate. Daily and
Sunday, the Tribune can do
the job alone! Let Tribune
Want Ads fill your vacancies
for you this year!

ONE OF THE GREATEST OF METROPOLITAN MARKETS

YET SIMPLIFIED IN ADVERTISING COVERAGE

America's Third Largest Market

Almost within the shadow of William Penn, on Philadelphia's City Hall, there are 53,173 places where goods are sold, 6,693 where things are made, and with others a total of 67,243 business places (Figures compiled by City Statistician). In city and suburbs there are 600,000 homes. The net paid daily average sale of The Bulletin is 546,373 copies.

Circulation That is All-Inclusive

Out Old York Road, along the Main Line, and in other wealthy suburban districts, The Bulletin is the newspaper read in nearly every home. The circulation of The Bulletin in city and suburbs exceeds that of all morning newspapers combined. Nearly every home in America's third largest market reached at low cost by one newspaper.

SIX hundred thousand homes, of as prosperous a people as exist on the earth, are within the retail trading area of the metropolitan city of Philadelphia.

This market, one of the greatest in extent and wealth—

Is simplified as a proposition for the advertiser, due to its virtually complete coverage by one newspaper.

The Evening Bulletin, with a daily sale of more than five hundred thousand copies, is read in nearly every home!

Philadelphia is a market for fine products. It is the habit of the people to discriminate.

The Bulletin is planned for Philadelphia: A fine newspaper product . . . consistently made for this discriminating people!

It reflects their characteristics in tone, conservatism, dependability.

Its growth, like that of Philadelphia, has been constant, solid, substantial.

Its circulation is by far the largest in its territory, one of the greatest in America.

It is a spectacular situation—because *nothing* spectacular, in methods of getting circulation, has ever been used by The Evening Bulletin.

No sensational writing; no shock headlines and pictures.

No prizes, premiums, coupons, contests.

Nothing artificial to secure circulation!

But circulation built sanely, surely, permanently! In city and suburbs; in mansion and modest home. *Circulation built on the confidence of a whole people!*

This means, for the advertiser today, one newspaper and one advertising cost, (and a low cost), in America's third largest market!

It means a sales potential that is great; an advertising investment that is comparatively small: An opportunity that is unequalled in any other market, as your own analysis will prove.

TWO FINED \$100 FOR VIOLATING NEW SMOKE LAW

Maybe the smoke will go up the chimney just the same, but probably not in such quantities, because four Chicago concerns were cited yesterday before Municipal Judge Alfred O. Erickson, and two of them were fined \$100 and costs for violating the new city smoke ordinance. Those fined were the Torch Laundry company at 5107 Lake Park avenue, and the Harris Brothers company, 1349 West 35th street.

In the case of the Harris company, the fine was assessed by default, no one qualified to represent the firm being in court. City Prosecutor Frank Jeska produced witnesses who said they had watched dense smoke roll-

ing from the company's plant chimney at frequent intervals.

Company Gets Continuance.

Prosecutor Jeska agreed to a week's continuance in the case of the Illinois Lead company of 508 South Kolmar avenue, when an official of the concern said he could obtain witnesses to disprove the charges of the investigators, who are working under Chief Smoke Inspector F. A. Chambers.

Judge Erickson issued a warrant for James O. Lee, secretary of the Stratford Manor Building corporation, 529 Stratford place, when he failed to appear in court to answer a similar charge of violating the ordinance.

Defense Is Rejected.

Louis Torch of the Torch Laundry company attempted to evade the fine by declaring that his regular engineer was not on duty at the time the violations were observed, and on the plea that he has new equipment almost ready to be installed. But when told that the concern had repeatedly been warned and had done nothing about it, Judge Erickson imposed the fine.

ENDS LIFE WITH GAS.

Henry Allen, 33 years old, was found dead yesterday in his room at 1429 West Monroe street. A rubber tube in his mouth was connected to an open gas jet.

KAISER'S SISTER RUINED, BUT STILL LOVES HER HUBBY

[Chicago Tribune Press Service.]

BERLIN, March 18.—Who said princesses are more tickle than other mere mortals?

"Whoever it be, he is thoroughly misinformed," says Frau Soukoff, nee Princess Victoria Hohenzollern, sister of the former kaiser. Her 30 year old spouse, Alexander Soukoff, a confessed gambler, is fast galivanting from adventure to adventure, but the princess still loves him.

"At bottom he is good, the princess says. "I know. He is reckless be-

cause he is young. He is too generous, that is his curse."

It was revealed today that the princess entrusted her jewelry to one of her husband's friends, a self termed lawyer, Nathan Ivanoff, and that Ivanoff not only absconded with all the ready cash in the bank to the credit of the princess, but also with her jewelry. The safes were all found empty, but the princess, who knows nothing about business, faithfully trusts her adventuring Russian husband and his adventuring friends.

\$2 EACH FOR TWO ARRESTS.

Fred Kennedy, 31 years old, 19 West Superior street, whom police arrested twice within twenty minutes early yesterday, was arraigned before Judge Joseph L. McCarthy in Chicago avenue court and fined \$5 on each of two charges of disorderly conduct.

Fluctuating temperatures make you appreciate a WILLIAMS OIL BURNER

NO matter how the early spring thermometer varies, your home is always "just right"—snug, warm, comfortable, but not too warm—if you own a Williams oil burner.

Williams Dist-O-Matic—built for small homes and priced for modest incomes—has a reliable thermostat control. Dist-O-Matic gives heat when it is needed—never wastes its economy fuel—maintains the exact healthful warmth you desire all the time and does it without attention.

You can hardly hear it run—dependable. That's Williams Dist-O-Matic and you may buy it "on time" if you desire. Call or phone today—let us analyze your heating problems.

Summer is wonderful... in Southern California

Read how you may come out on a two or three week's rainless vacation, cover an immense wonderland at minimum cost and be home "on the dot."

VACATIONISTS may take a novel, fascinating two or three weeks' trip to Southern California this summer and be back home on the set day. Low summer fares May 15 until Oct. 31. Speeding through the romantic, historic West is alone worth this attractive vacation. Chicago, St. Louis, Omaha and Kansas City, from which transcontinental trains depart, are within easy distance of many Eastern points.

Summer days in Southern California are enjoyable—and almost invariably rainless. Humidity is rarely even apparent. Nights are cool; you'll need light wraps.

This brief itinerary details a few things you may see and do in Southern California in only one week!

FIRST DAY—San Gabriel Mission, Huntington Library, Mulholland mountain drive, shore line drive. Ocean bathing—Overnight, Mt. Lowe.

SECOND DAY—Hollywood, Beverly Hills, Santa Monica. Night—Hollywood Bowl Symphony.

THIRD DAY—Orange Empire trip, Riverside, San Bernardino, Redlands. Night—Theatre, Hollywood.

FOURTH DAY—Ocean sail to Catalina Island for overnight.

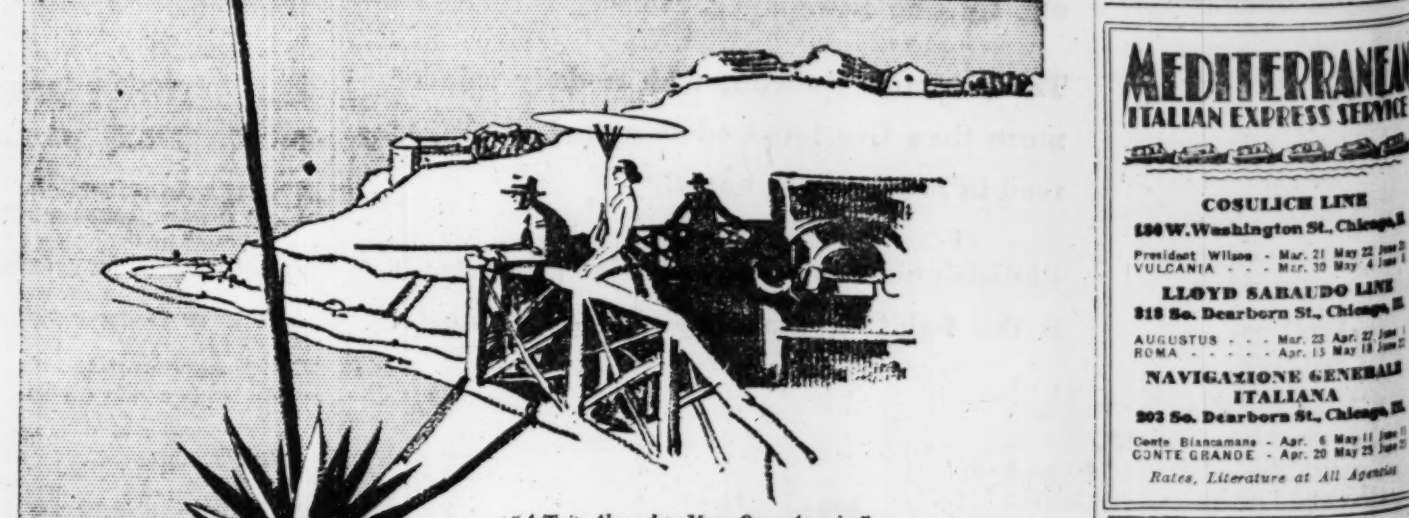

FIFTH DAY—Old Pasadena. The Juarez and Agua Caliente via ocean boulevard. San Diego overnight.

SIXTH DAY—San Diego, San Juan Capistrano Mission, Swain at Laguna. Night—Palm Springs Play, Hollywood.

SEVENTH DAY—Santa Barbara. Swim at Montecito. Santa Barbara Mission. Old Valley. Night—drive Hollywood hills for view of Los Angeles illuminated.

Send the coupon at once for a special one-two-three-four-weeks itinerary in Southern California this summer. We'll return it by air mail, at your request. It will show exactly what you can see and do here in specified time. Also request the valuable new free vacation book "Southern California through the Camera"—73 large pictures in gravure. Mail the coupon now.

Sorry! I've got a "date"

You would have thought that Marian played a saxophone, or had read one of those books on How To Be Popular, to hear her telephone ringing. And yet the explanation of what kept her "dated up" was simple.

Right at the height of the winter social season, most of the girls in her set were ill at home, down with sniffles, red noses, and stopped-up heads. But not Marian. She had found an old and trusted remedy: GROVE'S BROMO QUININE.

Whenever she got her feet wet, or felt chilly or vaguely ill, out came the little white box of tiny tablets. The laxative benefits though mild, were quick. The tonic effects though stronger, were equally quick. So she knocked the cold before it really got started. Or threw it off quickly. ... Make sure of the right prescription by emphasizing GROVE'S, when asking for GROVE'S BROMO QUININE. Price 30c.

Cut out this
Puzzle—Solve
it and name the
Movie Star!

You Can Start TODAY!

WHY NOT SHARE in this big prize money? Start today. Join with others who are enjoying the Tribune's new wrinkle in Crossword Puzzles—puzzles in which the name of a Movie Star appears. Identify the picture—name the star—and you have already partially solved each puzzle. The rest is easy. Just the regular Crossword Puzzle—no tricks—no misleading definitions.

A new Puzzle each day—42 in all. \$5,000.00 in cash prizes will be paid for best answers! A snap—isn't it? Start with Puzzles No. 1 and 2 printed here. Then get Puzzle No. 3 in tomorrow's Tribune.

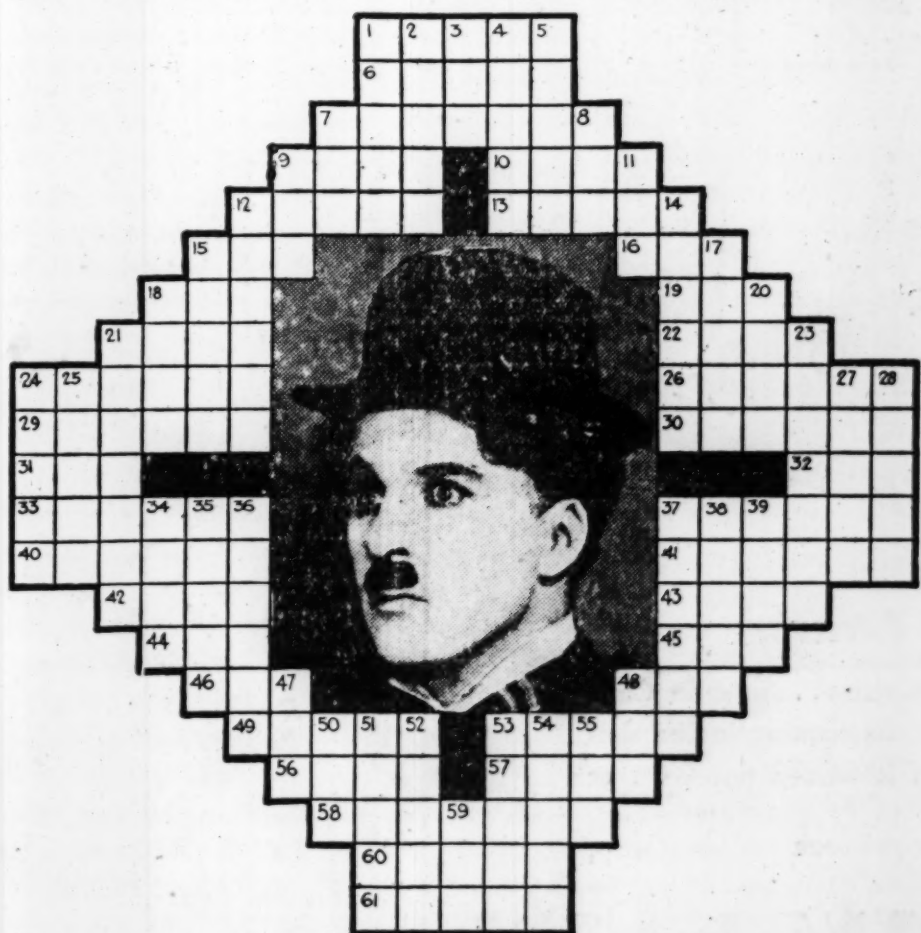

Just Follow These Simple Rules:

1. Every week-day for 42 consecutive days (not including Sundays) the Chicago Daily Tribune will print a Movie Star Crossword Puzzle. Each puzzle will contain the name of the Movie Star whose picture appears in it. You are invited to solve the puzzles and name the stars.
2. The Chicago Tribune will pay \$5,000.00 in Cash Prizes to the persons who send in the nearest correctly solved complete sets of puzzles in accordance with these rules. Note: This means that you do not necessarily have to solve each of the 42 puzzles completely to win. The prizes will be paid to the persons whose entries rank highest.
3. The prizes are as follows:

1st Prize	\$1,000.00
2nd Prize	500.00
3rd Prize	250.00
Next 2 Prizes	\$100.00 each
Next 5 Prizes	50.00 each
Next 10 Prizes	25.00 each
Next 100 Prizes	10.00 each
Next 310 Prizes	5.00 each
430 Prizes Totaling	\$5,000.00
4. This offer is open to everyone—men, women, boys and girls—except employees of the Chicago Tribune and their families. You pay nothing. Just prove your skill.
5. Puzzles are to be submitted only in complete sets. Do NOT send in each puzzle separately. Hold all puzzles until you have the complete set of 42. Then send them to "Crosswords," Chicago Tribune, Post Office Box 1539, Chicago, Illinois. All entries must be in by midnight, 15 days after Puzzle No. 42 has been printed.
6. Each entry must be sent by First Class Mail, postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. With each entry a letter must be sent giving your name and address and telling in 50 words or less which of the 42 Movie Stars you like best and why. Contestants may submit as many sets of puzzles as they wish, but no contestant will be entitled to more than one prize.
7. You need not buy the Chicago Tribune. You may copy or trace the puzzles and send them in. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.
8. The judges will be appointed by the Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

Here is Puzzle
No. 1 re-printed
from Yesterday's
Tribune.

NO. 1. CHICAGO TRIBUNE MOVIE STAR CROSSWORD PUZZLE

The Name of the Movie Star
in this Puzzle is

(Write Name of Star Here)

HORIZONTAL

1. Boxes, as a pugilist.
2. Helmsman.
3. A likeness.
4. To close and open the eye quickly.
5. Sour.
6. Liberator.
7. Small shoot or twig.
8. To cook in a skillet.
9. Soft drink.
10. Southern resort state (abbr.).
11. Belonging to us.
12. To stuff.
13. Minority group formed to promote special interests.
14. To avoid.
15. Coated, as with gold or silver.

Wright for Miller in fourth. Batted for
Wright in ninth.

Two out when winning run scored.

Los Angeles, Cal., March 18.—(Pro-

duction of runs in wholesale lots again

was the order of business at Wrigley

field this afternoon. Unfortunately,

the Cub mill was running a great deal

slower than the Angels' after the

game reached the half way point,

which is a kind of saying the

Chicagoans were a pretty sour ball

club. The score was: Angels, 12;

Cubs, 11.

All of the seven runs made off

Eddie Lautenbacher, starting pitcher,

during his five inning stay were the

result of home runs. The first three

runs were homers; then the program

varied. Two men were walked and

they scored on a homer, which was

followed by another homer. In both

the second and fifth innings Schu-

limerich and Jacobs made successive

homers.

Bush, who took over the job in the

sixth, was a pushover all the way

during his four innings and was re-

sponsible for the trimming the Cubs

took in the later stages of the game.

Same Kind of a Record!

Today's game was the sixth of the

Cubs-Angels set. To date the series

has seen the scoring of no fewer

than 115 runs, 73 by the Cubs and 52

by the Angels. Tomorrow the two

clubs, each of which has won three

games, wind up their 1929 competi-

tion.

The Cubs pushed off with a run in

the first inning by virtue of a walk

to Beck, a double by McMillan, and a

single by Cuyler, but the advantage

lasted only one inning.

In the Angels' half of the second

inning Schulerich led off by plunk-

ing the ball over the left wall and Ja-

cobs followed with another almost in

the same spot. After Duvall filed off

Beck booted Warren's effort. Miller

struck to right, but Lautenbacher

struck to right, but Lautenbacher

THE GUMPS—DELIRIUM

MAKES POTTERY AND FIGHTS

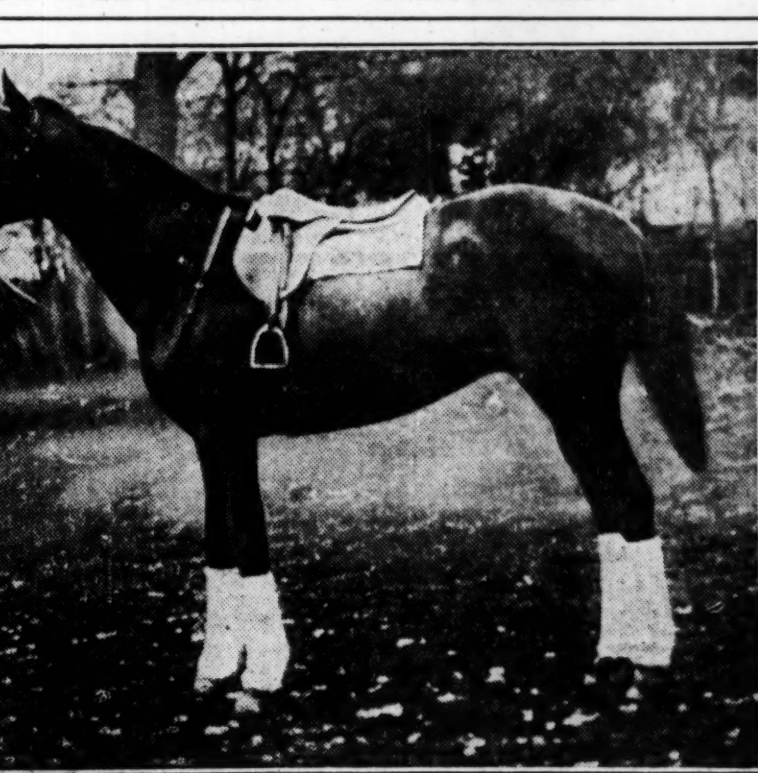

Nick Fosco, runner up in The Tribune's Golden Gloves tournament in the 147 pounds division and a member of the Chicago team which invades New York next week, at work at Hull house, where he keeps in shape by making pottery.

'HOPE HE'S GOOD,'
IS ROSS' REMARK
ABOUT McGRILL

Johnny Ross, winner of the middleweight title in THE TRIBUNE's Golden Gloves amateur tourney, who will meet "Knockout" Freddy McGrill in the intercity matches with New York in Madison Square Garden one week from tomorrow night, isn't worried by reports of McGrill's prowess.

ON EDGE FOR FIRST ENGLISH TEST

Reigh Count, the American turf champion, in his training quarters at Newmarket, England. At his head is Jimmy Allen, the Chicago colt's groom, the lad who rescued the thoroughbred from a stable fire at the Hertz farm near Cary, Ill., last fall.

Carey Named
President of
Garden Board

New York, March 18.—(AP)—Richard F. Hoyt, chairman of the board of directors of Madison Square Garden, announced tonight that William F. Carey would be officially named head of the garden at a meeting of the board tomorrow. The announcement was made at a banquet given to Carey by New York newspapers.

Carey is to become president of the corporation, a position he has held to all intents and purposes, but not officially, since the death of Tex Rickard.

The announcement came as a complete surprise to the newspapermen. They had given the dinner as a mark of appreciation for the way they had been treated at Miami Beach where the recent Sharkey-Stribling heavy-weight match was held.

Hoyt was called on to say a few words at the banquet. He said that Carey's doggedness and persistency along business lines, he declared that all of the directors of the Garden corporation felt that Carey was necessary to the board and the man best qualified to succeed Rickard.

Carey has been trying to decide for some time whether he could spare several months from his own business to take care of the Garden's business. Pressure from his fellow directors apparently has led him to the conclusion that he can.

Carey is the contractor who built the Garden and at the death of Rickard he stepped in to fill the late promoter's shoes.

New York's Team
of Golden Gloves
Gets Expert Help

BY PAUL GALICO.
New York, March 18.—(Special.)—One thing is sure—the New York City Golden Gloves team will not want for skilled help in preparing them for the forthcoming battles with the Chicago team in Madison Square Garden Wednesday night, March 27.

It has become a matter of civic pride to members of the boxing profession to have New York come out on top. Volunteer sparring partners are reporting willing and eager to work with our boys and teach them what they can or give them the benefit of their experience.

First of these to volunteer was Little Izzy Schwartz, the flyweight with the great left hand. He will put on the gloves and act as sparring partner to Little Ray Ryan and Jimmy Sicari and Bellantoni during the gymnasium sessions, and teach them the little tricks of the game that he has picked up in his years of fighting.

Another great star of the game who has signified his willingness to lend his services is Al Singer, the new and rising star on the featherweight box. Al, fresh from a dramatic triumph over Bud Taylor in the Garden, where he proved not alone great skill but a great heart, will work with Al Santora and Young Quinn, our featherweights, which will be a fine thing for us, as the style of Barney Ross, the crack Chicago featherweight, has agreed to work out with our 175 pounders, and also has agreed to keep his punch leashed as we are not at all desirous of having him put our young men in the right hand that laid Jimmy Slattery low recently.

Philadelphia Jack O'Brien, one of the greatest teachers of boxing living, will be present at the workouts and will give his advice and experience when sought. Many a boy might be making small mistakes, hand-capping himself and which would be apparent immediately to the experienced eye of O'Brien.

Other eager old timers who will be around to help will be Johnny Marto, Young Otto, Panama Joe Gans, the clever Negro star who has retired from active service, and many others.

Tomorrow night the Golden Gloves team goes into training quarters at the Hotel Alamac, with an informal banquet there, and tomorrow the serious training begins. Tomorrow night the team will attend the intercity bouts in the Garden, involving Pittsburgh, New York, and Boston, in a body, to cheer their teammate, Pete Caesar, who is boxing. They will be introduced from the ring.

Reigh Count
Makes First
Start April 6

[Chicago Tribune Press Service.]
LONDON, March 18.—B. S. Mitchell, trainer of the American champion Reigh Count, announced today he had decided to start the horse in England to the post for the first time in England on April 6. Reigh Count will run in the Lingfield spring stakes on that date at the Lingfield track near London.

The race is at a mile over a straightaway course. It probably will be the only event at that distance for Reigh Count in this country, the trainer indicated.

"Reigh Count is far advanced and barring mishap will be in condition to give a good account of himself in the Lingfield," Mitchell said.

The American champion has been quick to adapt himself to English turf conditions. Those who have observed him at work say the hardest job he found was to learn to run down hill in full stride.

"For the first couple of weeks Reigh Count shortened his stride going down a decline," one of them said. "Since then he has been taking the hills just as easily as his English training mates."

Mr. and Mrs. John D. Hertz have returned to Chicago from their winter home at Miami Beach. They will sail from New York on Monday for England and will be at Lingfield to see Reigh Count run his first English race. They plan to remain in England until after the running of the Ascot Cup on June 20. A large party of their Chicago friends also will reach England in time to see the race at Ascot.

HOCKEY TEAMS
START PLAY-OFF
FOR STANLEY CUP

New York, March 18.—(AP)—The first steps in the final campaign to determine the world's professional hockey championship will be taken in three widely separated sectors tomorrow night.

At Boston, Les Canadiens de Montreal, speediest aggregation in the league, begin a five game series with the rugged and tough Boston Bruins.

At New York, the New York Rangers, runners-up to Boston in the American group, begin a two game, total goals to count, series at Madison Square Garden against their metropolitan rivals, the New York Rangers, runners-up to Boston in the American group. At Detroit, Toronto and Detroit, third place finishers in the international and American sections, begin a similar series.

The winners of the New York and Detroit series will then battle it out in a three game play-off series for the right to meet the survivor of the Boston-Les Canadiens duel.

150,000 TO SEE
RUNNING OF THE
GRAND NATIONAL

LIVERPOOL, March 18.—(AP)—Daily increasing interest in the Grand National race on Friday was attested today by preparations for huge crowds of spectators, including a large American contingent. It was estimated that the race would be watched by at least 150,000 and it became increasingly difficult to find hotel and other accommodation.

American entries, as last year, provide prime interest for two American horses, Billy Barton and Easter Hero, are favorites.

Fort Wayne Cagers Hand
Brooklyn 30-29 Beating
Fort Wayne assured itself of at least a tie for the championship of the second half of the American Basketball league by winning from Brooklyn here tonight, 30 to 29. Rochester meets Fort Wayne in the final game.

Hanley and Keller	547 8 21

Leader—Petri

The German-American team of Otto Petri and Norman Hill, which led the six day bike race at the Coliseum at midnight Sunday, only to lose it to Debaets and Beckman later on, went back into the lead at midnight. This combination, however, is tied in mileage by the French team of Alfred Le Tourneur and Alphonse Brocard. The German-American team, however, led the race by scoring 56 points in the series of sprints against 30 for the French combination.

Debaets and Beckman, who led the race until the jamming started, are in third place, two laps back of the leaders. Grimm and Lands are fourth, but have not scored as many points as the Belgian-American team. The field is now divided into seven divisions, with Horder and Rodak and Kockler and Markner tied in mileage for last place.

As a result of a bad spill early this morning, Armand Blanchonet, the crack French rider of the team of Blanchonet and Cugnot, was forced to retire from the grind. He went down in a spill along with Franco Georgetti, Alphonse Zuehlke, and Mike Rodak. Blanchonet was badly injured about the head, and the track doctor advised him to retire from the race.

Ninety-seven Laps Stolen.
Another crowd saw some of the fastest sustained riding ever presented on a local track. The jamming started shortly after midnight, and for nearly four hours the riders rushed around the track at a dizzy pace. There were several spills. Up to midnight 97 laps had been stolen. If the riders continue to jam, the record of 503 stolen laps for a six day bike race may be broken.

The wild riding started shortly after 8 o'clock and continued until long the sprints had to be delayed nearly an hour. The jamming was stopped only by a series of spills. Each combination took turns starting jams which lasted at times for one hour. Referee Frank Kramer said it was one of the wildest nights of jamming he had seen in his thirty years' connection with the bike game.

The Tourner Falls Twice.
Laps were gained and lost in every jam. The crowd booed faulty pick-ups and rough riding. Harris Horder, the Australian, Hy Kockler, the French team of Le Tourneur and Brocard, were in all jams and in one of them gained two laps on the field. Le Tourneur had two bad falls but they didn't affect his riding.

Georgetti and Ducloux gained several laps on the field. When they left the pack they generally carried two or three combinations with them. The riding of Petri and Hill, however, featured the night's riding. Kockler pedaled away from the field at the end of the sixth sprint and the jamming continued until nearly midnight.

When the field of riders started to slow down near midnight, Georgetti cut loose and gained a lap almost alone. His partner, Ducloux, caught the field for one of the cleanest stolen laps of the race. Debaets and Beckman, considered one of the strongest teams in the race, kept up with the leaders, while Stockholm and Winter held their own most of the time. Spencer and Walthour rode better than the night before and should finish well up in the race, which will close with an hour's sprinting from 10 to 11 o'clock Saturday night.

Rodak Knocked Unconscious.
There were several bad spills. The most severe took place on the back stretch when McNamara, Kockler, and Hanley fell. As Kockler slid along the boards one of his pedals struck Hanley over the right eye. Two stitches had to be taken in the wound. Willie came back on the track shortly afterward.

On another occasion, Le Tourneur and Rodak hooked handlebars on a south turn and went to the boards. Rodak was unconscious and carried to his bunk. The Frenchman was stunned. Both came back later. Beckman blew a tire on the south turn and slid to the flat. Luckily there was no rider behind him.

Other falls were avoided by clever work on the part of the riders.

Emmett Pare Retains
Indoor Tennis Title

Cincinnati, O., March 18.—(AP)—Emmett Pare of Chicago retained his western indoor tennis title tonight when he defeated Ted Egman of St. Louis in straight sets, 11-9, 6-3, 6-4.

Waner and Pirates Agree on Terms for Season

San Francisco, Cal., March 18.—(Special.)—Lloyd Waner has come to an agreement with the Pittsburgh Pirates, the management of the club announced today. Waner is on his way to San Francisco from Ada, Okla., to sign the contract for the coming season. It was announced that the terms were not disclosed.

Sam Dreyer, treasurer of the Pittsburgh Pirates, who made the announcement, said that the club and the young outfielder were fully agreed. Waner, 26, is an old outfielder who has been given a salary of \$10,000 a year. This is the first time he has been asked, but more than he first offered him.

Waner said that no word had been received from Paul Waner, older brother and outfielding star of the team. There were strong rumors, however, that Paul would return to the team next season. It was reported that Paul is asking a salary between \$18,000 and \$20,000.

BOSS CRACKS UP AFTER RAIN PLAYS WORKOUT

San Francisco, Cal., March 18.—(Special.)—The rain showers and a frowning sky did not dampen the spirit of the White Sox manager, who today cracked up after a rain workout. The manager, who is on his way to San Francisco from Ada, Okla., to sign the contract for the coming season, it was announced that the terms were not disclosed.

The manager, who is on his way to San Francisco from Ada, Okla., to sign the contract for the coming season, it was announced that the terms were not disclosed.

Sam Dreyer, treasurer of the Pittsburgh Pirates, who made the announcement, said that the club and the young outfielder were fully agreed. Waner, 26, is an old outfielder who has been given a salary of \$10,000 a year. This is the first time he has been asked, but more than he first offered him.

Waner said that no word had been received from Paul Waner, older brother and outfielding star of the team. There were strong rumors, however, that Paul would return to the team next season. It was reported that Paul is asking a salary between \$18,000 and \$20,000.

600 ROOMS 600 BATHS

San Francisco, Cal., March 18.—(Special.)—The rain showers and a frowning sky did not dampen the spirit of the White Sox manager, who today cracked up after a rain workout. The manager, who is on his way to San Francisco from Ada, Okla., to sign the contract for the coming season, it was announced that the terms were not disclosed.

Babe and Yanks to Be More Powerful Than Last Season

This is the fourth of a series of articles by Mr. Vaughan on major league ball clubs and their pennant chances. Mr. Vaughan, who is giving Tribune readers a comprehensive idea of the forthcoming race, today sizes up the New York Yankees.

BY IRVING VAUGHAN.
(Chicago Tribune Press Service.)
St. Petersburg, Fla., March 18.—It is customary in the spring to broadcast that the Yankees, whose deeds speak for themselves, are at the end of their reign. It also is customary for the Yankees, a few months later, to come through with a sufficient proof that the experts who underestimate them are guilty of whistling through the derby.

This spring nobody is willing to intimate that the Yankees are disintegrating. Manager Miller Huggins, who is given to worry, admits he has in prospect the strongest of all Yankee teams. His crimpies have come back, those who weren't crimpies last fall are just as sound as ever, and the squad has been strengthened so well that it seems reasonable to suspect the present world's champions are going to be the same shining, relentless fighters they have been in recent campaigns.

One thing bothers Huggins, and that is that the veterans may lose their zest for pennant triumphs. As long as that world's series pot hangs out in front there need be no concern about such a detail.

A Few "Its"

It might safely be said by any one who hasn't been around soaking up the enthusiasm in the Yankee camp that the team could not possibly be a certainty until certain things have been proved. In other words, a few "ifs" might easily be conjured up. Here are a few:

If Ruth should break down physically or tire of the glamour of the thing, he gives no sign of falling apart, and, as for time, it should be remembered he will be playing all season with a new contract in the offing.

If Herb Pennock should fail to come back after being laid out last fall by neuritis in his left shoulder. The ailment has disappeared and Pennock is again the poetry of motion when he pitches. Of course, there might be a recurrence if he overworks.

If Lazzeri, who had a bad arm in the last world's series, should have to rest over a long period. Thus far in training the arm has responded satisfactorily, but Tony isn't sure of himself just yet.

Left Hands to Fly in Fight Here Monday

When Jack Fields of Chicago and Young Jack Thompson of San Francisco meet for the world's welterweight championship at the Coliseum next Monday night a battle of left hands will take place.

Fields has one of the best left hands I ever have seen," Eddie McGearty, former middleweight, who threw many left hooks himself, said. "He knows how to draw a lead and counter."

When Thompson stopped Joe Dundee, the welterweight champion, here last summer, he used his left effectively. Thompson can hit with a right hand, too.

Both engaged in strenuous work-outs at local gymnasiums. Each boxed and went through the usual amount of floor work. They went on the road in the morning.

Promoter James C. Mullen yesterday announced the supporting card of six fights, five rounds each. Danny Delmont, a west side lightweight, and Spug Myers of Pocatello, Idaho, will be the principals in the five round semi-windup.

The other fights will bring together Haakon Hansen and Mike Saura, Jimmy Mollette and Andy Sattile, Al Greenfield and Louie Avery, Fay Kosky and Soldier Dombrowski, and Johnny Sherrod and King Levinsky.

LOMSKI DROPS 10 ROUND DECISION TO ROSENBLUM

Philadelphia, March 18.—(AP)—Maxie Rosenbloom, New York, 168, won the decision over Leo Lomski, Aberdeen, Wash., in a 10 round fight at the arena tonight.

Preceding this bout Pinkie Kauffman, Hartford, Conn., 141, pounded his way to a technical knockout over King Tut, Minneapolis, 138, in the second round.

Joe Dundee at Last Signs to Risk His Welter Title

Boston, Mass., March 18.—(AP)—Joe Dundee, welterweight champion, today signed a contract for Eddie Mack, boxing promoter at the Boston Garden, to defend his title here at Braves field June 24. Mack was authorized to name Al Mello, Jackie Fields, Jimmy McLarnin, or Young Jack Thompson as Dundee's opponent.

Loughran Says He Will Make Weight Easily

Tommy Loughran has taken off enough weight to assure his handlers that he will have no trouble making 175 pounds for his light heavyweight championship battle with Mickey Walker at the opening of Harmon's new stadium March 28.

Members of his training camp made the prediction after the champion had put in his drill at the Arcade gymnasium yesterday. Tommy added a few words to the effect that at 175 he will give a better account of himself than he would if fighting in the heavyweight class.

"I was slowed down building up for heavyweights and if Walker isn't careful he'll be slowed down building up for me," Tommy said.

Loughran's rehearsal yesterday was more lively than any he has staged here. He showed unusual speed and stepped around in his boxing rehearsal at a great clip. He displayed a clever left and tossed a shower of right hand punches to his sparring mates' bodies.

Walker's arrival tomorrow is expected to bolster his stock. Loughran's work since he opened his training quarters has been impressive. It has won him many followers.

Promoter Harmon indicated yesterday he may match the winner with James J. Braddock.

Central A.A.U. Boxing Bouts Start Tonight

More than 250 boys, from flyweight to heavyweight, will begin elimination contests tonight in the Central A. A. U. boxing tournament at 5345 West Madison street under the auspices of the Garfield Park Eagles. There will be four nights of boxing.

Winners in the eight divisions will be awarded belts emblematic of the championships with gold medals, the runners up to receive silver tokens. In addition the winners will be sent to the National A. A. U. championships in Boston the latter part of April. The team winning the most points will be awarded a trophy.

The contests tonight, which will number between twenty-five and thirty, will include the 112, 118, 126, and 135 pound divisions, and the boys in these classes are instructed to be at the hall promptly at 6 o'clock for weighing in and physical examination. Drawings will be made at that time, under the direction of Harry Berz.

The entry list for this 24th annual tournament exceeds any previous list by a wide margin. Illinois, Wisconsin, and Minnesota are represented, the only three states from which entries could be drawn.

Throng Impede San Juan Traffic to Greet Paulino

SAN JUAN, Porto Rico, March 18.—(AP)—Paulino Uzcudun's arrival this morning caused a thirty minute traffic tie-up about the Porto Rico line pier, where the largest crowd of recent years gathered to welcome the Spanish boxer.

Paulino left the pier in a motor car draped with Spanish flags with police on the running board to keep the crowd away. Sitting on the back of the seat, Lindbergh style, Paulino was escorted through the streets to his hotel. He will have less than a week to prepare for his bout with Francisco Cruz, a Portuguese, at the stadium here next Sunday.

The tournament committee, composed of C. H. Schulze, chairman; R. J. Terberry, Harry Berz, and Ed B. Popoiski, is well satisfied with the number of entries and the class of the boys who are expected to show their wares to capacity houses.

SEALS SELL STAR CATCHER.
San Francisco, Cal., March 18.—(AP)—Joe Seals, holdout catcher of the San Francisco Seals, has been sold to Indianapolis of the American association. Secretary George A. Putnam, announced today.

Make this a ROYAL Easter

Be better "suited" this year than ever before. Don't be content with the "almost what-you-want" that some able salesman may persuade you to take. If you feel like getting a certain color, pattern and style—see that you get it. The only sure way to do this, is to have your suit made to your personal measure.

\$25 FINE QUALITY
\$31.50 EXTRA FINE QUALITY
\$39.50 SUPER FINE QUALITY

Made for you, and you only—in just the color, just the cloth, just the style you prefer.

Get clothes at these low prices as fine as any now costing you \$60, \$75 or \$85. Royal quality fabrics—purest virgin wool—made for you on schedule time—no disappointments. Guaranteed to satisfy—or you don't pay.

Go MODERN SWITCH TO VAN HEUSEN

Manners of dress have changed! Until the Van Heusen Collar was offered to the men of America, collars were still made on the principles of the starch, uncomfortable, "gay" nineties.

Van Heusen put starch into the discard—and quickly became the fastest selling collar.

Van Heusen is smart. It's modern. Men by the thousands have recognized this and have switched to Van Heusen.

Elmer Spends an Unexciting Radio Evening

With Few Exceptions It's
a Letdown from Sunday.

BY ELMER DOUGLASS.

The splendors of Sunday's concerts and radio were absent last evening, although in some ways it was a splendid evening.

However, there was one concert program of unusual merit last evening. This was a program of anthems by the church choir, Noble Choir directing.

WLS, 9 to 9:30. An entire program of anthems is something different, and this one contained unfamiliar compositions of entrancing beauty, contrasted with familiar works of lasting interest, among them "The Lord Reigneth," by Leo Sowerby, "Savior, When Night Invades the Sky," by Donavan, and a musical gem of very great beauty and deep religious feeling, "Go, Dark Gethsemane," by Tertius Noble.

This sacred concert was fittingly followed by a secular program by the United Choral singers and orchestra from New York through WMAQ, 9:30 to 10. There were stirring warring numbers, but this was no detriment to the enjoyment of the broadcast.

The program was a mixed one. W-G-N's series of programs were of a distinct popular nature throughout the evening. The Gypsies orchestra program, from New York, 7:30 to 8:30, somehow maintains one's interest week after week throughout the year. It takes skillful programming to do that trick. The Family Party program, also from New York, 8:30 to 9:30, was orchestral and vocal, and featured Miss Olive Kline, popular soprano, as well as the W-G-N symphony orchestra, and the W-G-N dance orchestra.

I rather liked W-G-N's 9:30 to 10 program by Henry Hobart, tenor; the W-G-N symphony orchestra, and the W-G-N dance orchestra.

There are ten candidates for the five positions.

W-G-N's series of programs were of a distinct popular nature throughout the evening. The Gypsies orchestra program, from New York, 7:30 to 8:30, somehow maintains one's interest week after week throughout the year. It takes skillful programming to do that trick. The Family Party program, also from New York, 8:30 to 9:30, was orchestral and vocal, and featured Miss Olive Kline, popular soprano, as well as the W-G-N symphony orchestra, and the W-G-N dance orchestra.

I rather liked W-G-N's 9:30 to 10 program by Henry Hobart, tenor; the W-G-N symphony orchestra, and the W-G-N dance orchestra.

There are ten candidates for the five positions.

PRESSURE IN WHEAT MARKET LOWERS PRICES

**Corn, Oats and Rye Also
Register Losses.**

BY CHARLES MICHAELS.

Pressure was in evidence in the grain markets yesterday with local sentiment more bearish than of late and wheat 1 1/2% to 1% of Saturday only to rally from the inside figure on aggressive buying by strong commission houses. The finish was at net losses of 1/4% to 1/2% with March \$1.24 1/4 to \$1.24 1/2, and July \$1.21 1/4 to \$1.21 1/2.

Corn was sharply lower, and at the inside showed 1 1/2% to 1% under the previous close, and finished 1 1/4% to 1 1/2% lower, March being 94 1/2c and May 95 1/2c to 96 1/2c. Oats were off 1/4% to 1/2% with March 45 1/2c and May 45 1/2c, while rye was 1/4% to 1/2% lower, March being \$1.09 and May \$1.10 1/2.

Buying of wheat toward the last was hindered by commission houses in close touch with crop conditions in the southwest, and was said to be based on unfavorable reports from that section. Local shorts covered on the way up. Buying against bids was a factor in checking the decline.

March 1 Wheat Stocks.
J. P. Griffin was out with a statement calling attention to a liberal holding by strong domestic and foreign interests in futures, and also to the probability that congress would pass farm relief legislation by May 1, and the latter would likely be in a form that would have considerable influence on values. There was some buying by operators who felt that there was more between the lines of the statement than appeared on the surface.

Liquidation in Corn.
Corn market showed an overbought condition early with stop loss orders uncovered, and prices declined sharply, there being a noticeable lack of support, and sellers of bids were forced to protect themselves. Commission houses were free sellers early, while the rally in wheat led to buying on the break, and a good return from the inside figures. Purchases of 80,000 bu were made to arrive, including 50,000 bu No. 3 mixed from Kansas City. Visible supply increased 100,000 bu for the week, and is 34,238,000 bu, against 46,542,000 bu last year.

Buenos Ayres finished unchanged to 1/4c higher after being 1/4c lower early. Weather conditions were much more favorable for field work, and commission houses were persistent sellers of September oats, causing a lower range. March gained fractionally on the May. Buying of rye was largely on resting orders, with a light trade.

STOCK SPLITUP IS PLAN OF BALDWIN LOCOMOTIVE CO.

(Chicago Tribune Press Service.)
New York, March 18.—Baldwin Locomotive Works, in the shares of which there was excited speculation for many months prior to the announcement, late in 1927, that the Fisher Bros. of Detroit and Arthur Cutten of Chicago had purchased a substantial interest in the company, is planning to split its stock on a basis that will give present holders at least four shares for every one now owned.

This became known in Wall street today while Baldwin shares were staging an advance reminiscent of the spectacular price movements of 1927. The stock, which has been extremely inactive for a year or so, advanced today from a low of 23 1/2, at which it opened, to a high of 25 1/2, at which it closed. The net gain on the day was 26 points. The turnover was 8,000 shares, whereas the transactions usually amount to only a few hundred shares.

Today's advance, which was one of the features of the market, was accompanied by reports of a split-up that were confirmed later in the day by interests close to the management. It was believed that the plan would call for a four for one split-up. The capital readjustment may call for a five for one or a six for one split, it was said.

CASH GRAIN NEWS

Foreigners were indifferent regarding North American grains, although there were sales of No. 3 northern by a Winnipeg handler for all rail shipment to Quebec. Local handlers sold 4,000 bu wheat; 55,000 bu corn, and 47,000 bu oats to the domestic trade with 10,000 bu rye to go to store. Deliveries on March contracts were 70,000 bu wheat; 20,000 bu corn, and 25,000 bu oats.

Official receipts of grain at Chicago

Monday: Wheat, 41 cars; corn, 197 cars; oats, 33 cars; rye, 10 cars; barley, 23 cars.

Range of cash grain prices in leading markets follows:

DE LEASES
MOTHER STATE
STREET STORE
Walgreen Rents Corner
at Lake and State.

BY AL CHASE.
The big chain store organizations
have signed leases for space in
the six story Loop End building at
the southeast corner of State and
Walgreen has taken the corner
store and the Golde Clothes Shop,
has leased a twenty foot first
entrance to 5,000 square feet of
space on the second story. This will
be the twelfth Chicago branch of the
chain store and its 40th unit in its
national chain.
The Walgreen lease gives that con-
cern another good sized State street
store. In fact its second in the block
extending from Randolph to Lake,
the company's 13th drug
store in Chicago. It is stated, "The
lease is for fifteen years at an un-
derground rental. The store will have
5,000 square feet of floor space. Ex-
tensive remodeling is now being done.
The Walgreen and the Golde
stores are from Sol Goldberg, lessor,
who leased the property for a ninety-
year term some months ago.
Mr. Hahn, general manager of the
Walgreen concern, and Ascher Goldfine
represented Mr. Goldberg. Fisher,
Kales & Bell were his attor-
neys.
Mr. Goldberg, inventor of the hump
pin, and president of the Hump
Pin Manufacturing company,
leased the State and Lake corner lot
and at that time stated
that he contemplated erecting a mon-
umental building. Yesterday's leases,
for fifteen year terms, indicate
that he has changed his mind, at least
temporarily. He pays an average an-
nual rental to James F. Porter, owner
of the fee, of \$115,000.
West Side Restaurant Lease.
John Raklos & Co. have leased four
corners at the southwest corner of Mad-
ison and Halsted streets, just off the
corner, for a period of years at an un-
derground rental. George P. Chigouris
was the only broker. Minnie
J. Warren, Jennie M. Moberly, and
Stratford L. Peacock were lessors. Two
of the stores front on Madison, at
Nos. 127-29, and two are at 3 and 5
South Halsted, formerly a large L
store, to be used for the
lease's 4th Chicago restaurant.
The United Rug Stores, at 3254
Madison avenue, have leased for twenty
years, beginning May 1, the two story
building at 3121-23 Lincoln avenue
from Mrs. Edna F. Cluever and her
sister, Walter H. Struve, at a re-
served term rental of \$20,000. J. L.
Miller of the Lake View Trust and
Savings bank was broker.
The Westark Radio Stores, Inc.,
have leased space at 478 South Ash-
land avenue and at 847 East 84th street
for new branch shops. L. Simon of
Michael Plicht & Co. represented the
leasees.

**COPPER MARKET
IN TURMOIL AS
PRICE JUMPS**
(Chicago Tribune Press Service.)
New York, March 18.—The market
for copper metal was thrown into
turmoil today, as the London metal
market advanced, and producers were
unable to decide on the advisability of
a further increase in prices. What little
was sold was said to be a jump of a
cent a pound, domestic, a jump of a
cent over the week end, but most
producers refused to quote prices,
pending developments.
Copper has increased about 5 cents
a pound so far in 1929 and about 9
cents in the last year. Twenty cents
was generally regarded as the objec-
tive of the present move, but to the
surprise of the trade, the price went
up 21 cents last week and 23 and even
24 cent copper was predicted, says
the Associated Press. Some produc-
ers, however, are said to feel that con-
sumption would eventually suffer if
prices are allowed to go higher.
European consumers were said to
be in a semi-panic over obtaining their
supplies, and standard copper on the
London metal exchange soared 17
cents today. Foreign consumers
ramped up quickly the 3,000,000
tons that Copper Exporters, Inc.,
was willing to sell at 21 1/2 cents
today.

FINANCIAL NOTES
Offering of common stock of Abbott
laboratories, an Illinois corporation
which operates a larger pharmaceu-
tical plant at North Chicago, is to be
made shortly by A. C. Becker and
company and the National Republic
company.
The Harris Trust and Savings bank
and Halsey, Stuart & Co., are offering
\$100,000 Eastern Utilities Investing
corporation 5 per cent debentures with
issue "A" common stock purchase
rights, entering the holder to pur-
chase 20 shares of stock between Dec.
1, 1929, and Dec. 31, 1934, at \$15 per
share. The debentures are due March
1, 1934, and are offered at 98 and in-
terest.
A new issue of \$35,000,000 5 per
cent debentures, carrying class A
common stock purchase warrants of
Western Utilities Investing Corpora-
tion, is being marketed at 98. The
sale is being marketed at 98. The
sale is by Associated Gas and Elec-
tric system officials.
The newly formed Great Britain
and Canada Investment corporation
is marketing \$6,000,000 of its 30 year
5 per cent convertible debentures
at 100. Each \$1,000 carries a warrant
entitling holder to receive free ten
shares of common stock.
Directors of the Atlantic Refining
company, Philadelphia, have voted to
issue outstanding \$20,000,000 7 per
cent preferred stock at \$115 on May 1
to offer stockholders of record
common stock at \$40 a share in ratio
of one new share for every three
shares held. Based on Saturday's clos-
ing price of 64 1/2 for Atlantic Refining
common, the rights are valued at
\$1.18 a share.

Consumers.
E. E. J.—Consumers company (Chi-
cago) earnings fell off considerably
in 1928.
Total sales in 1928 were \$18,394,
211, as compared with \$19,620,473 in
1927.
Net income after depreciation and
taxes was \$587,964 in 1928; it was
\$490,373 in 1927.
Earnings per share on 45,000 shares
of 7 1/2 per cent stock were \$7.17
per share in 1928 and \$15.45 in 1927.
Earnings on 652,535 shares of com-
mon stock were one cent per share
in 1928. In 1927 earnings on the
common were 58 cents on 650,475
shares.
Profit and loss surplus was \$2,403,
211 at the close of 1928, and \$3,590,
146 the previous year.
Current assets of \$5,127,815 and cur-
rent liabilities of \$1,635,576 on Decem-
ber 31, 1928, left a net working capi-
tal of \$3,492,239. This compares with
\$3,553,171 at the end of 1927.
Dividends are paid on the 6 per
cent prior preferred and the 7 per
cent preferred. None on the common.
The prior preferred deserves a fairly
good rating. The preferred is medium
grade and speculative. The common
is a speculation.

Brief Answers.
H. N.—Pittsburgh and West Vir-
ginia railway first gold 4 1/2s, series
"A," due Dec. 1, 1936, are a sound
investment.
F. R. W., Mendota, Ill.—Rumford
Falls Power company first gold 4s,
due Oct. 1, 1945, are a sound invest-
ment.

CONTINENTAL ILLINOIS BANK AND TRUST COMPANY CHICAGO

CHICAGO STOCKS HIGHER AT END OF BOUOYANT SESSION

U. S. Radio Shares Climb Up 14 Points.

BY GEORGE HAMMOND.

Stocks closed higher on the Chicago exchange yesterday after a rather buoyant session which was marred by the pushing up of the call money rate from 7 to 8 per cent in the final hour of trading. A number of issues eased off from their high points of the day, while many of the less active shares closed lower.

The most sensational issue of the day was U. S. Radio, which opened 11 points higher than the previous close, soared 17 points to a top of 137 and ended to 134 at the close, up 14 points net. Reports were current that the company will earn between \$20 and \$40 a share during 1929 on the profits of contracts now held. W. C. Perkins, president, stated that both shipments and orders received in the first two months of 1929 were more than 250 per cent ahead of those for the same period last year.

Early Dealings.
Grigsby-Grumold sold up 4 1/2 points in early dealings but lost all but 1 1/2 points of the gain. Ceco eased 1 1/2. The remainder of the radio group were quiet. Ken-Rad Radio was up a fraction on announcement that the company has signed a contract for the construction of a four story plant as an addition to its plant at Owensboro, Ky. The addition is expected to expand production facilities by 50,000 radio tubes a day.

Chicago City & Connecting railway preferred shot up 1/2 point in reflection of expectations of an early trading settlement, but in late deal it fell one point of the gain was held. Middle West Utilities and Commonwealth Edison were up three and two points, respectively, and gains of two points each were made by Yates Machine, C. M. Castle, Super Maid and Sully Bros. C. O. Mohawk Rubber, Inland Wire, Hyerson Steel, and Jefferson Electric eased a point or so. Bendix featured the automotive division with a jump of 6 1/2 points on the statement of Vincent Bendix, president, at the annual meeting, but not including the income of the Eclipse Machine company, which it controls, was about \$2,220,000, and that if the Eclipse earnings were included the net would be \$2,700,000. Mr. Bendix added that negotiations are pending for the acquisition of additional subsidiaries. Stockholders added John C. Ferguson and W. L. McGrath, president, and vice president, respectively, of the Eclipse company to the board.

Expansion Plans.
Foot-Burt sold up 2 points. The company manufactures special standard machine tools, and George E. Handley, president, stated that it has established four new European agencies. Potter company announced that income after all charges, but not including the income of the Eclipse Machine company, which it controls, was about \$2,220,000, and that if the Eclipse earnings were included the net would be \$2,700,000. Mr. Bendix added that negotiations are pending for the acquisition of additional subsidiaries. Stockholders added John C. Ferguson and W. L. McGrath, president, and vice president, respectively, of the Eclipse company to the board.

SUGAR.
NEW YORK, March 18.—SUGAR—Raw unchanged today. Cane and duty free sugars were offered in prompt delivery at 37.75, but buyers showed no interest. Above 37.75. Price changes in raw futures were narrow, but the undertone was steady. The close at 1 point lower to 1 point higher. Approximate rates, 35.50 cents. Prices for the day low.

RAW SILK.
NEW YORK, March 18.—(AP)—SILK—Raw futures closed quiet, with a slight rise. Rebel Governor Asks Peace Terms as Government Forces March into Torreon—Byrd's Three Airmen Missing

REGAINS HAPPINESS WITH RESTORED BABY.
Mrs. Ethel Hoffman with her babies, Jesse, 2 weeks, who was returned after being deserted, and Bobby, 14 months. Her story of poverty brought her food and money, and she is going home to El Reno, Okla. (Story on page 5.)

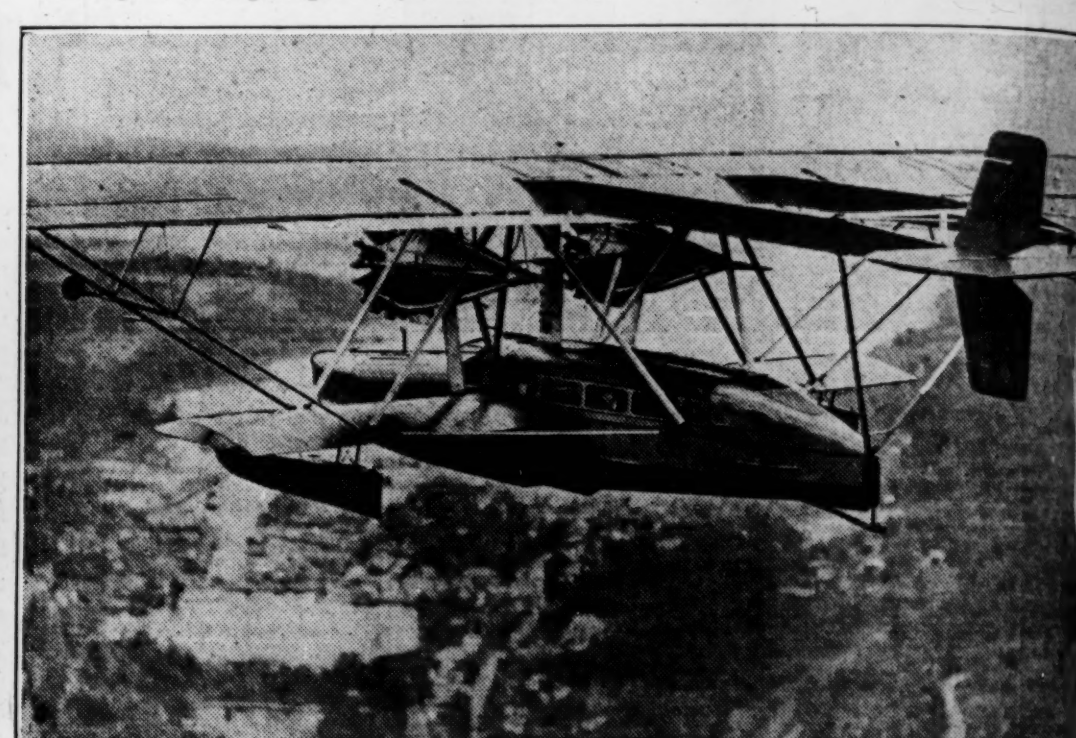

FEDERAL TROOPS ENTER TORREON AS MEXICAN REBELS RETREAT NORTH.
Gen. Jose Gonzalo Escobar, who is now making his headquarters at Escalon, supervising the entrainment of his troops at the town which he has just abandoned. (Story on page 1.)

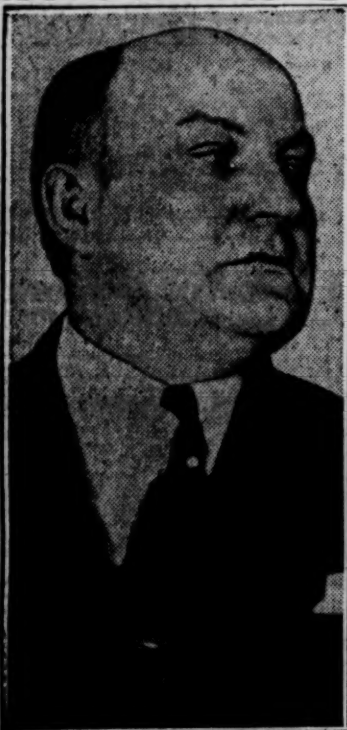

AIRMEN WITH BYRD ANTARCTIC EXPEDITION FAIL TO REPORT FOR THREE DAYS. Left to right: Larry Gould, Bernt Balchen, and Harold June, who are missing after starting on aerial geological trip to the Rockefeller mountains. (Story on page 20.)

CHICAGO'S FIRST BILLION DOLLAR BANK OPENS FOR BUSINESS. Left to right: Eugene M. Stevens, president; George M. Reynolds, chairman executive committee, and Arthur Reynolds, chairman board of directors of Continental Illinois Bank and Trust company, in G. M. Reynolds' office surrounded by flowers. (Story on page 33.)

TRIBUNE'S WATER AND LAND PLANE WILL ARRIVE IN CHICAGO TODAY. The Untin Bowler, twin motored battleship amphibian, newly out of the Sikorsky plant, which will fly here from Curtiss field by the Albany, Buffalo, Cleveland, Toledo route. (Story on page 9.)

WIFE SLAYER FIGHTS TO REGAIN PROPERTY.
George Remus, former bootleg king, and his daughter, Romola Remus, on stand in Judge David M. Brothers' court. (TIMBUNE Photo.) (Story on page 3.)

START TO GET JURY TO TRY VIRGIL LITZINGER.
Virgil Litzinger, charged with murder, and his attorneys (backs turned to camera) in Judge McGoorty's court. (TIMBUNE Photo.) (Story on page 3.)

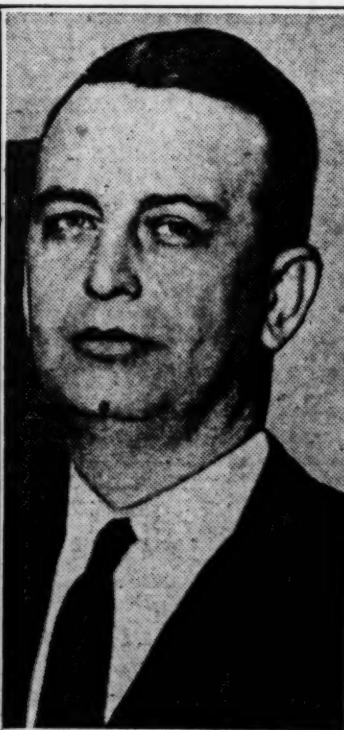

SHOE SHOW OPENS.
Isabelle Ahrens with smallest and largest shoes exhibited by repairers. (Story on page 24.)

JUAREZ, Chihuahua, March 19.—(AP)—Fifteen said to have been a guer recruited in El Paso, were a brief battle today when surprised by rebel troops, it was learned here.

(Pictures on back page)
HEADQUARTERS OF GEN. ESCOBAR'S ARMY, JIMINEZ, Chihuahua, March 19.—(AP)—The northernmost of the Mexican rebel Gen. Jose Gonzalo Escobar today. Trains which yesterday north from Torreon to Escalon, Jimenez, further north, late. As Gen. Escobar prepared his troops out of Escalon, a plane appeared over the town, dropping bombs near troops. civilian, the town's baker. Abandonment of the rebel hold at Torreon and the retreat into Chihuahua was called the "tactical maneuvers" the federal columns of Gen. Calles into the mountainous.

Rebel Chief Still Confident.
Belittling the advances of the army from the south, Escobar in a statement would "see no significance" that the enemy occupies a town, intentionally evacuated. Confidence that the revolution carry their warfare to ultimate was expressed by the insurgent leader.

"From our new base we are preparing an offensive against forces with efficient aid of which are cooperating simultaneously in Zacatecas, Aguascalientes, Potosi and other places," the statement issued from the rebel's headquarters. Gen. Calles' approach from the west will be impeded by the new through the mountains of where railroad tracks have been up by the rebels.

Claim Victories in Rebel Headquarters.
Rebel headquarters reported today in Sinaloa and the west coast, claiming to have captured the cities of Rosario and Acapulco. Government methods of the war were assailed by Gen. Calles, who said the population of the city menace of air attacks, he adding that "I will allow myself to be captured by thinking has captured the city while this campaign to its definition."

Battles should not be fought, said Gen. Escobar, pressed indignation over which cost four civilian bombs were dropped on federal aviators.

Sees War Rules Violated.
"My feeling is of such indignation that I cannot express in my crude soldier's language," continued. "I cannot find enough to describe my feelings toward the order of Calles, the people of Torreon, the men, women, and children, violating the rules of civilization and rights of noncombatants." "In all zones dominated by revolution every workingman was able to continue his occupation under broad guarantee in contrast with the of the Calles tyrants who their prisoners and assassinate those who sympathize with the revolution." "All of us from the suppression know well that gambling with our lives is not inclined to abandon. Because of that fact I have the first that I would not people of cities to the consequence and now I reaffirm my position of noncombatant."

Rebels Deny Peace.
"Reports of a proposal for peace were emphatically denied," Marcelo Caraveo, governor of Chihuahua, in a message today to Gen. Calles. He said that the insurgent forces at Juarez were not interested in an announcement by Enrique Mexican consul general in that President Porfirio Gil had (Continued on page 8.)
